NK 62-3050

Mr. PETERSON advised that U.S. Customs officials, NYC, conducted an investigation concerning these rifles and that they would also have records of them in view of the fact that the storage was bonded. He added that it was impossible to determine from the records on hand (which are enclosed to the Eureau) when carton number 3376 was turned over to RUPP because the case numbers were entered on only one of these delivery orders, delivery order number 89138. He added that the documents made available by him were the only ones he has reflecting this storage and delivery. Of the 520 cartons received 86 cartons are still on hand according to his records.

Mr. PETIREON put SA HOYLE in telephonic contact with GEORGE F. DUAN, Deputy Collector, Charge of Warehouse Division, Customs Rouse, NYC, who advised that an investigation by customs failed to reflect a specific delivery of the rifle in question. He added that this was not particularly significant in view of the uniformity of the merchandise which was generally withdrawn in multiples of ten cases at a time. He stated that he would have records of the receipt, storage and delivery of these rifles.

The New York Office will contact GEORGE F. DUNN, mentioned above, for any records he has in accordance with instructions in re airfel.

For the information of the Eureau, the Newark Office made sopies of the enclosures which will be furnished Harborside soundinal Co. to replace the originals furnished by Mr. PETELL CA.

The Laboratory is requested to assign identifying numbers to the enclosures and make four photographic copies of each document so that two may be furnished to the President's commission, one for Eureau files and one for files of the Dallas Office, as per instructions in referenced airtel.

Newark will furnish the results of the above investigation in a report under the caption, "LEE HARVEY OSWAID, aka ID - R - CUBA", OO Dallas, Bufile 105-82555.
