**NOTE:** Two anonymous letters were received, one of which was furnished by Walter Winchell. The letters contained a list of named individual alleged by the anonymous writer they had knowledge of the assassination. Indications were the anonymous writer might have been a mental patient at Kings Park State Hospital, Long Island, N.Y. as several references were listed for Buildings C and D at the above hospital. Investigation did not establish the identity of the writer and the Laboratory examination did not establish the identity either. The supervising psychiatrist of Buildings C and D, Kings Park State Hospital, indicated there are approximately 657 mental patients in these buildings whose mental conditions would preclude interviews. No further action necessary.
