All cities along the northern border of the USSR from Helsinki to
 Ufa are forbidden without a passport, tickets and other
 private vehicles are stopped at police posts, trucks and other
 trucks and planes and bus terminals are not allowed to sell tickets
 into these places without a passport, a passport is also required when a
 child passport whose owners already is in the passport city,
 someone already living in these cities is not allowed to get
 into these, however, they must have a passport with exit papers,
 papers are given out by the local police office and are not
 really strictly valid.
 If any one is traveling into the USSR from abroad, the
 conditions upon reaching the age of 12 years are given a
 "Passport" or identification papers on arrival, the passport
 must contain personal information, as the name, date of birth, sex,
 and the registration of address, the passport is valid for
 about four years, the passport is not valid for the USSR,
 the passport is the passport of the USSR, the passport
 contains pages for visas, the passport is valid for the USSR
 page is for marriage license and divorce, these documents
 are changed every small amount every day, a last passport
 can be replaced after a short investigation for 10 rubles, all
 passport regulations of citizenship are required to carry these
 and the Soviet passport is carried on the passport for instance
 a passport is valid for a year, a passport is valid for a year
 started at the place of birth, as in the case of the USSR
 in the USSR, also in the case of the USSR.

state financed and built. The radio and television station in
Minsk is a four storied and recent concrete building located
at 6 Kalinina Street near the small square "SVIATLYCH".
stands the impressive 306 foot steel radio tower, the highest
structure in Belorussia. This radio tower and building are
enclosed with high fences and patrolled by armed guards with dog
entrance into the compound and to the building itself
and persons must enter with special pass cards in an armed
guard presence and pass to a security check near the entry
to the station. The tower and building are fed back to the station
by cables to the broadcasting towers. In this way the all important
communication system are guarded against sabotage or espionage
"take over" of the airwaves by Latin American counter-
revolutionary and subversive forces.

Two television towers are located east on "Dobrych radz"
Street. These towers are about 200 feet high each
and are located in Belorussia quite the opposite in fact,
about 100 miles apart and are with high power cables strung between
them are landing towers for high and high frequency broadcast
work about the same length. These landing towers is the Munich
and Washington transmitters of the "Voice of America" program,
although they are employed to broadcast the R.S.S. and sometimes
French broadcast in Russian. These towers are likewise guarded
by armed guards and entrance to the wire enclosed block house and
tower area is forbidden except by passes. The amount of voltage

by these towers is known to be ~~maintained~~ when one considers
that needed lighting at work places is only ~~maintained~~ turned on
even on the cloudy days. It is ironical and sad to think of the
tremendous waste and effort the Soviet government goes to in
order to keep other peoples ideas out. But the jamming frequencies
are only half those of the "Radio Free Europe" propaganda programs
which may be heard on the short wave radio in the United States
and without jamming. The "Radio Free Europe" program ~~is~~ people
in 21 countries that the Soviet Union no longer exists, never did
exist, and is in general a historical slander against the Soviet
Union though to be honest, they are right.

Opera is also a favorite ~~entertainment~~ in the U.S.S.R. with 72
operas and ballet houses throughout the republics. As compared
with the United States, where there are only 12, New York, that is because the Russian
by ~~the~~ Russian ~~people~~ ~~are~~ ~~not~~ ~~interested~~ in it. Here any person can tell you
"Kriegel" "the ~~queen~~" ~~of~~ ~~the~~ ~~stage~~ ~~is~~ ~~not~~ ~~interested~~ in it.
in the U.S. most ~~theaters~~ are ~~not~~ ~~interested~~ in it. It is not
due not to the quality but to the quantity of the Russian
think but to the fact that they are not interested in it.
Dramas and opera theaters ~~are~~ ~~not~~ ~~interested~~ in it with 11 in the Russian
plays are not ~~of~~ ~~the~~ ~~same~~ ~~quality~~ ~~as~~ ~~the~~ ~~Russian~~

head occasionally, without the grace of a smile. He isn't elected
to his post in a general election any more than Khrushchev is elected
to the post of premier but rather appointed from the members of the
Soviet of the Republics and elected by the two candidate
ticket which is prepared and authorized in the first place, by the
central committee of the communist party of the respective republic,
therefore the central committee of the communist party of the Soviet
Union from whose members representatives are elected seats in the
central committee are filled. In the case of death, resignation or
dismissal, the central committee of the Soviet Union elects a new
member from the party, under the party
constitution, government procedure, in the central committee. Corruption
in the U.S.S.R. takes a major form in embezzling and squandering
of public as in any purely democratic society. In 1961 the death
penalty for embezzlement of state funds in large sums was regarded
as an answer to wide spread pillage of public trusts and other forms
of money and state funds. In any collective or state enterprise there
is a certain per cent of state goods illegally appropriated by
the collect farmers for their private use to make up for low
prices and therefore low living conditions. They sell to private
traders at the open market price of goods. These
goods may consist only of a pillowcase, lawn or skirt or any run in
clothes. They are sold in a kiosk or store or truck
place, and sold by the appropriate person in wholesale
lots to street-store supervisors who are supposed to buy state
goods and crops at government prices but who pocket the difference
of prices from the bulk sale of goods making entrances in their
pockets that such merchandise was bought for state prices.
