

11

DL 100-10461

"I have been only to Mexico in my life, sir. I am not fully acquainted with Latin America personally but then I am not the president of this organization either, I am only a volunteer, a secretary of this local chapter. I do not claim to be an expert on Latin America, but then very few people do. Certainly it is obvious to me, having been educated here in New Orleans and having been instilled with the ideas of democracy and objectiveness, that Cuba and the right of Cubans to self determination is more or less self evident and one does not have to travel through Central and South America. One does not have to travel through these countries to see the poverty in Chile or Peru or the suppression of democratic liberties between the Samoa brothers in Nicaragua in order to draw one's conclusion about Cuba.

"Does the Fair Play for Cuba Committee have any opinion about the suppression of democratic liberties in Hungary in 1956 or the poverty in any of the eastern bloc countries today?

"Officially no, but of course we have our own opinions about such situations. We consider that Russian imperialism is a very bad thing. It was a bad thing in Hungary. We certainly do not support dictatorship or the suppression of any peoples anywhere, but as I say and as I must stress, we are preoccupied only with the problem of Cuba, officially.

"We'll return for more questions after this message. (commercial).

"Mr. OSWALD you have the title of Secretary of the New Orleans Chapter of the Fair Play for Cuba Committee, however you have just said that you have never been to Latin America except for a few ventures into Mexico. In that case, just exactly how do you get your information

"concerning Latin American affairs or Latin American conditions?"

"Well, as I say we are preoccupied with the problem of Cuba. There are correspondents that correspond with the headquarters in New York from Cuba, directly from Cuba, that is where we get the information about Cuba. Now in regards to Latin and Central America, you do not have your own correspondent there. The AP and the UP cover it very well and they certainly give a very clear picture of the situation in certain countries, Nicaragua, etc., as I mentioned, which have very undemocratic regimes, dictatorships, and as I say these things are well known by everyone and they are accepted as truth. For instance, who will be able to find any official or any person who knows about Latin America who will say that Nicaragua does not have a dictatorship?"

"Very interesting that you should mention dictatorships in Nicaragua, because we, naturally familiar with the place, have heard about these dictatorships for many many years but it is curious to me as to why no Nicaraguans fled to the United States last year whereas we had possibly 50 to 60,000 Cubans fleeing from Cuba to the United States. What is the Fair Play for Cuba Committee's official reply to this?"

"Well, a good question. Nicaraguan situation is considerably different from Castro's Cuba. People are inclined not to flee their countries unless some new system, new factor, enters into their lives. I must say that very surely no new factors have entered into Nicaragua for about 300 years, in fact the people live exactly as they have always lived in Nicaragua. I am referring to the overwhelming majority of people in Nicaragua which is a futile dictatorship with 90% of the people engaged in agriculture. These peasants are uneducated. They have one of the lowest living standards

"In all of the western hemisphere and so because of the fact that no new factor, no liberating factor, has entered into their lives, they remain in Nicaragua. Now the people who have fled Cuba, that is an interesting situation. Needless to say, there are classes of criminals; there are classes of people who are wanted in Cuba for crimes against humanity and most of those people are the same people who are in New Orleans and have set themselves up in stores with blood money and who engage in day to day trade with New Orleanians. These are the people who would certainly not want to go back to Cuba and who would certainly want to flee Cuba. There are others who have one reason or the other in their legitimate reasons, reasons of opinion for fleeing Cuba. Most of these people flee by legal means. They are allowed to leave after requesting the Cuban Government for exit visas. Some of these people for some reasons or another do not like to apply for these visas or they feel that they cannot get them; they flee, they flee Cuba in boats, they flee any way they can go and I think that the opinion and the attitude of the Cuban Government to this is good riddance.

"Mr. OSWALD, this is very interesting because as a reporter in this field, for some time I have been interviewing refugees now for about three years and I'd say that the last Batista man, officially, that I talked to left Cuba about 2½ years ago and the rest of them I've talked to have been taxicab drivers, laborers, cane cutters, and that sort of thing. I thought this revolution was supposed to benefit these people. What is the Fair Play for Cuba Committee's position on this?

