Attention:

Writers Market "56" lists your organization and does so in  
one of the kind of material you either welcome or solicit or  
consider for publication. With knowledge of this fact in  
mind, I invite your commentary in behalf of a manuscript or docu-  
mentary I have myself authored and compiled, an author and a  
manuscript, as the case would be, describable in the following  
paragraphs.--

A combined documentary, scientific and technological report  
and criticism or indictment composed of a system of articles and  
correspondence accumulated over a period of months in some cases  
and years in others.

A manuscript compiled and authored by an individual whose  
accumulation of knowledge probably embraces the most contro-  
versial scientific and technological problems and issues of the  
time.

A manuscript which shoulders the responsibility of openly  
and specifically attacking the most delusory yet  
unreceptively duplicitous system of lies, frauds and cor-  
rupt trash etc. in the nation's history, an attack aimed at  
any agencies the system itself has been deliberately  
designed to protect.

An individual whose name has been the object of an  
unflinching view by F. B. I. agents as a consequence of the  
authoring and delivering of articles of the kind included in the  
manuscript.

An individual who can speak on issues and issues as expertly,  
the nation's bureaucracy and many others in addition would be  
willing to go to any lengths in suppressing him and forcing a  
wasting of his time.

A manuscript whose meaning or meaning even involves the  
nation's legal profession, General Electric Co., Brookhaven  
National Laboratories, American Association for the Advancement  
of Science and a publication entitled Bulletin of Atomic Sci-  
ence.

A commentary based on facts of the probably irreparable  
damage being done.

manuscripts of massed or more than a ton as measure of accumulated human interest and knowledge.

Work of relative brevity (less than the equivalent of 200 written sheets) but one so broad yet detailed of description and so elementary yet sophisticated of content it can be used to treat of U. S. and U. S. S. R. and apparatus etc. The practical parts of but one of the easily describable branches of overall diversified engineering encompassed by an overall scientific and technological "miracle creed".

Work authored by an individual whose knowledge of space, cosmology, quantum mechanics, matter, relativity, cause and effect, action and reaction etc. has been accumulated over a number of decades and not mere months or years.

Manuscripts compiled and authored by an individual who has never possessed any literary ability, but a three-ounce manuscript of easily readable (photocopied typewritten pages) and so capable of being understood (elementary terminology etc.) it could be comprehended and assimilated by a pre-high-school student.

Documentary based on knowledge, experience and know-how considered overwhelming and probably certain of its ground that the author can afford to produce and openly (publicly and openly except insofar as the interests of the author would become known to the public in any significant way) distribute thousands of copies in which he speaks on the charge that the President of the United States is a liar and a cheat. A documentary of knowledge etc. so certain of its ground that the author accomplishes this yet not be called to account for such charges by any Federal agency.

An individual whose wife is fully conversant of the intrigues involved here even to this day. An individual whose wife, relatives and friends to this day remain totally conversant of--

- 1. The facility of the individual (myself) who delivered the thousands of articles referred to in paragraph 1 and this despite their having been produced and distributed from time to time since 1957.

Having presented you with a rough approximation of what you  
could expect of my manuscript and documentary, I do solicit you  
for a yes or no answer to the question "would you consider pub-  
lishing a manuscript of the kind I describe?" Obviously, your  
decision could not avoid being based on your appraisal  
of the reaction to one or more salient aspects of the manuscript  
as the ones indicated in paragraphs 5, 4, 5, 5, 7, 10, 15,  
and 19, say, of this letter you hold. That is to say, your  
reply (your answer of "no" to the question) could not be based  
on the kind of nonsense or idiosyncrasy, terminating in some such  
thing as "it does not meet the needs of our particular program"

...published work containing the kind of information, accu-  
racy and reference etc. indicated could not possibly avoid  
being an intensely saleable item ...  
...an honest desire to ...  
...of underwriting the accuracy of the more salient contents  
...be said to have authored a revelation of inestimable and  
...proportions.

Your comment requested in the first paragraph does not  
amount to more than a mere yes or no, comment.  
...merely and only your answer to the question of whether  
...publish this work despite the obvious content and  
...reference, a question which does not necessarily  
indicate that a "yes" answer will give you the opportunity

Subject: HUNG HAN  
THREAT AGAINST THE PRESIDENT

Enclosed for your assistance are a copy of a letter dated November 27, 1936, and enclosed with a copy of the letter in which this material was received from the individual. Page one of the attached letter contains a possible threat to the President.

The following background data is being furnished on Mr. Han, the writer of the attached letter. He was born at Cheonghan, Korea, on May 31, 1903, and with his family to Honolulu, Hawaii, on July 1, 1905. He entered the real estate business in Honolulu in 1926 but his license was revoked in 1933 for fraud in a real estate transaction.

