C.3.C. Television Frogra. "News Magazine" Fanel Discussion on the Larren Commission Report - November 22nd, 1966

Fresent:

Harrison E. SALISBURY (Hoderator) Wesley LEIBELUR (Commission Counsel) Burt W. GRIFFIN (Commission Counsel) Edward Jay TEPSTEIN (Author) Leo SAUVAGE (Author)

Two members of the News Magazine panel of experts helped to write the Warren Report, Attorneys Wesley LEIBELEM and Burt GRIFFIN. They face two authors who challenge Commission findings, Edward EFSTEIN, author of "Inquest" and French journalis Leo SAUVAGE, author of "The Oswald Affair". The moderator is Harrison SALISBURY of the New York Times.

I believe it has not been established by the Carro Commission not only that OSUALD was alone but that CSWALD was indeed involved in the whole assassing complex, so up to the moment when this has been clearly established beyond a reasonable doubt I have to believe according to the American rule of justice that a man is innocent until proved guilt: So for me OSUALD is innocent.

I find in travelling around the world and I think most of us even in this country and in Canada have found that there is a feeling among many people av in Asia I found this to be true last summer that there was, in fact, a patterned conspiracy centering around the Fresident's assassingtion of ENCLOSURE

SAUVAGE:

SALISBURY:

Announcer:

GALISBURY: (Cont'd.) large scope in which perhaps even Government agencies were involved and I wonder whether the Warren Commission addressed itself to that particular aspect of the situation - a possibility that the Government itself might have been involved in this.

I think there's two areas in which we want to look at this. There's the area of the physical evidence of what happened at the time of the assassination. For example, if there was any indication that there was more than one person firing at the time that would certainly be strong evidence of the conspiracy and, of course, the Commission checked that in great detail and concluded that there was only one person firing the shots and that they'd all been fired from behind and above. Then you go into the area of checking out his associations - what he did, where he went, the people that he knew - and you الدين المنظور ومتع الماد ينسب من من المنام . أمارية المنظورة ومتع الماد ينسب من من من just track that down as closely as you can and develop all the information that the F.B.I. and the C.I.A. and the Secret Service and the Commission could develop." And we weren't able to find any relationship between OJWALD and anyone else that seemed to bear on the assassinati

in any way.

LEI BELER:

SALIGURY:

Now we come to the autopsy photographs and that's the question I think we ought to address ourselve. to because those photographs were not, as I under it, examined by the Warren Commission or by the investigators for the Commission. They were in the بالمتركب والمغير possession of the KENNEPY family and have now been م يشرون الدين هو بالجواجعة والمبتد والتي المعالمة put in the National Archives under very severe restrictions, and I think it's a reasonable question to ask why were they not examined by the الما يكن المانية المانية المانية المانية المانية المراجعة المراجعة المراجعة المراجعة المراجعة المراجعة المراجعة المستقدمة المراجعة ال Warren Commission?

ان و میشود. مربع المربع الم المربع المربع

I think that first of all Mr. SFECTOR who was the lawyer responsible for this area of the investi-والمتعادية والمعالية والمراجع والمراجع والمراجع والمعالي والمعالية والمعالية والمعالية والمعالية والمعالية وال gation and myself, among others, and I don't know if you were involved in this at the time or not but Allen and I talked about it at some length, والمجريع سيبيها أنبع أنشبه أنتج أنبية الارتبانا الأراب المراجعات recommended to the Commission that they take the وجريبية فيريغ وماري جمعون والعلم المناقب المناقب pictures and that they look at them and the question of releasing them to the public or تمود المعاديرية والمكرة أفريد مترومه أندر كرما ماردك الرج making them available is not involved. That's not our problem but it was clear to Ir. SFECTOR المحاجي والمحاج and to me and the other lawyers involved that م من من المان المان المراجع المراجع والمحاصر ما تكوين من المان المراجع المراجع المراجع المحاص المراجع المحاص ا المواقع المراجع المحاص المراجع ا كر والعيد في محمد والمربع المربع the Commission should look at these pictures. وتينين موادتهم أردار وموال أرام مريد مرايع تسترجع فرارات Ve've always taken that position and I still think that that was right which they should have. Now the reason they didn't is because I think that and a second water of the second of the s the Chief Justice and some of the other Commissioners were concerned about the situation North Carling Carl

that might result if they did look at these

LEIBELER:

LEI3ELER: (Cont'd.)

