"The President of the United States and a valiant Dallas policeman have died violently by the hand of a member of the International Communist Conspiracy. This is the same kind of violent death being meted out to officials and citizens of South America, Viet Nam and other countries all over the world by that same communist conspiracy. And it is the same type of violent death planned for every American who chooses to resist slavery and the continued subversion of this country by the communists unless immediate and effective action is taken by the Federal Government to outlaw, defeat and destroy the communist conspiracy. If this sacrifice of the life of the President and a law officer is not to have been in vain, and if it is not to be repeated with increasing frequency and violence, stern, fearless , and effective measures will be demanded of you by every American who has watched with deep apprehension and misgivings the Kennedy Asministration's strange and incredibly unrealistic attitude toward our deadly enemy -- communism. Conservative and dedicated American spokesmen and citizens everywhere have warned your administration repeatedly and continuously of the imminent O danger of internal communism -- but so far without avail. റ Lee Harvey Oswald was formally charged with the murders and overwhelming evidnece supports those charges in spite of insidious efforts of the communists and their despicable liberal sympathizers and apologists in The United States to accuse the right wing. Oswald was a dedicated Marxist communist and an officer of the Fair Play For Cuba Committee -- a communist front. In short, Osvald was a typical, deadly internal communist, and a skilled practitioner of the communist trade -- violence, deceit, murder, confusion and hatred. 'It is now reported that his bias toward communism and his predilection for murder as a means to communist goals developed from his study of communist tracts --

Ironically, one of President Kennedy's earliest presidential actions, on Narch 17, 1961 was to publish an executive order opening the floodgates for entry of just such communist propaganda into this country. This is enemy propaganda transported

يواد تعمد ينج والمحاصية Similarly, you, Hr. Attorney General, have been repeatedly quoted as minimizing the danger to this country from "internal The second communism." For instance, in the Los Angeles Herald Express for January 28, 1962, you were quoted, "The great menace as far as communism is concerned is not this group here in the United States but the problem we have overseas.

Do you still believe, Sir, after last week's tragic events that internal communism is not a deadly threat to every American including the president? If the communists can murder a supberbly guarded president with relative ease, what chance will the ordinary unarmed citizen have? Is it not incredible irony that the President may have been sacrificed needlessly because both you and he completely underrated the deadly menace of internal communism and have failed to execute the law of the land that requires the registration or jailing of these conspirators and murderers? Is it not time for you, Mr. Attorney General, however belatedly, to promptly and effectively enforce the Smith Act and clean out the communists both within the Federal Government and the country at large? Do you understand new that unless you act, President Kennedy's death was only the beginning of the real communist terror and violence in this country that students of communism have been telling you about?

It is your prerogative to risk your life and that of your brother as you have done, with tragic results that have shocked the nation. But it is not your right to risk the lives of the millions of Americans who are paying your salary to protect this nation from its internal enemies.

I believe the very least every American can expect from last week's events is that you and the new president take the necessary measures to clean up the menace of communism within the United States. The time for ceddling and collaborating with our enemy is now past.

Very truly yours.
