Agent to argue Oswald lone killer

DALLAS — The Dallas FBI agent who coordinated and directed the investigation of President John Kennedy's assassination is heading for retirement and lecture tours to try to convince people the killer acted alone and there was no conspiracy. Robert Gemberling, a veteran of 33 years with the FBI, including 26 as a special agent, will retire in two weeks. He believes another investigation into the Kennedy assassination is a waste of time and money.

0/55 assassination of Kennedy
