The President's Commission has requested further investigation regarding the nick in the curb along the south curb of Main Street as shown in the photographs you submitted with airtel 6/16/64. Copies of the Commission letter and the photographs you submitted are attached for your guidance. There is also attached a copy of a letter to the Commission from Assistant United States Attorney, Martha Joe Stroud, Dallas, Texas, and an accompanying photograph of a nick in the curb taken by Tom Dillard of the Dallas Morning News on 11/22/63.

You should first attempt to locate the nick in the curb and sutel the Bureau whether or not you can locate it. Since the nick area, if located, will be analyzed spectrographically in the Laboratory, you are cautioned not to clean the curb area or otherwise make any alterations that would effect such laboratory examination. If the nick is located, you will be furnished detailed instructions regarding photographs to be made before removal of this portion of the curbing as well as instructions for removal after the pictures are made. You should determine through contact with appropriate Dallas officials whether or not there is any objection to the removal of a portion of the curbing. For the spectrographic examination, it will be necessary to have the nick and the curbing approximately four to six inches around it intact. The amount of curbing removed beyond this will be determined by the method of removal that is used in order to retain the pertinent area intact.

To locate the nick in the curb on the south side of Main Street, you should use the photograph made by Mr. Underwood taken from the nick toward the sixth floor window of the Texas School

Book Depository Building (TSBDB). If you move along the south curb of Main Street until all objects in view are aligned as they are in the picture, that point should be within inches of the nick in the curb providing Mr. Underwood actually made the picture from the nick as he stated. The best guide to use initially is the lamp post between the two buildings on the right side of the photograph. After that is aligned, other objects can be checked such as the sign on the left and its relation to the steps and the TSBDB as well as the lamp posts on the north side of Elm Street and their relation to specific areas of the TSBDB. Sutel results of efforts to locate the nick on the curb.

The photographers, James Underwood and Tom Dillard, may be of assistance to you in locating the nick in the curb. In this regard, you should interview both photographers and submit letterhead memoranda in compliance with Item 3 of the attached letter from the Commission. For your further information, Item 1 of the Commission's letter is being handled by the Laboratory. Item 2 will be handled by the Laboratory depending upon whether or not the nick in the curb can be located after which you will be furnished further instructions relative to submission of the piece of curbing. The Laboratory will also make a comparison of photographs to be made after the nick is located, with photographs made by Underwood and Dillard as requested in Item 3.

Dear Mr. Hoover:

On June 30, 1964, you forwarded to the Commission two photographs obtained by your Dallas office from James Underwood, a newsman with KRLD-TV in Dallas. Enclosed herewith is a photograph forwarded to the Commission from Martha Joe Stroud, Assistant United States Attorney in Dallas. We are also enclosing a copy of a letter from Miss Stroud indicating the conditions under which this photograph was obtained.

Since the photographs taken by Underwood purport to indicate the exact point on the curb where this niche is located, we request that your Bureau perform the following investigatory steps:

(1) Using either the model of the assassination scene or a diagram, please trace the path which a missile would have taken if it traveled from the sixth floor southeast corner window to the point on the curb indicated in these photographs, and then advise us of the approximate frame in the Zapruder film which would correspond to the point at which this missile would have passed over the President's car.

(2) We would like an analysis made of this mark on the curb to determine whether there are any lead deposits there or any other evidence upon which a conclusion can be reached as to whether this mark was caused by the striking of a bullet.

This curbing has been designated C 3 21. The piece of curbing was removed on 8-5-64 and is now in the FBI Lab. ~~lay the FBI laboratory.~~

Small foreign metal smears were found adhering to the curbing section at an area which bears a mark. These metal smears were spectrographically determined to be essentially lead with a trace of antimony. No copper was found.

The lead could have originated from a lead bullet, the lead core of a metal jacketed bullet such as the type of bullet ~~such as (for some other source~~ evoked into 6.5 mm Mannlicher-Carcano cartridges ~~of Lots~~ or from some other source having the same composition.

The ~~objective~~ absence of copper precludes the possibility that the mark on the curbing section was made by an unmutilated ~~full jack~~ military type full metal jacketed bullet such as the bullet recovered from the Governor Connally's stretcher (C 1) C4 or the bullet ~~fair~~ or bullets represented by the jacket fragments, C 2 and C 3, found in the Presidential limousine. Honorable J. Lee Rankin
General Counsel

Lee Oswald

Dear Mr. Rankin:

Reference is made to your letter dated July 7, 1964, requesting additional examination of the mark appearing on the curbing on the south side of Main Street near the triple underpass at the assassination site in Dallas, Texas. This mark was located and was found to be 23 feet, 4 inches from the abutment of the triple underpass. The Laboratory comparison of the mark as it now appears with the photographs made by James Underwood, a newsman for KRLD-TV in Dallas, and Tom Dillard, a photographer for the Dallas Morning News, establishes they are photographs of this same mark. Four copies of the results of the interview with Mr. Underwood and Mr. Dillard are attached.

