Memorandum

TO : **FYEE (100-10461)**

DATE: **9/11/64**

FROM : **SAC SHANKLIN**

SUBJECT: **LEE HARVEY OSWALD, aka
IS - R - CUBA**

Mr. GEORGE H. SCATTERDAY, Bureau, called at 9:10 AM today and stated they had had a request from the Commission in connection with Mr. TRULY of the Texas School Book Depository. He stated that TRULY had been contacted by one of the Commission's staff within the last day or two and advised that he would be interviewed by the FBI and was also told what the interview would be for.

The Commission desires to determine from TRULY the following:

(1) Approximate weight of each of the Rolling Readers cartons when they are loaded with Rolling Readers.

*9 lbs.
55 lbs. each.
50 + 50*

(2) The approximate weights of the other two cartons at the window with their contents.

(3) Ask TRULY if there were any cartons on the 6th floor which could not be handled by one male individual.

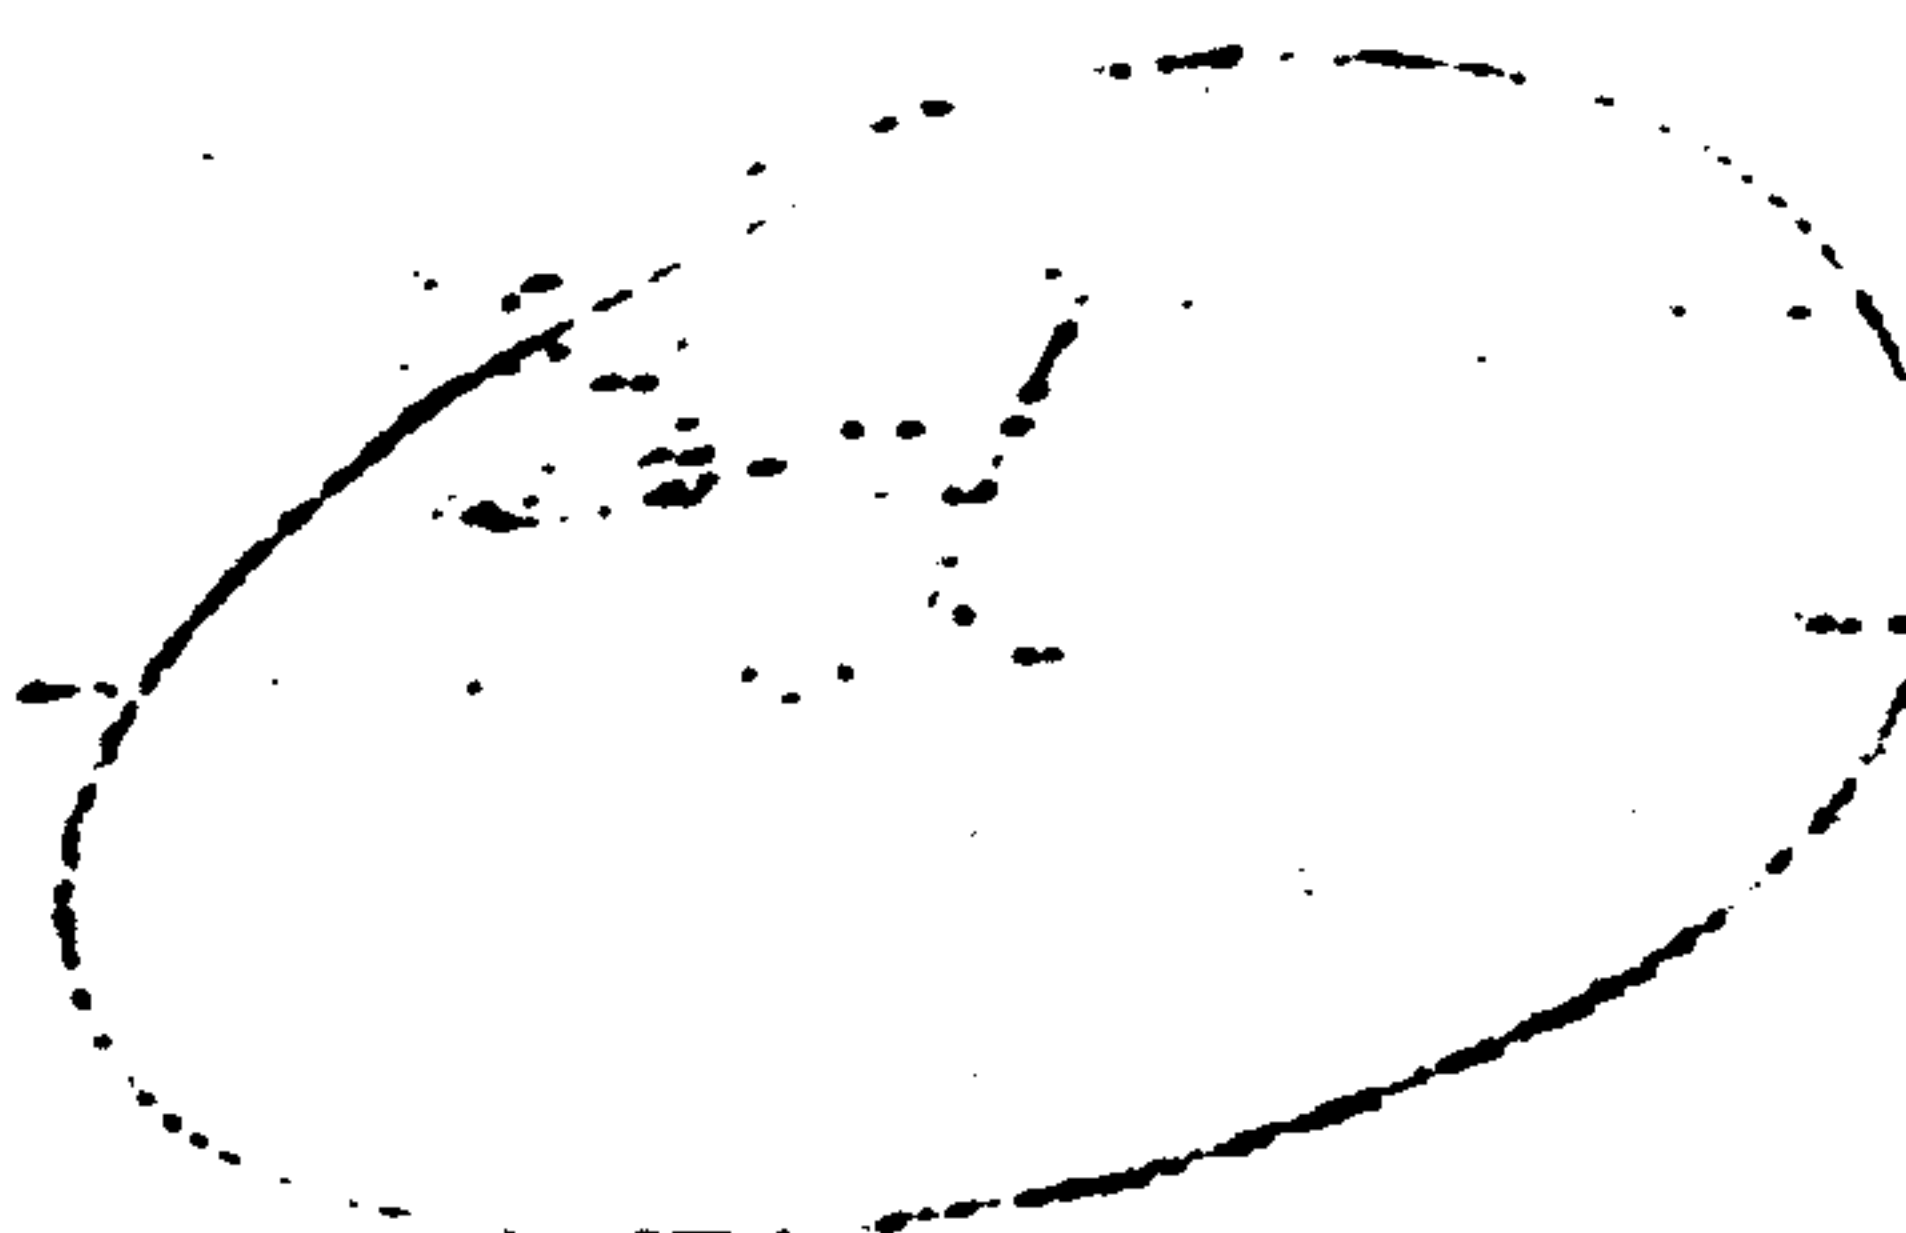

Mr. SCATTERDAY stated what the Commission is getting at is they are going to indicate that there wouldn't have to be anyone there with the assassin; that he could have moved the cartons himself. That is why they want these three items.

Mr. SCATTERDAY requested telephonic answer, followed by airtel, followed by letterhead memo re above.

Memorandum

TO : SAC DALLAS (100-10461)

