

JESSE H. WILLIAMSON
ATTORNEY-AT-LAW
412 SOUTH MAIN STREET
BLUFFTON, INDIANA

November 25, 1963.

Mr. J. Edgar Hoover,
Federal Bureau of Investigation,
Washington, D. C.

Dear Sir:-

After the last few days stirring events and the double tragedy of President Kennedy's assassination and the Possibly inspired slaying of the assassin this morning at the time of the much publicised transfer of him from police headquarters to the county jail, possibly to silence his tongue forever as to the real motive behind the shooting from ambush of our president just a few days after Mr. Kennedy suggested the later support of our country to the leaders of any successful uprising of Cuban nationals and patriots versus the present dictator there, I wish to advise that Cuban refugees here from Castro's Cuba firmly believe that Castro's anger at JFK for obtaining a breach between The Russian Krutchev and Castro and the weakening of the latter's aid from Russia against the western world, are at the back of the sniping and murder of Mr. Kennedy.

Love and admiration of Mr. Kennedy by the former Chicago character who today murdered MR. Kennedy's assassin may be the reason for trying to take justice into his own hands but it sounds fishy and the reported attitude of certain police in Dallas to close their books etc. etc plus the fact that they did not transfer the prisoner before the announced time and made no move to stop this last silencing murder though he was known to several police before and at the time of today's shooting.

I went to bed but got up as I felt this information as to the feeling of anti-Castro refugees living here now, should be conveyed to you by a now retired attorney, age 79, who was in the Bureau of Investigation Department of Justice, stationed in Indianapolis, Chicago and Detroit during and after World War I. I was with Paul V. McNutt's daughter and my own daughter, then a translator in secret work in Washington during World War II when you sat at a restaurant table next to our and Miss McNutt pointed you out.

REC-52 62-107040-1083

You probably already have better reason than given here to doubt the clearance given in Dallas according to tonight's TV reports.

Sincerely, DEC 5 1963

Jesse H. Williamson
