### Jack Ruby's Condition Is Called 'Chronic'

The mental condition of Jack Ruby, who was convicted of killing Lee Harvey Oswald on Nov. 25, 1963, "is basically unchanged since I first examined him nine months ago, except that it has become more chronic," said Dr. Louis J. West last week.

Dr. West, a professor of psychiatry at the University of Oklahoma Medical School, examined Ruby for an hour in the Dallas County jail. Dr. West testified at Ruby's trial last April that the former night-club operator should be hospitalized immediately.

Ruby has been confined since he was sentenced to death for killing Oswald. On March 10 his attorneys will argue before the Texas Court of Criminal Appeals that the verdict should be set aside.
