Mr. J. Edgar Hoover,
c/o F.B.I.,
Washington, D.C.

Dear Sir: I had a personal letter from you dated June 20, 1951.

I still have the same faith in your department.

Please do not give up until you have every shread of evidence in the killing President Kennedy.

Please find out who is responsible for letting Jack Ruby into that jail corridor. Someone sure made a boo-boo. If he is mixed up in all those gangland affairs why is he or was he allowed to operate so freely.

Also what is being done about all those men named by Valenti in the Nosta Costa? Maybe I do not spell so good but I am a very patriotic American. My husband has a wonderful W.W.I. discharge.

This is no crank letter. It is a letter of praise to the F.B.I. and may God bless you all and help you to find the answers to these terrible things that should never happen in these wonderful United States.

Sincerely yours,
Frances Z. Becker,
(Mrs. Howard L. Becker)
