Dear Sir:

Attached herewith are some additional pages citing "matching parts" occurring interstate, including in assassination, deaths and murders, and "demonstrations" interstate, and also with foreign connection occurrences.

In citing such, it is not intended to imply necessary connection, or relevance, since investigation would be necessary to establish that. It does appear that the data is related to the security of the people of the U.S., and to that of the States and U.S.

Yours very truly

V (7th letter) is the 22nd letter of the English alphabet; and in the Manual Alphabet for deaf, (Gallaudet College card) is characterized by the hand closed but the middle and index finger extended, V form.  
S, Manual alphabet for deaf, also has the hand in similar position, with the index and middle finger in V formation.

Thus the day, (Nov.) 22, could be represented by the 7th letter V in HARVEY.  
The month, November could be represented by the 11th letter S  
Thus November 22 (1963)  
(11) S (7) V

This combination occurs in the Fig. 7, "THE X-RAY EYE" with "THE CURS" in upper left corner, and the bullets in arc downward toward the human eye and black heart and the double (2) concentric circles: page 332  
Dr. Fritz Kunkel's "CHARACTER GROWTH EDUCATION" (CSE Bend Sinister 2nd ed. published Germany 1934: Verlag S. Hirzel, Leipzig)

The initials V.S. (the initials of German publisher Verlag S Hirzel)

occur in the lower right corner of Fig. 7 "THE X-RAY EYE" p. 332 although the book is in the English (translation by Barbara Koppel-Coupton and Basil Drutt), published by Lippincott, 1938, state that Dr. Kunkel made all of the 8 drawings (figures).  
V.S. occurs in Fig. 5, page 125 and Fig. 7, (332 page) and Virginia Sutton occurs in lower right of Fig. 6. entitled "Fig. 6. The MULLER-..."

"Fig. 5 THE BLACK ... (SOCIETY?)" (with savage snarling Mongolian "st" "and and sculdors) non-unite face fangs.)  
But November (22) is the 10th month of the Russian Calendar, Press reported, thus the 10th letter in Leo Harvey Oswald's

Thus the date of assassination, Nov. 22, (1963) with bullets from high up going in curve downward to the mark, human eye and a black heart (bull's eye) on "target" occurs in Dr. Fritz Kunkel's Figure 7, page 332 "THE X-RAY EYE", which has "THE GUNS" in upper left portion of Figure and "THE 'X' EYE" in upper right portion of the figure.

X EYE, with eye serving for i, thus makes XI or 11 (eleven, which is November in our calendar).

In lower left corner of this drawing is .V.S. and occurs in

LEE HARVEY OSWALD 's name as 7th and 11th letters, which thus

occur combined in Dr. Fritz Kunkel's Fig. 7 with the 'X' EYE (1) or eleven.

(Charles Lindberg, Jr. Kidnap ransom note: Bruno Richard Hauptmann convicted, motifs in ransom note include motifs found in the 8 drawings by Dr. Fritz Kunkel, trans. pub. by Lippincott 1938)

Kunkel, Dr. Fritz, first came to the U.S. about 1935, (see 4 page brochure announcing his visit and 4 seminars, to be given: 1) Pendle Hill, Penna. (Quaker); Estes Park, Col., Holmby Colloge, near Los Angeles, Calif (Quaker), and a place in Canada. Brochure in Peoria, Ill. Public Library, photostat sent Hunter Memorial Laboratories, Wash., DC re autopsy on Dr. AJM. (List of sponsors for Kunkel's visit - long list -

is included on brochure of Kunkel's visit, 1935) Military operations on page 332, include locks of mass- (CHARACTERGROWTH EDUCATION, 3 figures by Dr. Kunkel, states the lockjacket of Lippincott's 1938 Ed. trans. edition.)

But Figure 7 "THE X-RAY EYE" also includes date of attack at Pearl Harbor, Hawaii, I.O. the 11th month of the Russian Calendar is December, and Figure 7, the numeral thus theory in December 1941.

Procs stated Lee Harvey Oswald was associated with a Pro-Cuba organization, but Cu symbol for Cuba, atomic 29 (copper), occurs as the Gordon Ross' illus page no. for verse 14 (XIV) of the Pocket Book Edition, subbyat of Omar Khayyan, with introduction by Louis Untereyher (5 pages) v-x

The Roman numerals for Louis Untereyher's introduction: v-x also include potentially the date of assassination at Dallas, Texas, Nov. 22, 1963, for V in alphabet is the 22nd letter, and x (10) the month of November in the Russian Calendar.

INTERNAL SECURITY - RUSSIA

Re memorandum dated 12/5/63 to Mr. Sullivan from Mr. Branigan advising a letter had been intercepted by Secret Service. This letter was addressed to Lee Harvey Oswald, "Mail Office," Dallas, Texas, postmarked LaHabana, Cuba, November 28. The letter is dated LaHabana, November 10, 1963. The letter and envelope were received in the Laboratory 12/9/63 with Dallas letter 12/5/63. This letter, written in Spanish, contains the typewritten signature "Pedro Charles" and the handwritten signature "Pedro." It is conspiratorial in content and implies a prior conspiracy between the writer and Lee Harvey Oswald to assassinate the President.

