The source who furnished information on 6/10/63
was [REDACTED]

Also enclosed under separate cover for the Bureau are 6 reels of magnetic tapes, 3 reels for the Bureau and 3 reels for the Warren Commission, recording the appearance of Attorney MARK LANE, as described above.

The attention of the Bureau is directed to the last portion of Tape I original which is not complete. It is noted that just prior to the time the audio was discontinued some demonstration equipment was being moved about on the stage which could have disconnected the input source. The beginning of Tape II original would indicate that difficulty was being had in reconnecting the recording equipment.

A memorandum concerning the appearance of MARK LANE at the University of Massachusetts, on 4/28/64, is being prepared.