In response to your inquiry, assuming that a bullet shot from the sixth floor window of the Texas School Book Depository Building struck the curb on the south side of Main Street at the location of the mark described above and assuming it passed directly over the President, the bullet would have passed over the President at approximately frame 410 on the Zapruder film. This is 97 frames after the shot that struck the President in the head which is frame 313. At 18.3 frames per second, this represents a lapse of time of 5.3 seconds between frame 313 and frame 410. Based on a direct shot from the sixth floor window to the curb on Main Street, this bullet would have passed over the center of Elm Street at an elevation of about 18 feet from the street level. It is noted that in frame 410 of the Zapruder

film, Mrs. Kennedy has returned to the seat beside the President and Secret Service Agent Hill is about midway from the back bumper to the President crawling across the trunk lid.

The piece of curbing containing the mark was removed on August 5, 1964, and examined in the FBI Laboratory. This curbing has been designated as Item C321 by the Laboratory. Small foreign metal smears were found adhering to the curbing section within the area of the mark. These metal smears were spectrographically determined to be essentially lead with a trace of antimony. No copper was found. The lead could have originated from the lead core of a mutilated metal-jacketed bullet such as the type of bullet loaded into 6.5 millimeter Mannlicher-Carcano cartridges or from some other source having the same composition.

The absence of copper precludes the possibility that the mark on the curbing section was made by an unmutilated military-type full metal-jacketed bullet such as the bullet from Governor Connally's stretcher, C1, or the bullet or bullets represented by the jacket fragments, C2 and C3, found in the Presidential limousine. Further, the damage to the curbing would have been much more extensive if a rifle bullet had struck the curbing without first having struck some other object. Therefore, this mark could not have been made by the first impact of a high velocity rifle bullet.

It was also determined from a microscopic study that the lead object that struck the curbing causing the mark was moving in a general direction away from the Texas School Book Depository Building. Assuming this mark was made by a fragment of a bullet

from the assassin's rifle, the evidence present is insufficient to establish whether it was caused by a fragment of a bullet striking the occupants of the Presidential limousine, such as the bullet that struck the President's head, or whether it is a fragment of a shot that may have missed the Presidential limousine.

This completes the request in your letter dated July 7, 1964. The piece of curbing is available in the FBI Laboratory. A photograph of the mark on the curbing before removal and a photograph of the curbing after removal are attached.

Sincerely yours,

J. Edgar Hoover

Captioned book has been received from Legat, London, following publication by Frederick Muller Limited, London. This book is the English version of a book previously published in French language by Gun which had the title "The Red Roses of Dallas." Gun's book is a report on the assassination of the late President Kennedy.

The French version, "The Red Roses of Dallas," was reviewed previously at the specific request of the President's Commission. Results of that review were set forth in memorandum Mr. Branigan to Mr. Sullivan dated 7/1/64 and the Bureau's comments on the various unfounded allegations by Gun were furnished to the President's Commission by letter dated 7/2/64.

The English and French versions of Gun's book have been compared and found to be identical with only a few exceptions. Photographs of the assassination scene and evidence carried in the English version do not appear in the French version. In addition, there are several minor editorial differences such as Chapter 13 in the French version having the title "The Empty Armchair" and the same chapter in the English version having the title "I Could Stay Here For Ever." The latter title refers to an alleged statement by the late President Kennedy made during a visit with Mrs. Kennedy to the Arlington National Cemetery.

While Gun, a writer of Turkish nationality who has been in the United States since the mid-1940s, wrote a complimentary article on the Bureau in the leading Italian pictorial magazine "Epoca" in February, 1964, he previously wrote in 1960 an article for a French magazine which was unfriendly to the FBI. Gun has been described as an opportunist and an individual who would help anyone who paid him.

