In remembrance of President J. F. Kennedy

**Rep. Kupferman
 Wants Kennedy
 X Rays Released**

NEW YORK (UPI)—Rep. Theodore Kupferman, R-N.Y., said yesterday he would demand that X rays of the body of the late President Kennedy be made available to "responsible experts."

In a television interview Kupferman said he would insist that the U.S. attorney general "so interpret the Freedom of Information Act" that the X rays and photographs of Kennedy's body be released.

Kupferman said the material is necessary to determine if the "single bullet" theory is valid. Critics of the Warren Commission report have contended that Kennedy and Texas Gov. John Connally were hit by separate bullets, which they say would indicate the presence of more than one assassin.