A second letter was received in the Laboratory on 12/9/63, along with a group of letters for translation, from the Office of the Attorney General. This second letter was addressed to the Attorney General in Washington, D. C., was dated at Havana 11/27/63, and postmarked on the reverse side 11/28/63, 9:30 A.M. This letter was written in Spanish, bore the handwritten signature "Mario del Rosario Molina," accused Lee Harvey Oswald as the man who assassinated the President, denounces Pedro Charles as an agent of Fidel Castro and alleges payment of \$7000 to Oswald to assassinate the President.

It was concluded that both letters and envelopes were prepared on the same typewriter. This typewriter is equipped with Remington Number 10 large pica type, first used on standard correspondence machines in October 1935. This typewriting was not identified in the Anonymous Letter File or in the National Security File.

It was concluded that both of the envelopes came from the same source. These envelopes have a yellowish tinge indicating they are from an old batch. It was noted that the postmark on the reverse sides of both envelopes is the same and that the "9:30 A.M." portion of the postmark is upside down on both envelopes. Furthermore, both envelopes have an illegible postmark on the faces of the envelopes, of which only the "1963" is legible. Furthermore, the same kind of three-cent stamp was found on both envelopes.

The second letter was typed on a sheet of bond paper which is .0042 inches thick, whereas the first letter is on a thin manifold paper which is .0020 inches thick. Both sheets of paper are similar in length and width. It was concluded that both envelopes had been previously opened and resealed.

It was found that the same type pen and ink was used to sign both letters.

No indented handwriting or microdots were found on the letters and envelopes.

No latent prints of value were found on the envelopes and letters.

The paper comprising the letters and envelopes did not contain any watermarks or other significant characteristics which would indicate the source of the paper.

Photographs of both envelopes and letters and copies of the translations from the Spanish are attached. The original evidence is temporarily retained in the Laboratory.

A Laboratory report will be promptly forwarded to the Dallas Office.

**ACTION:** The above information has been discussed telephonically with Domestic Intelligence Division and is set forth for inclusion in any over-all evaluation of these letters.

**ADDENDUM:**

The handwritten signatures are extremely limited and are not comparable; therefore, it is not possible to determine whether they were written by the same person.

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

On December 17, 1963, BILL CARLIN, Deputy Sheriff, Logan County, Paris, Arkansas, advised Special Agent CHARLIE E. GUNTER, JR., that he had received information that two young men employed by the Soil Conservation Service, Paris, Arkansas, had heard one DEWEY JORDAN of Dallas, Texas, make some remarks during the past summer to the effect that President KENNEDY would be killed if he ever came to Dallas. JORDAN described by CARLIN as a wealthy individual who resides off University Boulevard in Dallas, Texas, and owns a farm near Barber, Arkansas. Remarks made by JORDAN were supposedly made to the two young men on the farm at Barber, Arkansas.

On December 17, 1963, JAMES WILLIAM HATCHER, 427 South Elm Street, Paris, Arkansas, furnished the following information:

During the summer of 1963 he was employed by the Soil Conservation Service, Paris, Arkansas, and in connection with this employment he was on the farm of DEWEY JORDAN during the latter part of August 1963. This farm is located near Barber, Arkansas, and is operated by a man by the name of F. F. NICHOLS.

While HATCHER and a fellow employee named COY RUSH had a break in their work, DEWEY JORDAN, who was present on the farm at that time began talking to them about politics. He told them that Dallas was a "straight Republican town." He also told them several political

jokes. He stated that President KENNEDY was hated in Dallas, Texas, and remarked that if KENNEDY ever came to Dallas he would never leave alive.

HATCHER stated he could not recall if the remarks made by JORDAN were in a joking or serious tone. He stated that the names of any individuals who might perpetrate harm to the President or any organizations which may have been involved in actions against the President were not mentioned by JORDAN.

JORDAN apparently was against the United Nations activities and United States participation in this group. JORDAN also remarked that when he was a kid he had been against the Ku Klux Klan, but that he believed now, under the present circumstances, he would join this organization.

HATCHER stated that he could not remember exactly what JORDAN's words were concerning President KENNEDY being killed in Dallas, but that JORDAN definitely left him with the impression that harm would befall the President in the event the President visited Dallas, Texas.

On December 17, 1963, COY JOE RUSH, JR., 1105 Hickory Street, Paris, Arkansas, furnished the following information:

During the past summer of 1963 he had been employed by the Soil Conservation Service at Paris, Arkansas. He recalled that during the summer he had been employed on the farm owned by one DEWEY JORDAN of Dallas, Texas, located near Barber, Arkansas. One day, while he and a fellow employee, JAMES HATCHER, had a break in their work, they began talking to JORDAN.

RUSH stated he could not recall the specific conversation which had been passed between them and JORDAN. However, he did know that JORDAN had expressed anti-President KENNEDY feelings, anti-United Nations feelings, and anti-ROBERT KENNEDY feelings. He recalled that

RE: ASSASSINATION OF PRESIDENT  
JOHN F. KENNEDY

JORDAN made some remarks to the effect that if President KENNEDY ever came to Dallas he would not get away alive.

RUSH stated that he could not recall the specific words which JORDAN used to express this sentiment, but to the best of his recollection during the conversation JORDAN had also remarked, "See what happens when the President comes to Dallas."

RUSH stated that this conversation was held on the spur of the moment and that neither he nor HATCHER had placed any significance on the remarks of JORDAN until subsequently they heard of the assassination of President KENNEDY. He and HATCHER then discussed the remarks which had been made by JORDAN on the farm during the summer and both agreed in their conversation that JORDAN had indicated harm would befall the President in the event that he visited Dallas, Texas.