As set forth in referenced memorandum Mr. Branigan to Mr. Sullivan dated 7/1/64, Gun has based much of his discussion of the assassination matter on speculation, confused and unreliable press accounts, disregard of and/or lack of facts, and a desire to dramatize and achieve high readership or notoriety. In both versions of his book Gun attempts to cast doubt on the so-called "official version" of the assassination and the evidence which points to Oswald's guilt as a lone

No review is being made of the English version of Gun's book for the President's Commission, inasmuch as Commission has been furnished our comments on the previously published French version which is the same as the English version with minor exceptions noted as above. Information regarding Gun was previously furnished the President's Commission by letter 7/2/64.

Dear Mr. Rankin:

Reference is made to your letter dated August 6, 1964, concerning the possibility Lee Harvey Oswald had a telescopic sight mounted and sighted at the Irving Sport Shop, Irving, Texas.

Enclosed are two copies of a self-explanatory communication from our Houston Office dated August 14, 1964, setting out the results of our interview of Mrs. Doris M. Dominey on August 13, 1964.

You can be assured the other investigation requested in your letter of August 6, 1964, is being pressed vigorously and when the results are obtained you will be promptly notified.

Sincerely yours,

Insure this matter receives expeditious attention so that the Commission can be promptly advised of the results.

NOTE: The Commission requested several investigative steps be taken to substantiate or disprove an allegation that prior to the assassination Oswald and his wife, Marina, visited the Irving Sport Shop to have a telescopic sight mounted and sighted on a rifle. This was initially reported by an employee of the store, Dial D. Ryder who allegedly found a repair tag with the name Oswald on it. This allegation has been somewhat supported by two women Mrs. Gertrude Hunter and Mrs. Edith Whitworth, who claimed they saw the Oswalds and directed them to the sport shop. The circumstances of this whole situation indicated Ryder prepared the repair tag after the assassination. However, he is so involved he can't back out now. The women appear mistaken in their identification as the supporting data furnished by them is not consistent with what we know of the Oswalds' background. The enclosed communication from Houston discloses that Mrs. Hunter is known to exaggerate and has an "obsession" to inject herself into any big event. Her family reportedly knows she has a tendency to tell "tall tales." When the remaining investigation is received, the Commission will be notified.

Dear Mr. Rankin:

In reply to your letter of August 4, 1964, enclosing a copy of a telegram to the President's Commission from Mr. Mark Lane, there are enclosed herewith two copies of the July-August, 1964, issue of "Fact" magazine.

The statement attributed by Mr. Lane to Mr. Melvin Belli concerning a Dallas Police Officer and another who sought on November 23, 1963, to have Ruby approve the idea of killing Oswald appears on page 13 of this magazine. The article quotes Mr. Belli as stating that "the cop and his girl just disappeared" and he could never locate them. Since Mr. Belli cannot identify the Dallas Policeman and the girl friend referred to by him, interview of Mr. Belli concerning this statement would not appear warranted.

As you are aware, Jack Ruby has identified the police officer and his girl friend as former Dallas Police Officer Harry Olsen and Kathy Kay Coleman, a former employee of Ruby's. Interviews of Olsen and Coleman and related investigation do not indicate they sought any such approval from Ruby.

NOTE:

The President's Commission in enclosing the telegram from Mark Lane requested that we conduct an appropriate investigation to include an interview with an attorney, Melvin Belli, regarding statements he was alleged to have made. We obtained copies of the article referred to by Lane, and Belli specifically states that he was never able to locate the "cop" and the girl friend whom he refers to as having spoke to Ruby on the night of 11/23/63 and tried to get him to approve the idea of having Oswald lynched. Our investigation has identified the "cop" as Harry Olson, formerly of the Dallas Police Department, and Kathy Kay Coleman, a former stripper at Ruby's club. We have interviewed Olsen and Coleman extensively concerning their alleged contact with Ruby on the night of 11/23/63 and they made no statements indicating they sought Ruby's approval for lynching Oswald. This was called to the attention of Mr. Griffin of the President's Commission who requested that we furnish copies of the article and that we not interview Belli pending receipt of a further request from the Commission.

By letter dated August 6, 1964, the President's Commission advised Mrs. Gertrude Hunter, Irving, Texas, had furnished certain information alleging she had observed Lee Harvey Oswald in Irving, Texas, in November, 1963, in an automobile she believed was a 1957 Ford, blue and white in color. Mrs. Hunter expressed the opinion this automobile was similar to an automobile owned by a Houston couple whom she identified as "Mr. and Mrs. Dominick."

On August 11, 1964, Mrs. Hunter advised the Dallas Office of the FBI the couple she had referred to from Houston, Texas, was "James and Doris Dommney," 8133 Locksley, Houston, Texas. Mrs. Hunter indicated "Mrs. Dommney's" mother, a Mrs. Patterson, had written Mrs. Hunter that the "Dommneys" were planning to visit Irving, Texas, during November, 1963.

