ASSASSINATION OF PRESIDENT Leb. mo. D-437015 AX JCHN F. KENNEDY, 11/22/63, DALLAS, TEXAS

Speciment localized 11/27/68 Qc102 Photograph of a Selective Service System Botice of Classification in the name "Alek James Hidell" which was in the possession of LRE HARVEY OSVALD

Besult of examination: It was concluded that Oclo2 is a fraudulent and i counterfeit card. It was prepared from OSWALD's original Notice of Classification in his name and contained in his vallet. From OSKALD's original Notice of Classification at less three begatives were prepared. These three begatives are part of item 225 previously submitted by your office. These three begatives were used in preparing the face of Qc102.

The reverse side of Qc102 was not prepared from

The reverse side of Qc102 was not prepared from OSVALD's original Notice of Classification or from his original Registration Certificate both of which were in his wallet nor does the data on the reverse side of Qc102 conform to the descriptive data on the back of OSVALD's See original Registration Certificate. It is noted that the reverse side of Qc102 is the form used for the reverse reverse side of Qc102 is the form used for the reverse sides of Begistration Certificates and is not the reverse side of his Botice of Classification card. Hence, it is apparent that at one time OSVALD had at least one other original Registration Certificate available.

The handwritten signature of Bidell on Qc102 is not sufficiently comparable with the available known writings of LEE HARVEY OSVALD to determine whether he did or did not prepare the Hidell signature.

With State of the Control of the Con

Qcl02 is retained.
