REC-31

ANONYMOUS COMMUNICATION CONCERNING
ASSASSINATION OF PRESIDENT KENNEDY

This is to acknowledge receipt of your communication dated December 4, 1963, captioned "Letter Relating to Assassination of President Kennedy," which had enclosed an undated letter bearing the typewritten signature "Pack 15."

In response to your request that efforts be made to identify the writer, this is to advise that laboratory analysis indicates that two typewriters, both Royal Elite, were used in the preparation of this communication. No watermarks or identifying characteristics were observed on the paper to indicate its possible source. The material was examined for indented writing with negative results, but it was determined that the two stamps appearing on the outer envelope originated from a roll-type stamp dispenser.

The typewritten material was not identified with similar material previously submitted to the FBI.

Three latent fingerprints of value were located on the letter in question, and should a suspect be subsequently developed, a fingerprint comparison will be made.

Local, county and state police in the Joliet, Illinois, area could provide no information which would indicate the origin of this communication. Neither could Post Office or Credit Bureau authorities. In addition, representatives of the Boy Scouts and Girl Scouts of America were contacted with negative results.

Should additional information come to this Bureau's attention relative to the identity of the writer of this communication, the Department will be immediately advised.
