Dear Mrs. Smith:

Your letter dated November 14th and enclosures have been received in Mr. Hoover's absence.

Please be assured that your communication will be brought to Mr. Hoover's attention when he returns; however, I know he would want me to inform you that matters such as you discussed do not come within this Bureau's jurisdiction. Your enclosures are being returned.

Sincerely yours,

[REDACTED]

Attention SACs: Correspondent's ten enclosures more or less enlarge upon the material discussed in her cover letter and are of no immediate interest to the Bureau. (140-0-71721)

Bufiles reflect that an inquiry was received from the Civil Service Commission concerning correspondent, aka [REDACTED] and [REDACTED] who made application for Government employment in Dallas, Texas, in July of 1963. On her application she had listed membership in the Dallas International Cultural and Social Circle. The Civil Service Commission was informed on 7-30-63 that neither Mrs. Smith nor this group was identifiable in Bufiles. (140-0-71721)

NOTE: Correspondent's lengthy letter and enclosures identify her as being a former English teacher having but a few hours remaining to complete her Ph. D. She formerly lived in Dallas, Texas, moved to Hawaii and is now residing in Santa Ana, California. She permitted her name to be used as one of the incorporators of the Dallas International Cultural and Social Circle, a nonprofit organization, when it was chartered in May, 1961, in Dallas, and she is now trying to have her name removed from such records inasmuch as she does not believe it is following its set aims. The aims are purportedly to assist in fostering understanding between native and foreign-born Americans; to assist newcomers from other countries into the stream of American life, to offer foreign language encouragement and to establish a language laboratory, according to one of its leaflets currently forwarded by [REDACTED]

(CONTINUED - OVER)

[REDACTED]

Her letter is rambling and contains large portions devoted to her belief that she is adept in extrasensory perception. She has been in touch with our Dallas field office and the Intelligence Section of the Dallas Police Department. She outlines certain dreams she has had in connection with the death of President Kennedy and on page 2 asks that she visit a competent hypnotist of Mr. Hoover's choosing to see if these dreams can be further developed to furnish "clues to the assassination." The last 2 paragraphs are pertinent and she implies she would like to know if belonging to the Dallas International Cultural and Social Circle would keep her not only from FBI employment but affect her in connection with some other Government job for which she may be applying. All requests and inquiries are intentionally being ignored.

Eight of correspondent's enclosures returned were copies of personal correspondence she has had and her own writings on the subjects outlined above. They evidence emotional instability. She also enclosed one of her group's leaflets previously described (copy retained for Bufiles). Her last enclosure is a letter dated 7-16-62 from the office of the Secretary of State, Austin, Texas, informing her that he is unable to remove her name from the records of the corporation in question and suggesting that she contact an attorney.
