Q621 Photograph of President Kennedy during 1960 campaign, taken by ROBERT RETZLAFF -

Result of examination:

It was not determined whether the individual in the center foreground of the Q621 photograph is LEE HARVEY OSTALD, because the known photographs of OSTALD available for comparison are not sufficiently comparable as to angle some of view. It is pointed out that significant differences in general facial characteristics were noted which strongly suggest that the individual in the center foreground of the photograph, Q621, is not LEE HARVEY OSWALD.

Specimen Q621 is returned herewith. Photographs have not been retained.
