

Office of F.B.I. Deerwood, Minn.
Washington D.C. June 10-64

Dear Sirs,

I am only a green country boy
who has an idea that you
have not looked under all of
the stones which hides facts
connected with the death of
John F. Kennedy our late
President. I have some things
that I would talk over with
you gentlemen and let you
judge the merits of what I
have to say.
