Re Phoenix airtel to Bureau, 2/26/64, enclosing a copy of New York airtel to Bureau, 2/13/64.

The following investigation was conducted by SA MARION C. STREET:

AT KANSAS CITY, MISSOURI:

Texas

On 3/3/64, DONALD H. JANSON, News Correspondant, New York Times, Kansas City Power and Light Building, advised that he has no written record, but recalls while in Dallas covering the assassination of President KENNEDY, he wrote an article which appeared in the New York Times and which in part told of OSWALD being in Laredo, Texas, where he purchased clothing.

Mr. JANSON advised that the story was prepared late in the day and the portion concerning Laredo was taken from an Associated Press story which had appeared in an evening edition of a Dallas paper. He said he had attempted to verify this story by calling Laredo, Texas, but it was late in the day and his story was sent on to New York. The next day he did call a department store in Laredo, name not recalled but he believes it to be a prominent store, and talked to either the manager or a spokesman for the store. He also contacted Mrs. PAYNE

where OSWALD had lived. He was unable to confirm the story that OSWALD had purchased clothing from the department store in Laredo, therefore, in the article submitted to New York Office, he retracted the previous day's reporting of the Laredo incident.

Mr. JANSON explained that this is an "example of slipshod reporting by Associated Press". Mr. JANSON advised he has no further information concerning this matter.

Further investigation concerning this matter is being left to the discretion of the Bureau and office of origin. No report being submitted by Kansas City, UAC.

NOTE:

There has been an allegation that Oswald, while en route Mexico in September, 1963, purchased clothing from a store in Laredo, Texas. We have determined such allegation emanated from a "New York Times" reporter, Janson, and interviewed Janson in this matter. He claims his story was not verified and through poor reporting by the associated press was printed in the newspapers. Essential results of this interview be included in a report so it can be furnished President's Commission.

TO : Mr. Conrad *JWC*

DATE: March 5, 1964

FROM : C. F. Downing

SUBJECT: LEE HARVEY OSWALD, aka.
IS - R - CUBA

By letter dated 3/2/64, J. Lee Rankin, General Counsel, The President's Commission, referred three foreign language letters for translation, which had previously been received by the Commission.

One letter in Spanish was written by Juan Perez, Piedras 676, Buenos Aires, Argentina, who expresses the general love for President Kennedy and the feeling that Oswald was, indeed, the assassin and that "many of us are potential assassins of Oswald."

Another letter in Swedish was written by Malcolm C. Karlsson, Hedemora, Sweden and enclosed newspaper clippings on how the case (sic) is felt in Europe. The clippings possibly from a Stockholm newspaper, issue of 2/15/64, are entitled "Sensational Facts About the Murder in Dallas" and pertain to a "private investigation in Dallas" by Attorney Mark Lanne, whose story allegedly appeared in the "National Guardian" and dealt with the "legend of the Dallas police."

A third letter, actually consisting of two letters in German, one addressed to Mr. Earls Warrens and the other to Rubinstein ("Jack Ruby") was anonymously written. Both are highly incoherent, completely confused, and evidence anti-Semitic feelings.

ACTION:

Attached for approval is a proposed reply to Rankin dated 3/6/64 furnishing the required translations.

TO : The Director

DATE: 3/6/64

FROM : N. P. Callahan

SUBJECT: The Congressional Record

Pages A1151-A1152. Congressman Dulski, (D) New York, extended his remarks concerning need for legislation providing for Federal jurisdiction over persons charged with attacks upon the life of the President, Vice President, and successors to the Presidency. He pointed out that he was introducing such legislation. Mr. Dulski included a statement concerning Federal jurisdiction for such legislation in which reference is made to a 1936 case against George W. Barrett who killed Special Agent Nelson B. Klein on August 16, 1935. Barrett had contended that the punishment for his crime was exclusively within the jurisdiction of the State wherein the crime was committed. The court held there was no merit to this contention. The statement inserted by Dulski further says "As the Oswald case shows, State investigation leaves much to be desired from the standpoint of proper, if not due, process of law."

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
11-22-63
DALLAS, TEXAS

Mr. J. Lee Rankin, General Counsel of the President's Commission, by letter dated 3-4-64 advised that in connection with the proposed examination of two witnesses by the Commission on 3-11-64 the Commission would like to have a number of exhibits available. Concerning the exhibits, this request has been referred to the Laboratory and these items will be delivered to the Commission prior to March 11 in accordance with whatever arrangements the Commission desires.

