

## Connally Mostly Recovered

### AUSTIN BUREAU

AUSTIN — Gov. John Connally estimates he has recovered 90 per cent from the bullet which tore through his back, chest, right wrist and left thigh 10 months ago.

The leg wound causes no trouble at all. His right side is weak and he has difficulty in raising his right arm but he has no pain and experiences no great difficulty, he told newsmen Sunday.

Constant reminders of the injuries are in small daily tasks that require a pivot of the right wrist. He had difficulty with a toothbrush until he got an electric model. Use of a fork required a child's grip, so that he now eats continental style with his left hand. He has to hold out both hands for small change. Coins slide from his right palm.

"I still don't have the stamina I had before," he remarked.

## Robert Oswald Sure Brother Was Assassin

### ASSOCIATED PRESS

Robert Oswald said Sunday that there is now no doubt in his mind that his brother, Lee Harvey Oswald, was the assassin of President John F. Kennedy.

Oswald, in a television interview, was asked his opinion of the Warren Commission report on the assassination.

He said that in the past he had had doubts about the time factors — the shots fired from the Texas schoolbook depository building and the time that his brother left the building until his arrest in a theater.

"I am quite satisfied that it has been covered entirely and leaves no doubt in my mind that Lee actually did assassinate the President of the United States and did kill Officer Tippit," said Oswald, 30, sales manager for a Wichita Falls brick company.

"Is there any lingering doubt in your mind regarding the motive?" he was asked.

"Yes, there is. The commission report goes into a number of possible motives and probabilities. Two or three come close to my own personal thinking about what the motive might have been," he said. Oswald did not elaborate on the statement.

## Nikita Gets Copy Of Warren Report

MOSCOW (AP) — The U.S. Embassy sent a copy of the Warren Report to Premier Khrushchev today.

The report in English, a news story on its contents covering six legal-sized pages in Russian, and a personal letter from U.S. Ambassador Foy Kohler were sent to the Kremlin.

Similar packages were also sent to about 100 other top Soviet officials and newspaper editors, a U.S. Embassy spokesman said. He added that the first chapter of the report, which summarizes it, would soon be ready in Russian and a Russian translation of a longer summary is being prepared.
