Dear Sir:

The following was heard and witnessed by me via TV broadcast of news -- (I am not sure of exact station or channel received here, as I was changing stations every few minutes to try to get latest news or new information regarding why Oswald shot President Kennedy -- I had had ABC channel 13 here, and channel 8 C. B. S.) -- but I'm not sure which it was -- but surely, some where, some other person, and or some recording of this as of other broadcasts must be available: about, or from 12:00 pm on Sunday, following the murder -- Bob Walker Dallas TV news broadcaster was being cut-in for current news about Oswald -- they were supposed to transfer Oswald from city to county Jail -- after what seems to me was a crude, farcial atmosphere of reporting ie -- it didn't and doesn't seem real honest -- but put on, acted -- he said, (Bob Walker said "For some unknown reason they have delayed the transfer, they are 1 1/2 hours late in so doing -- etc etc -- he had been using 2 telephones simultaneously -- a white one to the outside hook up -- a black one to the basement of the city jail -- he was about to dismiss the white telephone (he did hang up the white receiver) but he said wait a minute I'll check downstairs again -- he leaned over to the right and asked "Is Ruby there yet? -- apparently he didn't get an immediate answer for he again, and this time his face and voice showed tension, much tension -- he said "Is Ruby there" and must have had an affirmative answer for he was immediately relaxed and said "Just a minute, (tho he was using black telephone only) I think they are bring Oswald now -- then in a matter of seconds -- a shot was heard -- the scuffling and he ( Bob Walker) said there had been a shooting etc etc -- that an unknown man had shot Oswald -- then he said he'd try to find out who the man was -- shortly giving information that the man was called Ruby -- that's all they knew about him -- then, a little later Walker gave the information that the real name was Rubenstein, etc. etc -- I had wondered who Ruby might be -- a woman police matron or woman personnel employee -- when Walker first asked "Is Ruby there Is Ruby there? Also TV news had previously stated that President Kennedy was thinking of placing Robt. Kennedy as Head of C. I. A. Could some one from the past administration appointed by C. I. A. have wanted to keep Robt. Kennedy out of C. I. A. ? Also, Nixon on the Jack Paar Tonight show the Friday before the 1960 Nov election for President -- Nixon said "For what it may be-worth I take full responsibility for this Cuban Invasion -- ie the Bay of Pigs! Why, was J. F. Kennedy blamed for that fiasco! Also what was Walker the military officer

Dear Sir: The following was heard  
and witnessed by me via TV broadcast  
of news - (I am not sure of exact station  
or channel received here as I was  
changing stations every few minutes to  
try to get latest news or new information  
regarding why Oswald shot President Kennedy  
I had had a BC channel 13 here, and  
Channel 8 (C.B.S.) - but I'm not sure which  
it was - but surely somewhere someone  
person and or some recording of this as  
of other broadcasts must be available  
of about or from 12:00 pm Sunday following  
the murder - Bob Walker Dallas TV news  
broadcaster was being cut-in for current  
news about Oswald - they were supposed to  
transfer Oswald from city to County Jail -  
after what seems to me, was a chaotic  
forced atmosphere of reporting in it didn't  
and doesn't seem real honest & but put on  
acted - he said that Bob Walker said for an  
unknown reason they have delayed transfer  
they are 1/2 hours late in or doing etc etc -  
he had been using 2 telephones simultaneously  
one a white one to the outside look up - a  
black one to the basement of the city jail -  
he was about to purchase the white telephone  
(he had bought the white receiver) but he  
waited a minute I'll check directions again  
he leaned over to the right and asked "Is  
RUBY there yet?" - apparently he didn't get  
an immediate answer for he again and  
thrust his face and white phone receiver  
much nearer - he said "Is RUBY there  
and might have had an affirmative answer  
Wier for he was immediately relaying  
and a minute (he was using black  
telephone only) I think they are bring Oswald  
now - that in a matter of seconds -"

Ruby then also J.V. never had previous  
 stated that he had Kennedy as the  
 of playing out, in fact as far as I  
 could someone from the CIA  
 nation appointed by C. & A. line wanted  
 to keep the Kennedy out of  
 also Nixon on the Jack Ruby to night who  
 then Friday before the 1960 election  
 President Nixon said "I got it may be  
 worth I take full responsibility for this  
 Cuban invasion in the Bay of Pigs. What  
 was J. Kennedy's blessing for that?  
 what was Walker's military office  
 who hated Kennedy? What was he doing?  
 who was he - of the CIA? The only picture

shot was heard - the second fold  
 (Walker) said there had been a shooting  
 etc etc - that an unknown man left  
 shot Oswald - then he said he'd try  
 find out who the man was - shortly  
 after he called Ruby - that's all  
 about him - there's a little later walk  
 give the information that the real name  
 was Rubenstein etc etc - I had wonder  
 ed what Ruby might be a woman  
 nation or woman in professional employ  
 then Walker first asked of Ruby there I do
