Dear Friends:

As per your request for the words of the Internationalists, they are as follows:

INTERNATIONALISTS

Arise ye prisoners of starvation,
 Arise ye wretches of the earth,
 For justice thunders condemnation,
 A better world is in birth.
 No more traditions chains shall bind us,
 Arise ye slaves, no more enthral!
 The earth shall rise on new foundations,
 No more shall we be slain 'till all.

Chorus:
 'Tis the steepest ascent,
 Let each stand in his place,
 The International party shall be the human race.
 (Repeat)

We ask no compensating rewards,
 We rule us from a judgment hall,
 No workers ask not for their favors,
 Let us decide for all.
 To make the thief slay his booty,
 To free the spirit from its cell,
 We must ourselves decide our duty,
 We must decide and so it will.
 Chorus.....

Very truly yours,

(Mrs.) V. Holstead

Вопросы, связанные с подготовкой к предстоящему съезду ЦК КПСС, являются для нас чрезвычайно актуальными. Мы должны быть готовы к тому, чтобы в полной мере реализовать волеизъявление партии и народа. В этом отношении особое значение имеет работа по повышению качества партийных кадров. Необходимо обеспечить, чтобы каждый кандидат в члены партии был действительно достойным. Это требует от нас тщательной проверки и воспитания. Мы должны помнить, что партия — это авангард рабочего класса, и ее кадры должны быть готовы к любой борьбе. В связи с этим особое внимание следует уделять политическому образованию и воспитанию молодежи. Только так мы сможем обеспечить будущее нашей страны и партии.

СЛУЖИТЬ ПЕРЕДОВЫМ ИДЕЯМ НАШЕЙ ЭПОХИ

Участие в работе передовиков — это не просто почетное звание, это реальная ответственность. Передовики — это те, кто идет в ногу с прогрессом, кто борется за лучшее. Их опыт и знания — это богатство для всех. Мы должны учиться у них, брать пример с них. Это особенно важно в условиях перестройки, когда перед нами стоят новые задачи. Мы должны быть готовы к тому, чтобы брать на себя ответственность, быть инициативными. Только так мы сможем достичь тех успехов, к которым мы стремимся. Пусть каждый из нас будет передовиком в своем деле, пусть каждый будет служить идеям нашей эпохи.

September 19, 1963

Dear Mr. Oswald:

Your letter of August 28th to Elizabeth G. Flynn was turned over to me for reply. Since I received your letter of September 1st indicating that you are moving to Baltimore, I suggest that when you do move that you get in touch with us here and we will find some way of getting in touch with you in that city.

While the point you make about your residence in the Soviet Union may be utilized by some people, I think you have to recognize that as an American citizen who is now in this country, you have a right to participate in such organizations as you want, but at the same time there are a number of organizations, including possibly Mr. Pity, which are of a very broad character, and often it is advisable for some people to remain in the background, not underway. I assume this is pretty much of an academic question now, and we can discuss it later.

Sincerely yours,

Arnold Joffe

Dear Mr. Oswald:

Your letter and reproductions were turned over to me by the SWP office.

I am familiar with reproductions and offset printing processes. It is clear from your work that you are skilled at blow-ups, reversals and reproduction work generally. Do you do any other phases of the process as well as photography? What about layout and art work?

We have access to a small offset shop here in New York. Generally, when we need any copy work done we have taken it there directly. However there might very well be occasions when we could utilize your skill for some printing project. It would, of course, necessarily have to be a project in which we would have flexibility as to time. It is not easy to do anything in which there is pressure to get a job out immediately through correspondence between New York and Texas. Such work must be done locally, out of necessity. However, for a longer term project it might be possible to ask your aid.

Could you write to me directly at the above address? I would like to have what you tellers you have; how large a paper print you can make; how large a negative; and any other technical information that you can give us that would help us judge how your aid could be most effective. If you have any questions please feel free to ask me and I will try to respond promptly.

With best wishes for a year of progress

Dear Mr. Oswald:

We have your clipping requesting application for membership in the Socialist Workers Party.

We are sorry for the delay in answering your letter.

Our constitution requires that there must be a minimum of five members before a branch of the Socialist Workers Party can be formed and it is not our practice to take in individual members where no branch yet exists. Unfortunately we don't have any branches at all in Texas.