From 1934 to 1937, Mr. Han was employed by the Consulate in Honolulu. He arrived in San Francisco, California, in 1933 and in 1939 moved to Washington, D. C. He registered with the Department of State saying he represented the Sino-Korean Peoples League whose purpose was to enlist American sympathy for Korea, to contact United States intelligence agencies and to express criticism opposed to democratic principles. Subsequent information reflected he was associated with the Korean National Revolutionary Party from 1912 to 1921 and the Korean Culture Society in 1945. From 1933 to 1935, he wrote several articles for the "Korean Independence" newspaper considered to be the mouthpiece of the Korean National Revolutionary Party. He attended the United Nations Conference on International Organizations in San Francisco in 1945 as a representative of the "Korean Independence."

The fourth report of the California State Senate  
Investigating Committee on Un-American Activities for 1953  
concerns the Korean Culture Society and the Korean  
Independence News Company as communist fronts for the purpose  
of propagating American policies in Korea and creating problems  
for the recall of American occupation forces.

The active indices of the American Peace Mobilization  
(APM) in 1952 contained the name "Wilcox H. Egan." The APM  
has been designated by the Attorney General as being within  
the purview of Executive Order 10450.

Since 1950, Mr. Egan has furnished information  
voluntarily to various Government agencies and officials. It  
is noted to have sources and "secret agents" in Korea. The  
New York Times occasionally publishes a mimeographed sheet  
entitled "Korean Underground Report" which allegedly  
contains information from these sources. Mr. Egan has  
been interviewed by the FBI on ten separate occasions since 1950. In 1957  
and 1958 he has steadfastly refused to identify his  
alleged sources of information.

The Joint Intelligence Committee, Joint Chiefs of  
Staff, Department of Defense, after reviewing reports from  
various intelligence agencies, advised on January 10, 1952,  
of its evaluation of the information presented by Egan  
to the conclusion that it should be classified as  
unconfirmed information from an unreliable source.

Mr. Egan was investigated by the FBI in 1957 and  
his investigation failed to reveal any extensive connections  
with the APM. He is a communist but did not state that he was a  
Korean nationalist who sought to derive economic benefits  
from his activities. He has visited, traveled and lectured  
extensively in the United States during the past few years.  
In 1950, he was a divisional sales manager for C. S. G. Co.,  
Inc., an oriental food company, San Francisco,  
California.

Honorable John Edgar Hoover  
Chief, Federal Bureau of Investigation  
Department of Justice  
Washington, D. C.

Dear Honorable Hoover:

"Urgent"

Due to the seriousness of the information contained in part II of our report, the Korean Underground agents have requested it be submitted to you and not release this portion of the report to the public unless it becomes necessary.

Information.

"At the request of the Soviet Ministry of Defense the Three Power Strategic Intelligence Conference was held at Khabarovsk, Siberia from Sept. 1 thru Sept. 10, 1956.

The conference was presided by General V. S. Sokolov representing the Soviet Military High Command of the Office of Strategic Intelligence in Moscow.

In the opening statement he declared: 'We anticipate the escalation of the Vietnam war in which will involve Cambodia and Thailand. During 1967-1968, we anticipate the American puppet armed forces from Formosa and South Korea will invade Mainland China and North Korea. We must also anticipate the assassination of President Johnson. It will create an international crisis which may involve direct Soviet action.'

Several Red Chinese and North Korean Military men who attended this conference expressed their opinion that 'perhaps Soviet Union is ready for a Military showdown with America.'

End of Report

In May 1958 the Korean Underground intelligence learned the Soviet agents in American had informed its government, it was their evaluation that Senator John F. Kennedy will be the likely man to be America's next President. Eased on this information, the Korean Underground suggested we praise Senator Kennedy of our reports concerning Soviet Russia's over-all strategy and its nuclear war potential and capabilities.

On August 31, 1958 Senator Kennedy's reply was:  
 "Thank you very much for your letter of recent date with its  
 enclosures analyzing the nature of Soviet international  
 strategy and setting forth your recommendations regarding  
 American policy in Asia...I appreciated seeing this  
 material..."

In regard to the assassination of President Kennedy  
 in November 1963, the Korean Underground agents learned that:  
 "At the October 10, 1963 Sino-Soviet-North Korea Military  
 Consultative Conference, one of the much discussed topic  
 was President Kennedy.

1. President Kennedy's usefulness to Communist camp  
 is rapidly diminishing.
2. Khrushchev's and Soviet intelligence's evaluation  
 of President Kennedy's usefulness to Communist  
 cause have been over-rated.
3. President Kennedy's agitation over the Soviet  
 missiles in Cuba is self-evident that the  
 Communist Camp should not rely on his compro-  
 mising attitude on small matters.
4. Should Kennedy's regime be at an end, a weaker  
 President like Johnson may better serve our  
 purpose..."

Our agents warned: "We do not know how much credence  
 you should place on this information. However, after  
 such checking, we are satisfied that the above related  
 information is true. The discussion of Kennedy's role  
 did take place at the October 10, 1963 conference."

In the light of these three related reports, it is our  
 hope and prayer that our President will always be safe and  
 secure.

We also hope and pray the war in Vietnam be won  
 soon without involving other Communist Camp countries and  
 in particular with Soviet Russia, the real number one trouble  
 maker.

