

December 16, 1963

Mr. J. Edgar Hoover,
Federal Bureau of Investigation,
Washington, 1, D. C.

Dear Sir,

President Johnson conspired with Communist Agents for the Assassination of President Kennedy. The deal was for him to become President in return for his aiding and abetting Russia in their subversion of the United States.

A word to the wise is sufficient, a thousand words to the foolish would be useless.

I hate traitors even more than I fear exposure and retribution.

Do not look for me or you will ruin a source of valuable information. I do not want a fatal accident and I have relatives in Soviet Russia. If there is a God, as you Americans believe, may he forgive me for becoming a traitor too but I believe your way of life is much better than ours.

If only I had the courage of Comrade Gizenko but I have not, as yet.

You will hear from me again under this pseudonym.

X Comrade X.

The Baldwin Hills Reservoirs collapse was sabotage in order to divert the people's attention from the Inquiry into President Kennedy's death.