On August 13, 1964, Mrs. Doris M. Dominey, 8133 Locksley, Houston, Texas, was interviewed at Dugan's Drug Store, 8415 East Houston Road, Houston, Texas, where she is employed as a cashier. Mrs. Dominey stated her husband, James E. Dominey, is employed as a truck driver.

Mrs. Dominey stated she is well acquainted with Gertrude Hunter of Irving, Texas, Mrs. Dominey's sister being married to Mrs. Hunter's brother.

Mrs. Dominey was questioned regarding the descriptions of all automobiles owned by her family during 1963. She replied her husband owns a pickup truck, but the only passenger automobile owned by the family during 1963 was a 1958 model Ford sedan. This automobile was purchased in 1958 and the color was originally turquoise and white. In 1960, Mrs. Dominey had an accident in this automobile and it was repainted. Since 1960 the color of this automobile has been black with a white top.

ENCLOSURE

RE: LEE HARVEY OSWALD

Mrs. Dominey related she and her husband last visited in the Dallas area in approximately February, 1963, and she could recall that trip was made in the pickup truck and not in the Ford sedan. Mrs. Dominey has not seen Mrs. Gertrude Hunter in the Dallas - Irving area since approximately February, 1963, but she has received several letters from Mrs. Hunter. Mr. and Mrs. Dominey did not visit Irving, Texas, in November, 1963; they never had any plans to visit Irving, Texas, at that time; and they never told anyone that they had plans for such a visit.

When questioned as to whether Mrs. Hunter had ever informed her she had any knowledge of Lee Harvey Oswald or any aspect of the assassination of President Kennedy, Mrs. Dominey advised as follows:

Mrs. Hunter never told Mrs. Dominey in a letter or otherwise that she possessed any information whatever concerning Oswald or the assassination; however, in June, 1964, Mrs. Dominey's mother, a Mrs. Patterson, died and many of the relatives gathered for the funeral. One of these relatives told Mrs. Dominey that Mrs. Hunter had claimed she had been working at some store, believed by Mrs. Dominey to have been a variety store in Irving, Texas, and had waited on Oswald. Mrs. Dominey could not recall which of the many relatives relayed this remark to her. It is Mrs. Dominey's recollection that Mrs. Hunter claimed to this relative she had sold some gun sight or part of a gun to Oswald. Mrs. Dominey stated when this information was related to her, she and the other relatives present considered it a joke and put absolutely no credence in it.

In explaining the above statement, Mrs. Dominey advised that while she realized Mrs. Hunter possibly could have seen Oswald in the past, she felt the investigating authorities should be warned regarding certain "personality traits" of Mrs. Hunter. According to Mrs. Dominey, Mrs. Hunter has had a strange obsession for attempting to inject herself into any big event which comes to her attention. As examples of this inclination, Mrs. Dominey explained that Mrs. Hunter is likely to claim some personal knowledge of any major crime which receives much publicity. In further

explanation of this trait of Mrs. Hunter, Mrs. Dominey stated if a tornado should strike out of a clear sky, Mrs. Hunter will claim that she had known the day before that this event was to occur. Mrs. Dominey stated that the entire family is aware of these "tall tales" Mrs. Hunter tells and they normally pay no attention to her.

PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

During the conversation on August 13, 1964, with Mr. J. Lee Rankin of the President's Commission, Mr. Rankin mentioned the requests that have been made of the Bureau to furnish the number of reports, the number of pages, as well as the number of interviews and man hours which have been consumed in the over-all investigation. Mr. Rankin stated that the number of pages as well as the number of reports, as furnished by the Bureau's letter of August 13, 1964, would be most helpful and that he certainly did not expect the Bureau to perform the tedious task of counting the actual number of interviews or to compile the number of man hours utilized. He advised that when the request was made he thought there was a possibility this data might be readily available.

Mr. Rankin stated that in order to give the Bureau due credit for the tremendous amount of investigation which had been performed by the Bureau, it was intended that a statement would be included in the "foreword" of the Commission's report, mentioning the extent of the Bureau's activity.

