 ... the...

At the 22nd party Congress in Moscow in 1961, the party decided to select 200,000 people for study abroad in the West. This is a vast number, including engineers and technicians. 100,000 of this total. All others are selections of students, all scientific workers. The 200,000 who are selected abroad are carefully selected from applicants. The main requisites are: "Is the candidate politically prepared?" Any worker of the party may apply for a study trip under the United States and other countries. The maximum length of study abroad is 3-5 years. For more information on the selection process, see the book "Study Abroad in the USSR" published in 1962.