"Well, as I say there are different classes. A minority of these people are as I say, people who were Batista criminals and so forth. It may not be true that the people fleeing nowadays are completely cleansed

"of Batista elements, certainly some of these Batistaites have been hiding or have been engaged in counter-revolutionary activities ever since the Bay of Pigs Invasion and even before that, just after the revolution, in other words they have remained underground. Undoubtedly the overwhelming majority of people during the last year for instance who have fled Cuba have been non-Batistaites, rather peasants class. You say the revolution is supposed to benefit these people. You know its very funny about revolutions. Revolutions require work, revolutions require sacrifice, revolutions, and our own included, require a certain amount of rationing, a certain amount of calluses, a certain amount of sacrifice. Sacrificing ones own personal ideas about countries, citizenship, work, indicates people who have fled Cuba have not been able to adapt themselves to these new factors which have entered these peoples' lives. These people are the uneducated. These people are the people who do not remain in Cuba to be educated by young people who are afraid of the alphabet, who are afraid of these new things which are occurring, who are afraid that they would lose something by collectivization. They were afraid that they would lose something by seeing their sugar crops taken away and in place of sugar crops, some other vegetable, some other product, planted, because Cuba has always been a one product country, more or less. These are the people who have not been able to adapt.

"Mr. OSWALD, you say their sugar crops. Most of the Cubans I have talked to that have had anything to do with agriculture in the last year and a half have not owned one single acre of ground, they were cane cutters.

"That is correct and they are the ones that are fleeing the Castro Regime.

"That is correct sir. That is very very true and I am very glad you brought that point up. You know, it used to be that these people worked for United Fruit Company,

"the American companies engaged in sugar refinery, oil refinery in Cuba. They worked a few months every year during the cane cutting or sugar refining season. They never owned anything, and they feel now that that-little bit of right, the right to work for five months a year has been taken away from them. They feel that now they have to work all year round to plant new crops, to make a new economy and so they feel that they have been robbed, they feel that they have been robbed of the right to do as they please because of the fact that the Government now depends upon its people to build its economy, to industrialize itself, so they figure they have been robbed. What they do not realize is that they have been robbed of the right to be exploited, robbed of the right to be cheated, robbed of the right of New Orleanian companies to take away what was rightfully theirs. Of course they have to share now. Everybody gets an equal portion. This is collectivization and this is very hard on some people. On people prefering the dog eat dog economy.

"What do you refer to as the dog eat dog economy? Is that capitalism in your definition?

"No that is an economy where the people do not depend on each other, they have no feelings of nationality, they have no feelings of culture, they have no feelings of any ties whatsoever on a high level. It is every man for himself. That is what I refer to by dog eat dog.

"Are you familiar with the existence of a Black Market in Soviet Russia or in Red China, whereas the majority of the populists get their food, their truck crops and vegetables and such from this market. Do you know of such a market?

"Well I know about the fact that there is a market in the Soviet Union only for western apparel, and certain

DL 100-10461

"other items. There is no black market in the Soviet Union for food none whatever. By black market, I assume that you mean a situation where food is either stolen or grown in one area and taken to another area and sold covertly, under cover. No such system exists in Russia.

"Mr. OSWALD, I am curious about your personal background. If you could tell something about where you came from, your education and your career to date, it would be interesting.

"I would be very happy to. I was born in New Orleans in 1939. For a short length of time during my childhood, I lived in Texas and New York. During my Junior High School days, I attended Beauregard Junior High School. I attended that school for two years. Then I went to Warren Easton High School and I attended that school for over a year. Then my family and I moved to Texas where we have many relatives and I continued my schooling there. I entered the United States Marine Corps in 1956. I spent three years in the United States Marine Corps, starting out as a Private, working my way up through the ranks to the position of Buck Sergeant and I served honorably, having been discharged. Then I went back to work in Texas and have recently arrived in New Orleans with my family, with my wife and my child.

"What particular event in your life made you decide that the Fair Play for Cuba Committee had the correct answers about Cuban-United States relations?

"Well of course, I have only begun to notice Cuba since the Cuban Revolution, that is true of everyone, I think. I became acquainted with it about the same time as everybody else, in 1960. In the beginning of 1960. I always felt that the Cubans were being pushed into the Soviet block by American policy. I still feel that way. Our policy, if it had been handled differently and many

"others much more informed than I have said the same thing, if that situation had been handled differently we would not have the big problem of Castro's Cuba now, the big international political problem. Although I feel that it is a jest and a right development in Cuba, still we could be on much friendlier relations with them and had the Government of the United States, its Government Agencies, particularly certain covert, under cover agencies like the new defunct CIA.