Polygraph Examination of Ruby:

Mr. Rankin stated that Chief Justice Warren had recently returned to the United States, following which he, Mr. Rankin, had briefed the Chief Justice thoroughly concerning the Bureau's assistance in affording Jack Ruby a polygraph interview on July 8, 1964. Mr. Rankin stated that the Chief Justice was most appreciative that the Bureau had gone ahead with this polygraph examination in view of the personal promise that he had made to Jack Ruby that he would be afforded a polygraph examination. He stated that the Chief Justice was fully cognizant and appreciative of the various sound observations which had been made by the Bureau relative to affording Ruby a polygraph examination, but regardless of the Bureau's feelings in this matter, we had gone ahead and complied with the request of the President's Commission.

Memo to Mr. Belmont from A. Rosen
Re: President's Commission

Mr. Rankin advised that with regard to the polygraph examination, there would be a discussion in the report of the Commission showing the conditions under which this polygraph examination was given to Jack Ruby and the report would quote the Bureau's letters thereto, where we set forth our observations relative to the desirability of giving Ruby such an examination.

Bureau's Interest in Rights of Individuals:

During the discussion, Mr. Rankin mentioned that staff members of the Commission were very much interested in seeing that the comments of the Director and Mr. Belmont were brought to light in the Commission's report in such a way that they would receive appropriate attention rather than appearing solely in the testimony itself. He advised that this matter had not been taken up with the seven members of the Commission as of this time but this would be done very shortly and that it was his desire to see that the Bureau's interests in the rights of individuals was properly related in an appropriate part of the report. Mr. Rankin did not volunteer where in the report this information would be set forth.

Comments Concerning the Bureau's Participation in the Investigation:

Mr. Rankin commented that throughout the tremendous amount of work which has been done concerning the assassination of the President, the FBI had certainly carried a tremendous workload, and that while Secret Service had performed a small amount of investigation at the request of the Commission and a few other agencies had done some minor work, the bulk of the investigative activity had been carried on by the FBI. He stated that throughout the entire existence of the President's Commission the Bureau had cooperated fully and never on any occasion refused to carry out a request of the Commission, regardless of how ridiculous the request might have seemed on the surface. He stated he was well aware of the fact that many of the requests did not have any basis in fact for being run out but because of the nature of the investigation, the Commission felt that it had to be done. He stated he felt that the Bureau's efforts along these lines would certainly reflect favorably on the Bureau's investigation and the amount of interest that was given to detail, both by the Bureau and the President's Commission. He stated that all in all, he felt that the Commission's report would certainly reflect creditably on the FBI.

Date of Final Report by the Commission:

Mr. Rankin advised that the present target date for the submission of the report of the Commission was September 8, 1964. He stated he sincerely hoped that the Commission would be able to meet this target date but that as of

Memo to Mr. Belmont from A. Rosen
Re: President's Commission

the present time he was not certain whether this could be done. In this connection Mr. Rankin mentioned the fact that he was aware the Bureau had received a number of requests in recent weeks and that all of the requests of the President's Commission were being complied with as rapidly as possible. He also stated that anything that could be done to expedite these late requests would be appreciated.

Mr. Rankin was assured that the Bureau was well aware of the Commission's desire to wind up their activity and that specific instructions had been given to all offices conducting investigation to complete all phases of our investigation in the shortest possible time.

This is being watched most carefully at the Seat of Government and we are seeing that all offices are handling matters on an expeditious basis.

Dear Mr. Rankin:

William

I inform you by this letter that Mr. McKenzie will no longer represent me after the trial (sic) has ended; all he has to do is to transfer money from one bank to another. Therefore, I request you to address me personally in the future should my services be needed by the Commission.

I do not think that I need an attorney; moreover, I cannot afford expensive lawyers, particularly when I testify before the Commission; no lawyer is necessary when one tells the truth.

I would like to request from you a copy of my testimony before the Commission. Mr. McKenzie told me that he has already requested it from you. Please send it to my address and in my name, together with a bill for expenses in connection with this. After the conclusion of the work of the Commission, I would ask you to send me all my personal belongings and those of my husband (photographs, documents, diary, clothes, etc.).

As to the rifle belonging to my husband (however, I do not know to what extent my wishes in this case would be of importance to the Commission), it is my wish that the rifle become the property of the United States Government, but not be exhibited for public view during my lifetime.

