Dear Sir,

Undoubtedly your department is already plagued with a burdensome number of letters concerning the assassination of our President and the subsequent murder of Lee Oswald. I am also convinced that you are well aware of the details involved in this case of such magnitude. However there is one item that I feel I must direct to someone in your department.

From the first tape re-broadcast I noticed a seemingly obvious connection between two honkings of an automobile horn and the action which followed. The first honk of the horn came at the same moment that Lee Oswald appeared through the doorway. Mr. Ruby was to the far right. Beyond sight of Oswald's appearance? Then there was a second honk at which time Ruby made his move toward Oswald.

I don't know if there are any connections among any of these incidents. However, I was prompted to make mention of them for several reasons. I found no mention of the honking horn in any newspaper reports, nor heard anything about it on any radio or TV accounts of the detailed description of the events. None of my friends noticed what to me seemed so clear. Then too, I am reminded of the warnings that no information should go unreported, especially to the people who can do the most with the information.

I hope this lengthy letter will be of some help. If not then may it serve as a word of thanks and encouragement for all the devoted work I know your department will do in solving this shameful crime.

Sincerely,

Ruth Mohring

Sir Sir,

Obviously your department is already plagued with a burdensome number of letters concerning the assassination of our President and the subsequent murder of Lee Oswald. I am also convinced that you are well aware of the details involved in this case of such magnitude. However there is one item that I feel I must direct to someone in your department.

From the first tape re-broadcast I noticed a seemingly obvious connection between two honking of an automobile horn and the action which followed. The first honk of the horn came at the same moment that Lee Oswald appeared through the doorway. Mr. Ruby was to the far right. Beyond sight of Oswald's appearance? Then there was a second honk at which time Ruby made his move toward Oswald.

CORRESPONDENCE

I don't know if there are any connections among any of these incidents. However, I was

01/15/69 JG:pl

prompted to mention of them
for several reasons. I found no mention
of the sinking horn in any newspaper
reports; nor heard anything about it on
any radio or TV accounts of the detailed
description of the events. None of my
friends noticed what to me seemed so
clear. Then too, I am reminded of the
warnings that no information should go
unreported, especially to the people who
can do the most with the information.

I hope this lengthy letter will be of
some help. If not then may it serve
as a word of thanks and encouragement for
all the devoted work I know your department
will do in solving this shameful crime.

Sincerely,

Paul Mokim