"Now defunct?"

"Well, its leadership is now defunct. ALLEN DULLES is now defunct. I believe that without all that meddling, with a little bit different humanitarian handling of the situation, Cuba would not be the problem it is today.

"Is there any particular action of the United States Government do you feel that pushed Castro into Soviet arms?"

"Well, as I say, Castro's Cuba, even after the revolution was still a one crop economy, basing its economy on sugar. When we slashed the Cuban sugar quota, of course we cut their throats. They had to turn to some other country. They had to turn to some other hemisphere in which to sell this one product. They did so, and they have sold it to Russia and because of that Russian sugar is now down quite a bit, whereas ours is going up and up and I believe that was the big factor, the cutting of the sugar quota.

"Do you think that the United States Government, under President EISENHOWER ever wanted to help the Castro Regime? Ever offered or shown any help to it?"

"True to our democratic policies, certain policies were adopted, very late, but adopted, but the government

"helped Fidel Castro while he was still in the mountains, that is very true. We cut off aid to Batista just before the revolution, just before it. That was too late. We had already done more harm than we could have done before. We were just rats leaving a sinking ship, you see. That was not the thing to do. We have however, as I say, helped him. We have now cut off all that help.

"There is one point of view which I have heard to the effect that Castro turned left because he could not get any aid for industrialization in Cuba from the United States. Does the Fair Play for Cuba Committee believe that?

"Not entirely, no. We feel that was a factor, certainly. But we feel that the current of history is now running to that extreme, in other words countries emerging from _____ domination are definitely adopting socialistic, _____, marxist even on occasion what will be in the future, communist regimes and communist inclinations. You see, this is something which is apparently a world trend.

"Does the Fair Play for Cuba Committee believe that this trend should also be copied in the United States?

"No, the Fair Play for Cuba Committee is occupied only with the Cuban problem. I do not think that they feel that way, no.

"Thank you very much Mr. OSWALD. Tonight we have been talking with LEE OSWALD, the Secretary of the New Orleans Chapter of the pro-Castro, Fair Play for Cuba Committee. In subsequent programs, we will present the comments of other leaders concerned with United States-Cuban conflict. Good night."

100-10461

X. APPENDIX

FAIR PLAY FOR CUBA COMMITTEE

The April 6, 1960, edition of "The New York Times" newspaper contained a full-page advertisement captioned "What Is Really Happening in Cuba," placed by the Fair Play for Cuba Committee (FPCC). This advertisement announced the formation of the FPCC in New York City and declared the FPCC intended to promulgate "the truth about revolutionary Cuba" to neutralize the distorted American press.

"The New York Times" edition of January 11, 1961, reported that at a hearing conducted before the United States Senate Internal Security Subcommittee on January 10, 1961, Dr. CHARLES A. SANTOS-BUCH identified himself and ROBERT TABER as organizers of the FPCC. He also testified he and TABER obtained funds from the Cuban Government which were applied toward the cost of the aforementioned advertisement.

On May 16, 1963, a source advised that during the first two years of the FPCC's existence there was a struggle between Communist Party (CP) and Socialist Workers Party (SWP) elements to exert their power within the FPCC and thereby, influence FPCC policy. However, during the past year this source observed there has been a successful effort by FPCC leadership to minimize the role of these and other organizations in the FPCC so that today their influence is negligible.

On May 30, 1963, a second source advised that the National Headquarters of the FPCC is located in Room 329 at 799 Broadway, New York City. According to this source, the position of National Office Director was created in the Fall of 1962 and was filled by VINCENT "Ted" LEE, who now formulates FPCC policy. This source observed LEE has followed a course of entertaining and accepting the cooperation of many other organizations including the CP and the SWP when he has felt it would be to his personal benefit as well as the FPCC's. However, LEE has indicated to this source he has no intention of permitting FPCC policy to be determined by any other organization. LEE feels the FPCC should advocate resumption of diplomatic relations between Cuba and the United States and support the right of Cubans to manage their revolution without interference from other nations, but not support the Cuban revolution per se.

The CP and the SWP have been designated pursuant to Executive Order 10450.