Item four in Mr. Rankin's letter refers to a number of articles of clothing, including the trousers that were worn by Oswald at the time of his arrest. The trousers worn by Oswald when he was arrested were the same trousers he was wearing when he was killed by Jack Ruby. These trousers are, at the present time, in the custody of the Dallas, Texas, Police Department, and are the same trousers which were brought from Dallas to Washington, D. C., by an Agent of the Dallas Office and remained in Washington, D. C., from Sunday through Thursday while Marina Oswald was testifying.

We also made available to the President's Commission color photographs of these trousers. Mr. Howard Willens, of the President's Commission, was telephonically advised on 3-5-64 of the foregoing information concerning the trousers and the fact that the Jack Ruby trial is now in progress in Dallas. Consequently, it would appear desirable for the Commission, if they desire these trousers, to make arrangements for the trousers to be turned over to the Commission. Mr. Willens stated for the time being the Bureau should disregard this request concerning the trousers and they would try to get along with the color photographs unless other requests were made.

Items five, six and eight of Mr. Rankin's letter call for very extensive drawings, photographing and other requests which are of the time-consuming nature.

Re: Assassination of President Kennedy

The Dallas Office has been telephonically furnished the requests. They were told to review the requests immediately, determine what information could be obtained without difficulty, whether the Dallas Office could handle the remaining requests, or whether it would be necessary to have expert craftsman assistance in preparing the material desired. The Dallas Office was told to give consideration, if necessary, to having the drawings, etc., made on a commercial basis or whether they desired to have assistants from the Exhibits Section of the Bureau. Dallas will make recommendations concerning this matter on 3/6/64, bearing in mind the necessity for handling these requests at the earliest possible date.

In the absence of Mr. Rankin, Mr. Howard Willens of the President's Commission was contacted concerning the extensive requests contained in the 3/4/64 letter from Mr. Rankin. Mr. Willens was advised that their letter of 3/4/64 was received in the Bureau 3/5/64, the Dallas Office had been requested to comply with the desires of the Commission, but due to the nature of the extensive requests we could not guarantee that the requests of the Commission could be complied with by 3/11/64. Mr. Willens stated that with regard to the request for the first-floor plan of the Texas School Book Depository Building which they requested to have by 3/6/64, they would appreciate receiving it no later than 3/10/64 if this was possible. He desired to be advised as soon as practical how long it would take for the information set forth in the 3/4/64 letter to be obtained. Mr. Willens was advised that he would be given an approximate date when these requests could be complied with as soon as possible.

ACTION:

There is attached a letter to Mr. Rankin confirming the conversation with Mr. Willens.

ADDENDUM JRM:mpd 3/6/64:

SAC Eganlin called today and advised the Dallas Office did not have personnel who were qualified to handle the drawings and other items requested by Mr. Rankin. He requested that the Bureau send Inspector Gauthier of the Exhibits Section, as well as a qualified photographer, to assist the Dallas Office in carrying out the requests. Inspector Gauthier has been advised of this request and is making the necessary preparations to go to Dallas immediately.

RECOMMENDATION: It is recommended that Inspector Gauthier immediately proceed to Dallas and take with him whatever help he needs in carrying out the requests of Mr. Rankin and that a qualified photographer also be sent to Dallas.

Mr. J. Edgar Hoover
Director

United States Department of Justice
Washington 25, D. C.

Dear Mr. Hoover:

In connection with the proposed examination of Buell Wesley Frazier and Linnie Mae Randle by the Commission on March 11, we would like to have the following exhibits available:

1. The wrapping paper in the shape of a large bag which is marked Q10 in an FBI laboratory report dated November 23 addressed to the Dallas Chief of Police, lab file number PC-78243BX, D-436461AX. Also, we would like to have the "paper and tape sample from Shipping Department, Texas Public School Book Depository," referred to in said FBI laboratory report as K2. In addition, we would like to have the replica paper sack which was used in connection with an interview of Linnie Mae Randle on December 1 by FBI Special Agents Bardwell D. Odum and Gibbon A. McNeely, a resume of said interview appearing at pages 298-299 of the report of Special Agent Robert Gemberling dated December 10. This replica sack was also used by Odum and McNeely in an interview on December 1 with Buell Wesley Frazier appearing at pages 294-297 of said Gemberling report of December 10.

2. We would also like to have available the rifle, Exhibit K1. It may be necessary to have the rifle stripped down.

3. For these witnesses, as well as for other witnesses, it would be helpful to have available another Mannlicher-Carcano 6.5 mm. rifle of the same type known as Exhibit K1. It is not necessary that this be available on March 11, but we would like to have this as soon as possible.

