

INTERNAL RED FASCIST THREAT MOUNTS TOWERS OF PRESIDENT SHOCKING

President Kennedy ably assisted by his socialistic advisers, shrieks about the "threat from without." Simultaneously he totally embraces the "step by step" program of the communist conspiracy toward a strong centralized left-wing government that increasingly controls and destroys the God-given freedoms of the individual and family. Welfare statism and government control is becoming more and more pronounced.

The destructive trend, coupled with the unprecedented and shocking powers through "executive order" vested in President Kennedy, must be contested through every legislative media available to the citizenry.

What are U.S. executive orders? They are issued by the President for the purpose of giving administrative authority to a "law or treaty or provision of the Constitution." These orders may be executed without either the knowledge or consent of Congress. Executive orders have the force of law by simply being published in the Federal Register.

On February 20, 1962 a series of ten executive orders were published in the Federal Register, without the knowledge of the general citizenry. These orders, apparently, give the President dictatorial powers for a take over. The executive orders granting this power are numbered 10995 and 10997 through 11005. An eleventh executive order, 11051, published October 2, 1962, gives authorization for putting all other executive orders into effect. The ten executive orders provide for: Take over of communications media; all electrical power, petroleum and gas, fuels and minerals; food resources and farms, including all equipment for farming; all modes of transportation and control of highways, seaports, etc.

Mobilization of all civilians into a work force under government supervision; all health, education and welfare functions; designates postmaster general to operate a national registration of all persons; provides for take

over of all airports and aircrafts; grants housing and finance administrator power to relocate communities, build new housing with public funds, designate areas to be abandoned as unsafe and establish new locations for populations; and finally provides for take over of railroads, inland waterways and public storage facilities.

There is a total lack of precise description of the conditions or situations under which President Kennedy could enforce the above 10 executive orders. He could proclaim a state of "national emergency," a term that is not clearly defined. Any situation that the President sees fit could permit him to take over. These laws could be implemented if our country were to be attacked either by "overt or covert" methods, or seemingly, if we were to enter a period of economic crisis or a "civil rights" crisis.

These powers, vested in the President, could be used at his whim, to give him the authority of a Caesar.

Write your Senator and Representative now. Ask for the rescinding of these powers. All executive power must come from the consent of the governed, through the Congress.

Students Become Leary and Weary Of Leftist Teaching

Your publisher has just completed a speaking itinerary, which covered parts of Arizona and Illinois. In addition to the many well attended evening meetings, he addressed a total of more than 20,000 college and high school students.

In Phoenix, Arizona he gave seven talks in one day, every hour of the hour, to students at Phoenix College, Tempe University, Mesa and Phoenix High. He also addressed the University at Flagstaff, as well as the high schools in Miami, Globe and Kearney, Arizona. Capacity meetings were also held at Sterling and Prescott High Schools in Illinois.

The students in every instance were well mannered, courteous and listened with rapt attention. The responses were exceptionally good. The questions were brilliant and provocative.

Students most everywhere, however are plagued with the socialistic teachings of many professors and teachers. The American Civil Liberty Union reflected its left wing influence on many campuses. The question of "the rights of communists" was usually asked, obviously prompted by teachers who are known to be members of the A.C.L.U.

Students everywhere indicate strongly that they are becoming weary and leary of the continuous droning by teachers about socialism, collectivism, and one worldism. Students are beginning to reject these shopworn teachings of their elder scholars.

Conservative speakers are now being well received.

This swing toward conservatism is noticed everywhere. Conservative student organizations and activities are becoming more in evidence; in some instances more active and effective than the liberal left-wing groups.

The students of our nation, who are the future custodians of our American Heritage, must be reached. Once they hear and begin to learn the truth about our free enterprise system, they will absolutely dump the false teachings of socialism.

THE MOST REVEREND CUTBERT O'GARY WARNS OF COMMUNIST CUNNING AND RUTHLESSNESS

The most Reverend Cutbert O'Gara, C.P., exiled Bishop of Yuanling, China warned that false liberalism and apathy to the dangers of communism have even reached into schoolrooms.

The prelate, who was a prisoner of communists for 22 months, warned that "our pseudo-liberalism and our indifference to the persecution of the church abroad are very sure marks of Communist 'conditioning' in this country. . . . In my own diocese I saw the evil of infiltration at work—cunning, ruthless, farsighted, diabolical, destroying at its very roots the work that was in progress for the propagation of the Faith amongst the Chinese, and I have seen here in our country the same corroding, blighting process which I first saw in China."