We very much appreciate, however, your request for membership in the party and wish to continue on a basis of close sympathetic relation with you until such time as a branch of the SWP can exist in Dallas. Pending the necessary basis for such a local structure, we suggest that you concentrate on seeking subscribers to the Militant and promote the sale of socialist literature obtainable through Pioneer Publishers. Through contacts you may be able to develop on this basis let us hope it will be possible before too long to welcome a Dallas, Texas branch into the party.

In line with the above I am taking the liberty of sending a number of subscription blanks to the Militant so that you can have full advantage of our introductory offer of a month for only \$1. We have had great success nationally with our subscription campaign. Also, you yourself should be sure to subscribe to both the Militant and International Socialist Review as you will find them excellent sources of socialist literature and information.

Please keep in touch with us.

With best wishes.

Sincerely,

Your letter to the WORKER has been referred to me for reply.

It is good to know that movements in support of fair play for Cuba has developed in New Orleans as well as in other cities. We do not have any organizational ties with the Committee, and yet there is much material that we learn from time to time that is important for anybody who is concerned about developments in Cuba.

Dear Friends:

Thank you for your prompt reply. Enclosed are your card and receipt, along with our stamps and orders.

Your interest in helping to form an FPOC Chapter in New Orleans is greatly appreciated. I shall try to give you some basic information now so that you may have a better picture of what this entails.

For one thing, I am enclosing a copy of our Constitution and By-Laws for all Chapters and Student Chapters. You will note that there is considerable authority for an organization our size. We try and let all Chapters operate according to the local requirements. Naturally, there are minimal regulations which must be met.

(All Chapters can receive literature in bulk at a discounted rate and receive at the retail price and use the proceeds for further Chapter activities.) Credit is extended and payment is not required until the order. We do expect prompt attention to be given so that we may continue our end of the operation.

It would be hard to envision of a chapter with as few members as ours to exist in the New Orleans area. I have just gone through our files and find that Louisiana seems somewhat restricted for Fair Play activities. However, with what is there perhaps you could build a larger group if a few members could embrace the disciplinary responsibility of a more conventional group.

We certainly are not at all adverse to a very small Chapter but certainly would expect that there would be at least twice the normal amount to conduct a legal executive board for the chapter. Should this be possible we could possibly issue a charter for

Dear Lee:

This morning I was speaking with one of our professors who heard the talk you gave at the University of Alabama. He thought that you made a number of good points. One of them was your criticism of speculation in the capitalistic system. He stated that speculation with gambling. It seems to be another form of it. Another point was your criticism of exploitation which occurs in capitalism. On both these points, speculation and exploitation, the Pope has spoken strongly against them in the past 70 years. On the other hand, the professor to whom I am referring thought that you hadn't made sufficient application. Applying the criticism of speculation and exploitation in our country, it seems that these things are regulated. In the instances where certain individuals do overstep their bounds, it seems that such occurrences are practically inevitable in a free society. If we are going to have freedom which then strict regulation, then the government will eventually find it very difficult to curb all abuses. The difficulty with communism is that it suppresses freedom, as you indicated, in order to obtain efficiency.

You mentioned that there are good and bad points in each system and that possibly the best system would be a fusion of the good points of both capitalism and communism, something approaching socialism. It seems that socialism might work in a small society but again, when we apply this to our own country, it appears that we are very similar and that it would be very difficult for the government sufficiently to control such a complex society as ours along the lines of socialism. Also here again, socialism takes the sacrifice of freedom in practice if it is going to work. Freedom seems to be a fundamental human value precious to every man. I think that freedom can be retained and yet we can still have a just economic, political and social system. Of course this requires that each man live up to the obligations and responsibilities of respecting the freedom of other men and exercising his own freedom in a just way. Perhaps it is more difficult to achieve a just social order by relying on individuals to show initiative and responsibility in respecting rights and living up to duties, but it seems that a society based on respect for justice and individual worth is much more lasting and solidly founded and more in accord with man's nature.

