NOTE:

[redacted] an informant of unknown reliability alleged an integrated, interstate gang hired Oswald and two others to assassinate President Kennedy because the President was in favor of legislation to recall all currency and reissue it in a different color which would affect gang's funds. It is significant that the reported main perpetrator was shot and died on 10/26/64. Further, we have never developed information indicating anyone other than Oswald involved in assassination. [redacted] has consented to take a polygraph examination and same will be afforded to determine the authenticity of the information furnished by him. In view of allegations U. S. Secret Service will be advised.