REVENUE

4. We would like to have three items of Oswald's clothing for possible identification by Mrs. Randle and Buell Wesley Frazier. One of these would be the jacket that was subsequently found in the Texas School Book Depository Building. Another, would be the so-called rust colored sport shirt with a hole in the right sleeve referred to at page 304 of the aforementioned Gemberling report. In addition, we would like to have the shirt and trousers worn by Oswald at the time of his arrest, together with all trousers found at the residence on North Beckley at the time of the search, and the jacket with the zipper found near the Tippit shooting.

5. We would like to have a plat of the immediate locale in Irving, Texas, which would show the Paine residence, the Randle-Frazier residence, and the surrounding lots and streets across which Oswald may have walked. We suggest that if this land has been platted, there should be a plat available at the County Court House, that would show the size and dimensions of the lots and on this plat it could be superimposed to scale the outlines of the improvements. In particular, we are concerned with showing the Randle-Frazier house and carport as accurately as possible, including a location of windows.

6. We would like a photograph of the Irving, Texas, area which would show the Randle-Frazier house and carport with windows and also have shots taken from the viewpoint of a person looking out of these windows or coming out of the door along the path or route followed by Oswald on the morning of November 22. According to the interview with Mrs. Randle appearing on pages 288-289 of said Gemberling report, she saw Oswald walking diagonally from Fifth Street in a northeasterly direction, across Westbrook Street toward the back of her house while she was standing at her sink looking out the window. She says she opened the back door a slight bit to see what he was doing, and saw him go to the far side of her brother's car which was parked just north of the carport and headed in an easterly direction toward Westbrook Street and saw Oswald open the right rear door of the car. To double-check the credibility and accuracy of her testimony, we would like to have these plats be made so as to show accurately these reference points so that we can verify whether or not a person with such a line of vision would be able to see what Mrs. Randle states in her interviews. Also, if there are any photographs of the Frazier car, we would like these available.

7. We would also like to have the application for driver's license for Oswald, together with the application for employment with the photographic concern to be used to examine the witness Frazier.

8. We would like to have a plat available of the Texas School Book Depository Building; with particular reference to the employee parking lot where Frazier parked his car on that morning and the entry way used by Oswald which Frazier described as "the first door in the back of the Depository Building," and also any other entry ways from this area together with a plat of the first floor so that Frazier can describe and show the course he took upon entering into the building. We would also like to have pictures of the exterior and interior of the building at this point. We would like to make sure that the first floor plat is available to us not later than March 9. - 10
In addition, as soon as possible, but not necessarily by March 9, could you please furnish us with complete floor plans of the first, second, third, fourth, fifth, sixth and seventh floors of the Texas School Book Depository Building. Could you please indicate on these plans the location of the employees' lunch rooms, dressing room, and soft drink dispenser, and the location and position, when found, of (1) the three spent 6.5 mm cartridge cases, (2) the C 14 rifle, (3) the C 10 wrapping-paper bag, (4) any "Ten Rolling Readers" cartons found in the area immediately adjacent to the crime scene, (5) the clipboard referred to at page 381 of SA Gemberling's Report dated December 10, 1963, (6) the blue jacket referred to at page 209 of SA Gemberling's Report dated December 23, 1963, and (7) the finger and palm prints of Lee Harvey Oswald found on the cartons at the crime scene. In the case of any finger and palm prints, could you please indicate the finger or palm which left the print and the direction in which the finger or palm pointed. Also, could you please indicate where "Ten Rolling Readers" cartons were generally stored.

Dear Mr. Rankin:

With reference to your letter of March 4, 1964, wherein you requested a number of exhibits and other desired information in connection with the proposed examination of Duell Wesley Frazier and Linnie Mac Randle, the following will confirm conversation with Mr. Howard Willens of your office.

In Item four on page two of the referenced letter, mention was made of trousers worn by Oswald at the time of his arrest. Mr. Willens was advised that the trousers in question were also worn by Oswald at the time he was killed by Jack Ruby, that these trousers are in the possession of the Dallas, Texas, Police Department and these trousers are the same trousers that were brought from Dallas to Washington, D. C., and kept in Washington, D. C., by an Agent of our Dallas Office while Marina Oswald was being questioned by the President's Commission. He was advised that color photographs of the trousers were made available to the Commission and that in view of the fact that the Jack Ruby trial is now in progress, it would appear desirable that, if the trousers were necessary for the Commission, appropriate arrangements should be made with Dallas authorities by the President's Commission. Mr. Willens advised that the request concerning the trousers should be disregarded at this time.