The Pope beginning with Leo XIII in 1878 and continuing through the present day has given considerable thought and energy to how to think through to a solution of economic, political and social abuses. You might get some ideas from the Catholic encyclicals which the Pope has been issuing from time to time. I think that the stimulation to your own thinking on the matter.

That's about all for now. Stay up regards to Marie.

This morning I was speaking with one of our professors who heard the talk you gave to us. He thought that you made a number of good points. One of these was your criticism of speculation in the capitalistic system. He quoted stock speculation with gambling. It seems to be another form of it. Another point was your criticism of exploitation which occurs in capitalism. On both these points, speculation and exploitation, the Pope has spoken strongly against them in the past 70 years.

On the other hand, the professor to whom I am referring thought that you hadn't made sufficient application. Applying the criticism of speculation and exploitation in our country, it seems that these things are regulated. In the instances where certain individuals do overstep their bounds, it seems that such occurrences are practically inevitable in a free society. If we are going to have freedom rather than strict regimentation, then the government will naturally find it very difficult to curb all abuses. The difficulty with communism is that it suppresses freedom, as you indicated, in order to obtain efficiency.

You mentioned that there are good and bad points in each system and that possibly the best system would be a fusion of the good points of both capitalism and communism, something approaching socialism. Perhaps it is more difficult to achieve a just social order by relying on individuals to show initiative and responsibility in respecting rights and living up to duties, but it seems that a society based on respect for justice and individual worth is much more lasting and solidly founded and more in accord with man's nature.

The Popes beginning with Leo XIII in 1878 and continuing up to the present day have given considerable thought and energy in trying to think through to a solution of economic and social and political abuses. Dear Mr. Powell:

This is just a very brief note to express my thanks for the talk you gave us on Russia Saturday, July 27th. I feel that I came away from your talk with an understanding of the Russian people as a people, with ideals, goals, problems--normal, everyday human beings, something that is quite easy to forget with all the threats of war hanging in the air. I find your talk has helped to make me a broader and deeper person, more universal and sympathetic in my thinking. I hope in the future both America and Russia can draw closer to one another and thereby increase in friendship and understanding.

I also wish to tell you that I greatly admire you search for truth and your living in Russia, and I hope you have or will find it.

You can be assured of a warmest remembrance in my prayers and desires, you, your wife, and your family.

With sincere regards,

Paul Pierce

Dear Lee and "sons":

Here at the House of Studies during the summer months we have a series of lectures on various subjects given by different persons from the neighboring areas. These subjects usually deal with art, literature, economy, religion, politics, etc. We usually have a speaker every two or three weeks on a Saturday or Sunday night. Since we are studying philosophy, most of us are interested in the various phases of Communism, as this is a very timely and pertinent subject.

We were hoping that you might come over to talk to us about contemporary Russia and the practices of "Marxism" there. A number of speakers have already been contacted and have definite dates on which they will speak. The best time for us to have you speak, if you are willing, is on Saturday night, July 27. The talk usually begins at 7:00 and lasts for about an hour. Then there is a five minute intermission and the speaker returns for a question period which may last a half-hour or so. Then I say that we would like to have you speak on contemporary Russia and the practices of Communism there, this is only a general idea of what we want you to do. However, I think you will understand the need to be there in Russia and to present the talk and the material in whatever way you like. It can be as informal as you like and whatever way you like. In other words, don't feel a restriction of your own observations. Also, when I say that it ought to be very formal and theoretical. Also, when I say that the talk usually lasts for an hour, I don't mean that it has to be that long. This is rather by way of a time limit. You may use whatever notes you may wish to prepare. In short, do it the way you feel you want to do it and be assured that we want you to feel at home in talking to us.

We have about 90 men who are studying philosophy in the houses usually about 25 or so will attend these talks. We hope that you will accept our invitation and I think you will find it a good experience, as I'm sure we will love to have you around here. I wrote my family today telling them that I planned to invite you for this occasion. They had already told me on the 1st last week that they hoped to invite you to come over with them when they come here sometime. I asked them if they wouldn't mind arranging to make a visit here for the same occasion so that you could come together. I told them that I would ask you to call them to make plans ahead. You can let me know what you think about the matter and ask any further questions you may want to know about the situation. Drop me a line when you get a chance.

Sincerely,
Paul Pierce