Respectfully,

Washington, D.C. 20002

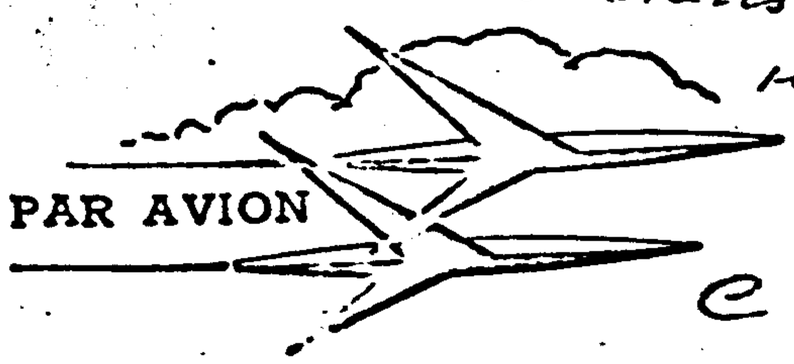
Dear Mr. Rankin!

Этим письмом сообщаю Вам, что я добавлю
кое-что, как буд-то забыла и не
смогла лично представить членам
Комиссии. Теперь, постфактум, в
письменной форме. Если я могу еще помочь Комиссии.
Я думаю, что мне не нужен адвокат, да
и не по карману оплачивать серьезных адво-
катов, сообщаю когда я дам показания
перед Комиссией. т.к. теперь правду -
адвокаты не приносят
Разрешите спросить у Вас копию моих
показаний перед Комиссией. Мр Маркхэм
сказал мне, что он уже запросил ее у Вас.
И прошу переслать это на мой адрес с ним.
Если, а пожалуй это, скорее всего, смелый
вашему Вы переслать мне ее заранее
было бы, скажем, в марте (фотографии документа-
ции, карты и т.д.).
сюжету / может не быть, предварительную беседу
ния с этим адвокатом, но я хочу, чтобы Комиссия
Warren Commission), но я хочу, чтобы будущий
читал мои показания перед



показа-
ниями.

Re Dallas airtel to Bureau dated 8/5/64.

Investigation at "Life" Magazine, NYC disclosed that Miss NATALIE KOSEX is currently on vacation and Miss NANCY WINSLOW of Miss KOSEX' office was interviewed on 8/7/64 concerning request set forth in referenced Dallas airtel. Miss NANCY WINSLOW advised that "Life" Magazine has the original 35 mm color slide which has been designated as GERALD L. HILL Exhibit A. Miss WINSLOW stated that "Life" Magazine was reluctant to give up the original color slide but in any event would have to make a duplicate either for themselves or for the President's Commission and this process would take them one week. Miss WINSLOW advised that "Life" would furnish one picture from the original 35 mm color slide and one duplicate of the slide.

Miss WINSLOW further stated that the 35 mm color slide designated as GERALD L. HILL Exhibit B had been turned over on 2/12/64 to Mr. PINCKARD of US News and World Report. Miss WINSLOW stated that the 35 mm color slide designated as GERALD L. HILL Exhibit C had been returned several months ago to Mr. JAMES MAC CAMMON of Dallas, Texas who originally took these slides.

Dallas teletype to Bureau dated 8/3/64.

LEADS

By Dallas teletype to Bureau dated 7/17/64, the Bureau was advised that Dallas was not reinterviewing HUGH AYNESWORTH or attempting to interview PAULA AYNESWORTH, his wife, as it was believed an interview of PAULA AYNESWORTH might subject the Bureau to criticism in the press and that such interview would not likely be productive.

UACB, no additional investigation concerning the source of the "Leak" is being conducted.

Report of: ROBERT P. GEMBERLING
Date: 8/10/64

Office: DALLAS

Field Office File No.: 100-10461

Bureau File No.: 105-82555

Title: LEE HARVEY OSWALD

Character: INTERNAL SECURITY - RUSSIA - CUBA

Synopsis: HOLLAND McCOMBS, Dallas correspondent for "Life" Magazine, states he contacted HUGH AYNESWORTH, Reporter for "The Dallas Morning News," June 25 or 26, 1964, concerning purchase of copy of diary of OSWALD and was referred to AYNESWORTH's wife from whom he purchased copy of diary for $2,500. Neither AYNESWORTH nor wife revealed source of diary. Thereafter, "Life" Magazine obtained permission from MARINA OSWALD for publication of diary for $20,000 plus one half share of all foreign sales of the issue containing the diary. Additional inquiries made at Dallas Police Department and Dallas District Attorney's Office. Disposition of film and prints in possession of Dallas Police Department and Dallas District Attorney's Office summarized. FBI Laboratory examination of material obtained from HENRY WADE, Dallas District Attorney, Dallas, Texas, and copies of OSWALD's diary obtained from "Life" Magazine established that "Life" Magazine copies made from film obtained from Dallas District Attorney's Office.
