Congressman Ray Roberts
Capital Building
Washington, D. C.

Dear Mr. Roberts,

I am somewhat disturbed and angry at the speed, efficiency and possibly of the loyalty of our security system which I believe needs going over with a fine tooth comb. I have lived in the southwest corner of Collin most of my life on the land my ancestors settled. Also I have mixed and mingled with many people who live in Dallas. Sometimes a person who has kept his eyes and ears open can hear startling things and actually by accident or euresity get involved in what I believe to be an international plot or conspiracy.

As far as two years ago I became acquainted with a strange woman in Dallas via way of Austin and later Berlin who impressed me as being on an important mission of some kind-possibly I was a mistaken contact and got to know too much and a series of events that followed would make good ~~anytime~~ reading before the assassination of President Kennedy. At the time these events seemed a little shallow to report, although on two occasions I actually started to call FBI.

Thanksgiving Day about 4 P M, I left a letter with important information for the FBI, at a letter box on the west side of the *DALLAS* Federal Building-a car drop. Saturday morning Nov. 30, 63, I had heard nothing from anyone about more details which I omitted.

Sir, if it takes an act or Congress or act of the State Legislature that trial should not come off by Dec. 9, 63 of Jack Ruby. There ~~are~~ too many missing links to hurry and let possibly a real big Communist plot get away.

Very truly yours,

Clayton H. Clark
