Colbourn had been a help in Mr Kennedy's
campaign 1960. In this way he
became acquainted with Colbourn
who showed the tele-ray television
to Mr Kennedy.

Now Mr Kennedy became a bit
interested in such device that
would by wireless allow one to hear
and see a display at a distance.
Now Colbourn had one operator

at Houston Tex connected with Dallas
w/ a c by KFD in Beaumont (see this
etc in regard to this) who was told
to be one who could help him "to catch on"
to it use.

The man is John Philip who I
believe shot Mr Kennedy by
tele ray his wife at side of
Mr Kennedy threw the spot ray
on the side of Mr Kennedy while
Calkoun headed the stream of
electron light to indicate to
Philip the path spot to shoot
along to hit his arm.

Philip held the gun, and at his
side stood John Knight employed
to hold the scale of electronics.
Mr Philip and wife were jealous
of Mr Kennedy's desire to help
a lady in her endeavor of work.
Philip wanted Mr K to devote
his attention to Philip's wife for
much money could come to them
this way - It was not that Mr Kennedy
wanted the Phil woman at all