Mr. Willens was advised in connection with Items five, six and eight of your letter that these requests appear to be very extensive in nature and could possibly require considerable time to obtain the desired information. He was

advised that in view of the fact that these requests were not received until March 5, 1964, it was possible the information would not be available by March 11, 1964; however, our Dallas Office has been requested to comply with the requests as fast as possible. Mr. Willens advised that the President's Commission would appreciate it if the first-floor plat of the Texas School Book Depository Building, which had been requested to be available by March 9, 1964, could be made available no later than March 10, 1964.

In view of the extensive nature of the requests, you will be advised as soon as possible the approximate date the FBI can complete the various requests contained in your letter. With reference to the items mentioned in paragraphs one, two and three, they will be delivered to the President's Commission on the morning of March 11, 1964, at 9:00 a.m. If you desire other arrangements, please advise.

Sincerely yours,

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
11/22/63
DALLAS, TEXAS

PURPOSE:

To recommend the attached letter be sent to the President's Commission to further clarify information in its letter dated 2/24/64.

DETAILS:

Mr. Rankin, President's Commission, by letter 2/24/64 advised Mr. Jones Harris of New York City appeared at the Commission and brought with him several photographic enlargements of a section of one photograph depicting the Presidential motorcade passing the Texas School Book Depository Building. Mr. Harris believed the figure of an individual standing in the doorway of this building was identical with Lee Harvey Oswald. The pictures were brought to our attention for whatever action we deemed appropriate and will be retained.

The second item in Mr. Rankin's letter related to a previously resolved allegation that Lee Harvey Oswald's name appeared on a guest register of the "Fox and Hounds" restaurant, Hubertus, Wisconsin. Harris states upon learning of this rumor (apparently through the press) he corresponded with one Robert L. Dishon, a reporter for the "Milwaukee Journal" and Dishon felt there was "something to the rumor."

Memorandum to Mr. Belmont
RE: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY

Mr. Rankin stated he was furnishing this to us for our information and for use in conducting an interview of Dishon "if you agree one should be conducted."

BACKGROUND:

No information identifiable with Mr. Jones Harris or Robert L. Dishon could be located in Bureau files.

The photograph identified by Mr. Harris as resembling Oswald was investigated previously and was in the process of being reported by Dallas. Although Commission' did not make a specific request, Dallas was instructed to furnish a letterhead memorandum for the Commission, establishing this individual is Billy Nolan Lovelady, an employee of the Texas School Book Depository Building. The Commission is being furnished enlargements of Lovelady's photograph which shows his resemblance to Oswald.

With regard to the alleged signature of Oswald on the register of "Fox and Hounds," the Commission, in addition to our memorandum dated 12/13/63 entitled "Hoaxes, False Reports and Irresponsible Reporting" was furnished the report of SA Richard C. Thompson dated 12/2/63 at Milwaukee which fully sets out our thorough investigation of this matter. Our investigation clearly disclosed the signature was not written by Oswald; and that on 11/30/63 we received an anonymous telephone call indicating that one man of a party of 3 couples had inscribed the name of Lee Oswald on the register.

Although the Commission did not make a specific request, Milwaukee was instructed to interview Dishon to insure every logical aspect of this matter is run out. Dishon was merely suspicious of the manager who was not cooperating with him in his unofficial inquiries and Dishon felt this lack of cooperation was an indication the manager was "hiding something significant." Dishon could furnish no information of value.

ACTION:

That the attached letter be sent to the President's Commission furnishing it with the results of our inquiries.

Maxwell House coffee can containing paraffin
One and one-half inch paint brush
Three one-fourth pound blocks of Gulfwax paraffin
Sample of diphenylbenzidine used by personnel of
Dallas City-County Criminal Investigation Laboratory,
Dallas, Texas

The Gulfwax paraffin and diphenylbenzidine samples were not retained since they were not evidentiary items.

The following item was received from your office with your letter dated 12/21/63:

Plastic bottle containing tap water from Dallas, Texas. This water sample was similarly used only for control purposes and was not retained.

The paraffin casts, Q53A through Q53G, were analyzed by neutron activation analyses at Oak Ridge National Laboratories, Research Reactor Site, Oak Ridge, Tennessee. The Union Carbide Corporation personnel at this site who worked on the actual analyses of these specimens with the FBI Laboratory examiners were Dr. Frank F. Dyer and Mr. Joel F. Emery.

