Dear FBI Folks--

I am lying in a hospital bed in Philadelphia listening to the assassination news - It has just come thru - that one of your men lost his life in addition to the President.

News of the need for an operation on me - had just been told me - Before I become submerged in my own problems I am enclosing a small check to give to the FBI man's widow if he has one (-otherwise as you determine). This is the time his wife may need everything available to her (before death benefits start)

You will have to fill in the name payable to - since the man's name has not yet been told -

Sincerely

Katherine Cash, R. N.
