Continued From A-1 the Warren Commission as the person who assassinated President Kennedy in Dallas Nov. 22, 1963. .The commission said it found that Oswald acted alone in the assassination.

A Dutch journalist, Willem Oltmans, who test sed before the House Assassinations Committee ere Friday, quoted George de Mohrenschildt. friend of Oswald who committed suicide earlier this week, as saying de Mohrenschildt was the middleman between the late oil billionaire H.L. Hunt and Oswald in a plan to kill Kennedy.

Spokesmen for the Hunt family have denied the

accusations.

1 ...

The Morning News said it had obtained the note from retired newspaper editor Penn Jones of Midlothian, Tex. Jones, who has privately investigated the assassination for years, said he had re-ceived the note through the mail in August 1975 from an anonymous person in Mexico City. He said the sender told him that he had given a copy of the letter to FBI Director Clarence Kelley in late 1974.

An FBI sokesman has said the bureau knows nothing about the delivery of the letter to Kelley, but that the bureau is still attempting to determine

the authenticity of the note.

The Dallas newspaper said the handwriting experts were commissioned by the News and their conclusion was that it is "the authentic writing of Lee Harvey Oswald and was written by him.

JONES SAID FBI agents came to his home last week with portable photographic equipment to photograph his copy of the letter.

The News identified the handwriting experts as Mary C. Harrison of Richardson, Tex., Mary L. Puncan of Toronto, Canada, and Allan R. Keowa of El Paso, Tex. The newspaper said all three are certified with the Internatinal Graphoanalysis Society and were alerted to watch specifically for any signs of forgery.

We have made a careful examination and comparison of all the writing and find that it com-pares," the three said in a signed statement, the

newspaper reported.

an the Wunt estate A spokesman for the Hunt estate issued a statement saying that reports that Hunt had something to do with the assassination were "totally false." A spokesman for Hunt Oil Co. denied that Hunt "ever knew, ever communicated with or ever received communication from Lee Harvey Oswald."

Meanwhile, Rep. Richardson Preyer, D-N.C., a leading member of the House Assassinations Committee, said he needs time to assess the credibility of testimony by Oltmans that de Mohrenschildt, an Russian-born geologist, claimed to be part of a conspiracy to kill Kennedy.

PREYER, CHAIRMAN of the subcommittee on the Kennedy assassination, would not say whether he believed the story the Dutch journalist gave be-

ind closed doors for three hours Friday.

"Ask me that question again in a few months,"
said Preyer. "Mr. Oltmans was very specific on
some things which can be corroborated but not as
clear on others."

Oltmans said he told the committee that de Montager in the specific of the specific

renschildt implicated Cuban exiles, Texas oilmen,

and the CIA and FBI in the alleged plot.

An FBI spokesman said Oltmans' story differed drastically from the account the FBI got originally from de Mohrenschildt soon after the 1963 assassi-

ration.
The Warren Commission took 100 pages of swor testimony from de Mohrenschildt and 40 pages from his wife.

In two interviews outside the committee, Olt-mans said de Mohrenschildt had wavered between insisting the story was true and saying he fabricated it to sell a book. But he later told other reporters that de Mohrenschildt never said he made up the story.

De Mohrenschildt, who was born in the Soviet Union and taught French at Bishop College in Dallas, was found dead in Palm Beach, Fla., last Tuesday, hours after a committee investigator tried to contact him