In the interest of U. S. security.

God bless you always.

Respectfully,

Kilsoo Haan

Re Cincinnati telephone call to Covington RA,  
Louisville Division, 12/12/66.

At 4:15 p.m., 12/12/66, an individual identifying himself as K. D. WOODS, 2501 Elm, Dallas, Texas telephonically contacted the Cincinnati Division and advised Complaint Clerk RICHARD D. SCHWEIN that he had been drinking with a man (FNU) MALONEY, who is also from Dallas, Texas, and who claims to have participated with LEE HARVEY OSWALD in the assassination of the President. WOODS claimed he was calling from Emmert's Bar, Covington, Kentucky. He was belligerent and sounded intoxicated. He had difficulty in pronouncing his words. He requested he be contacted by Agents at Emmert's Bar in Covington, but advised he did not know the street address.

In order to expedite this matter, telephonic contact was made with SA JOHN M. BARRY, Covington RA, Louisville Division, and Mr. BARRY was apprised of the details in this matter. Mr. BARRY advised after checking that there is no bar in the Covington-Newport area known as Emmert's. A check of the Cincinnati and Suburban Bell Telephone Directory, which includes Northern Kentucky, shows no listing for an Emmert's Cafe, nor for any cafe which might have a name phonetically similar to Emmert's. By letter dated 12/7/66, Chief of Police CHARLES BATCHELOR, Dallas Police Department, Dallas, Texas, advised he had received a long distance telephone call at 1:40 PM., on 12/5/66 from New York City from a person who identified himself as [redacted] New York, New York, who gave his telephone number as [redacted] New York City.

According to Chief BATCHELOR, [redacted] stated that on 11/22/63, at the time of the assassination of President KENNEDY, he [redacted] was standing on the grass on the north side of Elm Street on the slope approaching the triple underpass. He recalled only one shot and stated that immediately after the shot, he ran up the slope toward the railroad tracks and was stopped by an unknown police officer who pointed a pistol at him and shouted "where are you going?" He then returned down the slope. [redacted] indicated to Chief BATCHELOR that he could hear very little out of his left ear and that he heard the shot with his right ear and, in his opinion, the shot came from his right which was in the direction of the railroad tracks. He also stated that he saw a puff of smoke come from behind the fence near the railroad tracks. He stated he was so excited he does not recall any additional shots.

According to Chief BATCHELOR's letter, [redacted] further stated that at the time of the assassination he did not reveal himself and had talked to no one regarding this until the receipt of publicity. He stated he then revealed himself and made a statement to the FBI in New York City. 62-109060-14328

ReDLairtel 12/12/66.

Referenced airtel sets forth information concerning one [redacted] who had been in telephonic contact with Chief of Police Charles Batchelor, Dallas Police Department on 12/5/66. Based on information furnished [redacted] was not identified in Bureau files.

New York is instructed to interview [redacted] thoroughly regarding the information he telephonically furnished to Chief Batchelor. A signed statement should be obtained from him setting forth this information. New York should establish all circumstances as to why [redacted] was in Dallas on 11/22/63, and if necessary, set forth leads to the Dallas Division to verify his statements.

The results of inquiry conducted by the New York Office are to be incorporated into a letterhead memorandum suitable for dissemination by the Bureau. If there is any information in the files of the New York Office which would reflect on possible mental instability regarding [redacted] this information should also be included in the letterhead memorandum. New York is to bear in mind that information regarding a shot originating from the grassy knoll and the puff of smoke from the same area has been expounded upon by Mark Lane in his book, "Rush to Judgment."

New York is to expedite this matter.

NOTE:

Dallas, in referenced airtel advised of the receipt of a letter from Chief Batchelor of the Dallas Police Department who advised he had received a long distance telephone call from [REDACTED] on 12/5/66. [REDACTED] alleged he was in the area of the assassination and heard a shot from his right which was in the area of the grassy knoll adjacent to the triple underpass and that he also saw a puff of smoke in this same area. He alleged he was stopped by a police officer and further said he had talked to no one regarding this information until the release of recent publicity. This theory has been expounded by Mark Lane in his book in attempting to establish that a conspiracy was involved in the assassination of President Kennedy. This matter should be checked out and results of which will be disseminated to the U. S. Secret Service and the Department upon receipt.

ASSASSINATION OF PRESIDENT  
JOHN FITZGERALD KENNEDY  
NOVEMBER 22, 1963  
DALLAS, TEXAS

Mr. Crabtree furnished the Dallas Federal Bureau of Investigation Office a copy of his letter dated December 8, 1966, directed to Mrs. Patterson, in which he stated he was sending her certain material about Dallas which she had requested, and that he was including with his letter a list of public relations and publicity organizations which are members of the Dallas Chamber of Commerce, as well as a list of Chamber-affiliated new car dealers. He stated he was also enclosing the Dallas Magazine Housing Guide. Mr. Crabtree indicated in his letter to Mrs. Patterson that he was forwarding her letter to the Federal Bureau of Investigation, "the organization concerned with investigating President Kennedy's assassination."
