to Viet Nam daily as many as seven ship waiting to unload while our ships are obliged to watch it not permitted to interfere controlled by Washington D.C.

All of these events pose the questions to you.

Why was Oswald permitted to be in Dallas without advising the Dallas police being notified of him and his presence, altold. The F.B.I knew he was there that he had purchased that high powered rifle had been practicing on the range that he was the man who attempted to assassinate General Walker. Saw him with the wrapped gun asked him what was in it realizing it could hold a gun without examining it, permitting him to go up in a building overlooking the parade rout and that no Secret Service men were in the presidents car although they are pledged to protect the president with their own body. they were all in the car behind. Thousands watching saw them come over the back after the shots. That was also seen by the American people.

The publicity given to the transfer of Oswald by at least 25 or 50 people when a suspect in a common murder is made in the utmost secrecy. The persecution of Jack Ruby who was justified in what he done hundreds Americans would of done the same by the chance

over,

The fact that those definitely responsible by
with criminal neglect by with holding the inform
mation from the Dallas police and the F.B.I. men who
with their knowledge of Oswalds presence there
did not remove him. Were definitely responsible
for the murder of our president a great tragedy to
all the world and a National disgrace that they
were never brought to justice.

This is why the American people want to know:
was it planned or by neglect permitted. These are
questions that could be answered by the F.B.I. and
other top officials.

A Democrat of forty years and I am glad
my time is short here.

Sincerely