These words of wisdom: "UNLESS YOU BATTLE COMMUNISM HERE ON THE

RECALL BROWN BRADEN

Millions of Californians, Republicans and Democrats alike, have become sick at heart at the shameful and repulsive attitude of the Governor. They resent his complete disregard for the mandate of the citizenry to scrap the collectivist-socialist type of "Progressive" education. They do not like his carrying out the mandates of the red infiltrated and controlled California Democratic Council and his flaunting the mandates of the majority. They are fed up with his appeasement of, and his collaboration with, communists and the left-wing. They want a change now. Hundreds of thousands of citizens, who voted for him, are now disillusioned. They too want a change. What can the citizenry do about this?

The California election laws give the citizenry the media of recall action through due process of law. The Election Code declares that a state officer can be recalled by circulating a petition in not less than five counties of the state, and shall be signed in each of such counties by electors equal in number to not less than one per cent of the entire vote cast in each of said counties at said election.

The code further states that a "statement must accompany the petition stating the grounds upon which removal is sought," and that this statement is sufficient and not open to review; which means that Attorney General Mosk cannot get his sticky fingers in the process.

Let the citizenry be heard. "Heads Up" suggest that all good conservative groups and organizations carry on the fight for better government by starting a "Recall Brown" petition!

Those concerned and interested in a recall action against Governor Brown are urged to write to the Ad Hoc Committee to Recall Brown, P.O. Box 6519, San Diego 6, Calif.

UNDERCOVER—

The editor is proud to introduce this new column "UNDERCOVER" in tribute to the many undercover agents for the F.B.I. now working under much strain and hardship within the network of the communist conspiracy. They know that some day they will be called to come forth and testify before many governmental agencies; and in so doing, will subject themselves to vicious social, economic and possible physical attrition generated by communists. Many, who have surfaced, have dropped from the public eye as a defensive media, and some have since perished. "Heads Up" will present one such great American in this column in each issue. It is hoped that citizens knowing the whereabouts of former undercover agents will contact Karl Prussion, Box 6519, San Diego 6, California. They are much needed now in the showdown fight against communism.

HAROLD M. MIKKELSEN

Harold M. Mikkelsen worked as an undercover agent for the Federal Bureau of Investigation in Detroit, Michigan, from November, 1948 until December, 1953, at which time he publicly exposed himself as an undercover agent at the Smith Act Trials. Mr. Mikkelsen was an extremely valuable witness to the House Committee on Un-American Activities Hearings held in Detroit on May 4, 1954. His was a most difficult and hazardous job in serving our Nation. He had to reluctantly engage in intense day to day communist activity to finally qualify to be chosen by communist leaders as top security officer in the conspiracy. This gave him access to the higher echelon of the conspiracy, and was, therefore, one of the most productive undercover agents ever to serve. He had a photographic mind and was able to accurately relate much detail. He named more than three score communists.

The following short testimony should remove doubts from the minds of those who cannot believe that the conspiracy involves the ministry:

Mr. Mikkelsen: Then I met with Rev. John Miles. The first night I went to Michigan Avenue, Rev. John Miles was there . . . and was the second man in Michigan Avenue with whom I shook hands in connection with joining the Michigan Avenue Club (cell of the communist party).

Later . . . Rev. John Miles and myself spoke at the Civil Rights Congress . . . walking down the hall together . . . he told me he was teaching his Sunday school class dialectical materialism (communism). I met with him in connection with the Communist Party on a number of occasions.

A Word About The Publisher

Karl Prussion, who publishes "Heads Up," is a former F.B.I. undercover operative, having served in this capacity for 12 years. He came to the surface on August 12, 1959, and testified before the House Committee on Un-American Activities in 1960, during the infamous riots provoked by the Communists in an attempt to stop his testimony.

Prussion is continuing the fight with every weapon at his command. His career as an enemy of Communism, and his long study of its infiltration into our social, economic and political life, makes his revelation of Communism's evils authoritative and invaluable. He recently published "California's Dynasty of Communism," a booklet which became the primary issue during the election. He is on the roster of the "American Opinion Speakers Bureau."
