Assassination Report Is Completed by FBI

By MIRIAM OTTENBERG
Star Staff Writer

The FBI report on the facts surrounding the assassination of President Kennedy has been completed and is expected to be sent to the White House late today or tomorrow.

The report, it was learned, has been submitted to Deputy Attorney General Nicholas Katzenbach, who is correlating the FBI findings with reports from other agencies.

Mr. Katzenbach, rather than Attorney General Kennedy, is directly in charge of getting the report ready for submission the assassination and was not part of a conspiracy.

No Conspiracy

Details of the report are being kept a secret, but officials close to the investigation have said it proves that Lee Harvey Oswald acted alone in

Another major element of the report is said to show that no links existed between Oswald and Jack Ruby, the man who murdered him in full view of Nation-wide television audience.

The FBI has been running down rumors that keep cropping up all over the country, but the report will deal positively with what actually happened rather than negatively with what did not happen. In other words, the false clues will be dealt with by their exclusion from the report and only the proven facts will be included.

No new and startling developments are expected to emerge in the report, but the known facts will be bolstered with detailed evidence.

President Johnson has given assurances that the facts collected by the FBI will be made public but the time of publications has not been set.

It was thought likely that the report will be viewed before publication by the special presidential commission created to investigate the assassination and the subsequent murder of the suspected assassin.

Warren Group Meets

The seven-man commission, headed by Chief Justice Earl Warren, held its first meeting yesterday and scheduled another session for 3 p.m. today in a second floor conference room of the National Archives.

The Chief Justice told newsmen the commission is discussing procedure and how it will organize and staff the commission.

Mr. Katzenbach sat in on part of yesterday's closed meeting, presumably to offer the cooperation of the Justice Department and to brief the commission on the status of the various investigations being made into the case.

It will be the task of the commission to evaluate the various reports and to conduct any other investigation it considers necessary.

The prospect that part of the commission's investigation will include a hearing was indicated when the Chief Justice announced that the commission will ask Congress for legislation authorizing the commission to subpoena witnesses.