You have been previously furnished photographs of specimens Q53A through Q53G and Q54 through Q58. These are the only specimens which have been assigned "C" designations.

If a report has been previously submitted regarding any of the above exhibits, you should prepare a letterhead memorandum suitable for dissemination identifying the report in which the pertinent information is set forth.

If no investigative report has been submitted regarding these exhibits, then you should prepare one. Two copies should be designated for the President's Commission and the copy which is signed by the SAC will be retained as the Bureau's file copy.

It is to be noted that the Commission was previously furnished photographs of all items in this report which have been assigned "C" numbers.

result of these examinations, the deposits found on the paraffin casts from the hands and cheek of Oswald could not be specifically associated with the rifle cartridges. Elements (barium and antimony) were found on the casts; however, these same elements were found in powder residues both from the above rifle cartridge cases and from the revolver cartridge cases which were fired from Oswald's revolver reportedly between the time of the assassination and the time of apprehension.

No characteristic elements were found by neutron activation analyses which could be used to distinguish the rifle from the revolver cartridges.

In view of the fact that the paraffin casts were not made until after the reported firing and handling of the fired revolver, no significance could be attached to the residues found on the casts other than the conclusion that barium and antimony in these residues are present in amounts greater than would be expected to be found on the hands of an individual who has not recently fired a weapon or handled a fired weapon.

No identifiable particles of powder residues were found in the envelopes and sacks, Q54 through Q58.

The submitted evidence is being retained.

Addendum: Mr. William S. Lyon, Dr. Frank F. Dyer and Mr. Joel F. Emery all of Union Carbide Corporation, Oak Ridge, Tennessee, who have studied data from Oswald's casts concurred in conclusion of this Laboratory report.

Reurairtel 2/28/64 and Buairtel 3/3/64.

Pursuant to your request in reairtel, there are enclosed three sets of slides (27 slides in each set) and five sets of photographic prints (27 prints in each set) made at the time of the autopsy on the body of Oswald by Dr. Earl Forrest Rose, Dallas County Medical Examiner. The prints were made from the slides and are identical with them.

You noted in reairtel that you are preparing a letterhead memorandum in connection with this phase of the investigation. The sets of slides and photograph prints should be enclosed with the letterhead memorandum as follows:

	<u>Sets of Slides</u>	<u>Sets of Prints</u>
For Commission	1	2
For CIA	1	1
For Bureau	0	1

One set of slides and one set of photographic prints are for your file. Since the Laboratory has already retained one set of the slides, no other set of slides should be designated for Bureau. Submit the letterhead memorandum reporting this phase of the investigation promptly together with the enclosures noted above.

INFORMATIVE NOTE

Date 2-21-64

Bowen is person who sat next to Oswald when Oswald went to Mexico in Sept. 1963. Bowen apparently is also using the identity of Osborne and claims to be a Baptist Missionary working in Mexico. We are attempting to locate him to obtain his comments re Oswald and to clarify his use of two separate identities.

REFERRAL

ReBucab 2/14/64 instructed that all individuals who departed from Nuevo Laredo 10/3/63 during the shift following that of ALBERTO ARZAMENDI CHAPA be identified. This has been done and the results set forth in the letterhead memorandum. Since a great percentage of the travelers leaving Mexico at Nuevo Laredo on 10/3/63 departed during the shift following the one in which OSALD departed and in the interest of thoroughness, all travelers departing Nuevo Laredo on 10/3/63 on tourist cards have been listed in the letterhead memorandum and leads have been set forth below to locate and interview all of these travelers. u

Referenced San Antonio airtel of 12/3/63 listed some of the names appearing in the attached letterhead memorandum and set forth leads to locate and interview these people. The results of investigation growing out of these leads were not furnished to the Mexico City Office and it is not known which of the persons listed in the San Antonio airtel and duplicated in the attached letterhead memorandum were located and interviewed. Offices for whom leads are set forth below who have located and interviewed any of the persons mentioned should ignore the leads so far as these persons are concerned. u

If investigation has already been conducted to interview these eight people, leads set forth below concerning them should be ignored. u

Referenced Mexico City letter of 2/20/64 forwarded to the Bureau three Xerox copies each of the form FM-11 covering departures at Nuevo Laredo on 10/3/63 and entries at the same place on 9/26/63. If the attached letterhead memorandum is disseminated to the Presidential Commission, u

MC 105-3702

it is suggested the Bureau may desire to furnish each of the FM-11 departures (covering persons on FM-5 tourist cards and FM-8 tourist cards) to Commission.
