100-10461

Since 1/10/64, the spirit of OSWALD has warned them not to reveal the information they have. Also, the Lord recently told them there were three men following President JOHNSON who plan to assassinate him. They have the names of the men, the "fingerprint" of one of them, and could describe all of them, all of which has been obtained through visions from the Lord.

the men, the "fingerprint" of one of them, and could describe all of them, all of which has been obtained through visions from the Lord.

She and FLORINE are afraid they would be killed by associates of RUBY and OSWALD if they reveal the details of the above information while still in Texas, and on 1/20/64, she wrote to President JOHNSON, asking him to send "passes" so she and her family can go to Washington, D. C. She also told President JOHNSON of the visit by the Secret Service agent, that she had obtained additional information subsequent to that visit.

Agent, that she had obtained additional information subsequent to that visit.

For information of Bureau, both VERDELLA and FLORINE MONTGOMERY were not entirely coherent during the above conversation. Further, they exhibited their fear by keeping all of the window shades down in the house, the front door double locked, and no light in the living room.

The results of the interview will be submitted in the next report.
