Senator Richard B. Russell  
Senate Office Bld.  
Washington, D. C.

*Marie McMurray*

Dear Sir:

May I make a couple of suggestions to you, into the investigation of the assination of our late President John F. Kennedy?

I earnestly believe that there might have been a call or calls made to Mr. Ruby while Mr. Oswald was on out of town trips. May I suggest you check all Atlanta toll tickets for the year of 1963 including part of Nov. and from known places Mr. Oswald visited.

And also on Sun afternoon or night of the 24th of Nov. after Mr. Oswald murder they interviewed a friend of Mr Ruby, I can't think of the friends name but he made the statement that Mr. Ruby had lots of friends in California, he either said Los Angeles or Hollywood, I dont remember which one now. He said he wasn't going to name any names but they would go any amount to get Jack Ruby out. I think this friend should be made to tell who all those other friends are in California.

It's funny but I never heard that mentioned again on television, radio or by the press. I wonder what orgination threw their weight around to see that it didnt get back on the air or in the newspaper.

I know that you are doing every thing in your power to clear this up. I and all my family have every confidence in you, that the real facts will be known, communist or not.

Thanks for being my Senator and taking time to listen.

Very respectfully,  
Marie McMurray
