Source has made numerous attempts to obtain a tape of Dr. SWIFT's speech for the first Sunday of January, 1963, 1/6/63, in an effort to substantiate statements made by him during his sermon on 11/24/63, as contained in referenced airtel. From contact source has had with the tape cannot be located in SWIFT's office, or files. Stated that her parents, who live in another state and who were not identified to source, might have a copy of the tape for 1/6/63 and that she would make efforts to obtain same.

In view of the information contained in SWIFT's tape for 12/30/62, the last Sunday of December, 1962, coupled with the fact that source stated in referenced airtel that SWIFT makes his annual predictions on the first Sunday of January of each year, it is possible that the prediction made 12/30/62 is the one referred to. Further, because of the difficulty in obtaining the tape and the hature of source's association with Dr. SWIFT and the Christian Knights of the Invisible Empire, it is not felt practical to jeopardize source by applying pressure to the tape of 1/6/63.

However, source will maintain contact with and in the event the tape becomes available, it will be reviewed and Bureau advised.