DATE: 9/8/64

FROM : ASAC KYLE G. CLARK

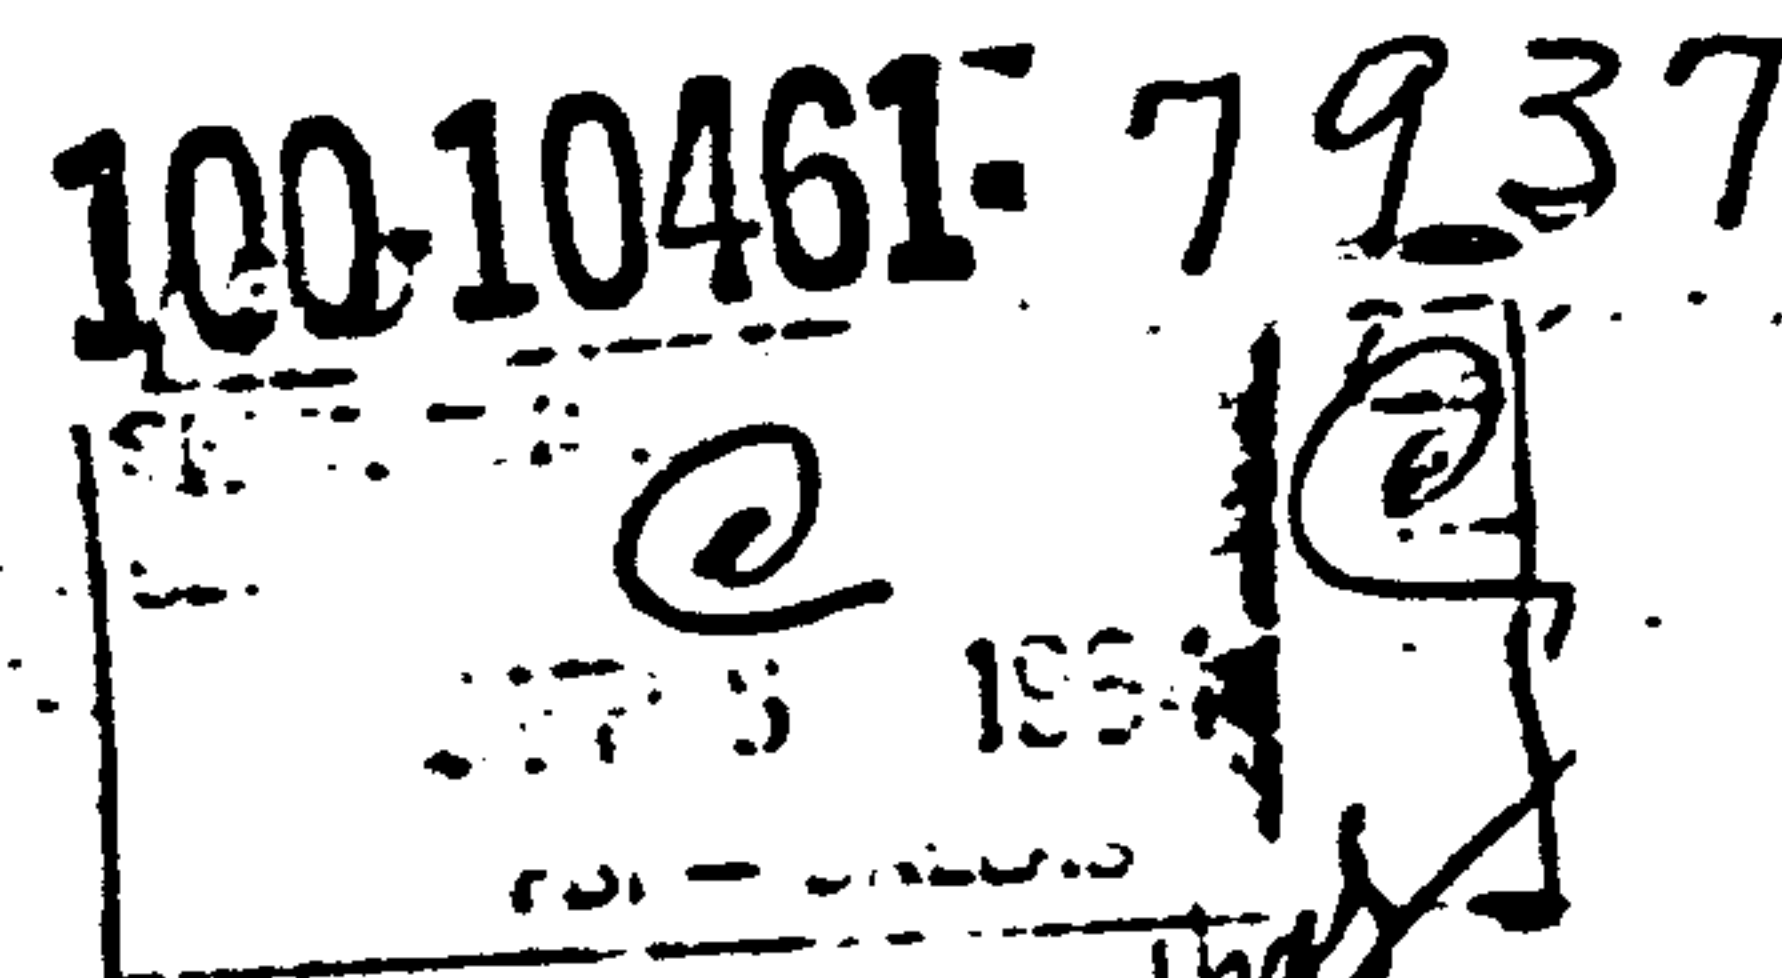

SUBJECT: LEE HARVEY OSWALD, aka.
IS - R - CUBA

Inspector J. R. MALLEY, SOG, telephonically advised on this date at 1:23 PM., that the Latent Fingerprints Section of the Bureau had just advised him that as a result of the receipt of the fingerprints furnished by Dallas on either Friday or Saturday of last week (those from police officers), the Bureau has now identified all remaining latent fingerprints contained on the boxes taken from the Texas School Book Depository. There are no more latent fingerprints to be identified.

With respect to the remaining unidentified palm prints, the Laboratory is now working on this angle and will advise.

Inspector MALLEY stated that any additional fingerprints to be done should be concentrated on the taking of palm prints.

FILE (100-10461)

DATE: 9/9/64

FROM : SAC SHANKLIN

SUBJECT: LEE HARVEY OSWALD, aka
IS - R - CUBA

Inspector JAMES R. MALLEY, Bureau, called at 3:55 PM, 9/9/64 and stated that with regard to the latent prints developed on the cartons, as of this afternoon, all the palm prints with the exception of one have been identified. Dallas Clerk FOREST LUCY had one palm print and five fingerprints. Officer STUDEBAKER had four palm prints and fourteen latent fingerprints, which accounts for all of the fingerprints and five of the six palm prints.

I advised Mr. MALLEY that the prints of one Officer, BOBBY GENE BROWN, Dallas PD, who admits he handled the cartons, were sent in to Bureau yesterday. Mr. MALLEY stated these prints would be examined immediately upon receipt and if they are identified, Bureau will send teletype to Dallas to discontinue.

I also advised we have some prints from the Sheriff's Office, but they don't think they handled the cartons. Sheriff DECKER took these prints of officers who were over at the Texas School Book Depository, but the officers don't think they handled them.

MALLEY stated he talked to the Commission and they are happy about the above identifications. If the remaining print is not identified, the Commission will have to make up their minds whether they want Dallas to drop the thing or whether they desire more prints be obtained for elimination purposes. If the Commission says they want us to make every effort to continue, Mr. MALLEY said the only thing they know left for us to do is to run the thing out by printing all persons who were working on that particular day, anyone at the PD who could have handled it, any Texas School Book Depository employees who were not fingerprinted, and any newspaper people who were there and have not been fingerprinted.

DATE: 9/15/64

FROM : SAC SHANKLIN

SUBJECT: LEE HARVEY OSWALD, aka
IS - R - CUBA

At approximately 12:30 PM this date, Supv. SCATTERDAY telephonically desired to know if the 6 major case prints had been sent to the Bureau. I advised him that 5 were sent last night, but we had been unable to get FRITZ's due to a bank robbery, and that they would be obtained as soon as possible and forwarded immediately.

Mr. SCATTERDAY said that the Commission was "riding him" and it is essential that all prints be submitted immediately. He further said to let the prints of employees go at this time and get those from FRITZ and the employees of the Texas School Book Depository in right away. He is most interested in prints of individuals who had no right to be in the Depository.

The major case prints should be submitted to the Latent Fingerprint Section.

Memorandum

TO : SAC, DALLAS (100-10461)

DATE: 9/17/64

FROM : ASAC KYLE G. CLARK

SUBJECT: LEE HARVEY OSWALD, aka
IS - R - CUBA

At 8:15 am. this date, Section Chief WILLIAM A. BRANIGAN telephonically made reference to SA GEMBERLING's report dated 9/9/64. Specific reference was made to pages 42 and 43 regarding the interview of ~~WILLIAM~~ HARTMAN and his wife EDNA, concerning a hole in the grass near the area of the assassination. *WYNE*

Mr. BRANIGAN stated that upon reading Assistant to the Director BELMONT raised the obvious question "Has Dallas made a check to determine if there is a bullet in the area and has it has been recovered? If this has not been done, why not?"

Mr. BRANIGAN suggested that if a check has not been made of the area that a mine detector be obtained to determine if there is any material in the area described. He further advised that if this check has been made and reported, he desired a return call as to the reference. If the check has not been made, they are holding the dissemination of referenced report for an insert to be designated as page 48-A indicating the results of the check.

DATE: 9/17/64

TO : SAC SHANKLIN

SUBJECT: LEE HARVEY OSWALD, aka
IS - R - CUBA

Reference is made to Mr. W. A. BRANIGAN's telephone call regarding the utilization of a mine detector.

Checks were made and it was determined that apparently there was no mine detector in the Dallas area from either the Army or the Air Force.

I called Mr. BRANIGAN back and pointed out to him that we had definitely described the scuff mark in such a manner that it would appear to me that it could not have been caused by a bullet, but that if the Bureau desired, we would certainly try to utilize a mine detector. It was pointed out to him that we did not have such here, and he suggested that the Laboratory be contacted.

I got in touch with RICHARD MILLEN of the Laboratory and he advised that after checking, the nearest mine detector furnished by the Bureau was either in Denver or Kansas City, and that they would call and have one immediately forwarded to this office. He stated that the sound man should be able to operate this mine detector and that the instructions as to how to do so were definitely spelled out in the handbook of technical equipment which has been furnished to each sound man.

I called Mr. BRANIGAN's office back and talked to Supervisor ROBERT E. LENIHAN and advised him of the above and the fact that upon receipt of the mine detector, we would make appropriate examination in the area where this scuff mark was supposed to have occurred.