EFSTEIN:

LEIBELER: There is a sub-

EPSTEIN:

LEIBELER:

pictures and put them in the Archives and then foreclose any independent examination of them because there is a matter of propriety or taste وبالمتاسية فبالمراجرة وجشان involved in here with these pictures. That was, at least, the excuse or the statement that the The second Chief Justice made. Now he looked at this problem - that was one side of it - the other side of it was that he had the Autopsy Report

itself....

الای و بیسه ویچکی کی ترکیک میکید. مرابع می از ایرو و برخ میکی است کی ایرو ایرو مرابع ایرو ایرو میکید میکی ایرو است ایرو What situation could have developed by putting them in the National Archives? There's all sorts of F.3.I. reports with very secret information in them - I mean you said, you know, you passed over it very lightly "a situation could have developed if the Commission had looked at these photographs' You have a problem that you've not a photographic a dead President on the autopsy table which if the were made available in the Archives for anybody to

Well there wasn't - everything has to be made available in the Archives....

الموالية بيني المستقدمة وأربع مع والمراجع ومن مع الموالية الموالية الموالية المعالم الموالية الموالية الموالية عليه الموالية الموالية

Well because I think that the - I've listened to and the second various explanations of this - the Commission felthat if it looked at any material and then did not make that fully available to the public....

ار میرد. معرف EPSTEIN:

LEI BELER: EFSTEIN: LEI BELER:

CALIS BURY:

EPSTEIN:

SALIGBURY:

GRIFFIN:

But look at the F.B.I. reports with all sorts of secret information and put in the Archives. But it's all been made available. No, not all the F.3.I. reports.

Ch yes. No I think, as a matter, of fact, some of it has not been made available. I'm not disagreeing but I don't see why they couldn't have conceived that they could look at information and not make it available. I'm going to ask you another question. Why coul they examine the X-Ray photographs which, it see to me, are the key things here which I don't bel mean anything to a non-expert or mean anything even if they were published. They don't reveal anything particularly about the Fresident in his appearance. Why couldn't there have been a distinction made between that material which is really what we're talking about and these photographs of the Fresident lying on the autopsy table.

I think, you know, I happen to agree with Mr. LEIBELER that perhaps the decision on all of th should have been made differently and now we're faced with the situation to-day and that situat is that both the autopsy photographs and the Xhave been placed in the Archives, I understand, the KENNEDY family and the doctors who testifie

(Cont'd.)

GRIFFIN:

EFSTEIN:

LEI 3LLER:

EFSTEIN: LEIBELER:

EFSTEIN:

LEI BULER:

EPSTEIN:

before the Commission and performed the autopsy, at least two of the three - one of them is in VietNam now - examined these photographs and Z-Rays and reaffirmed that their testimony was accurate.

You get a superficial examination. They reaffirm that these autopsy photographs were the authentic autopsy photographs I read and it's a press conference.....

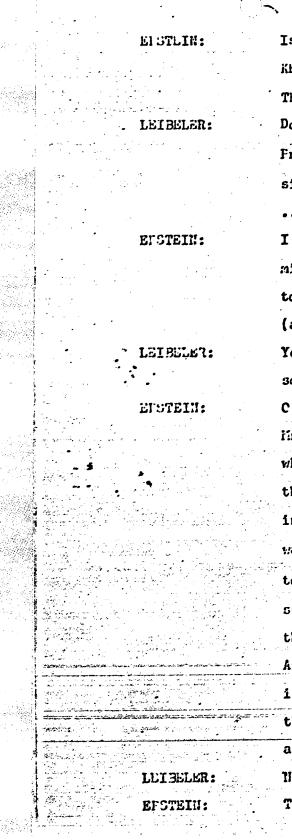

And nothing that they saw in these photographs or X-Rays which would have changed their testimon or reflected that their testimony was anything bu accurate.

Well without referring to a press conference.... All right, but the point is that we now have even a better situation here. The doctors have now se them and they've reaffirmed that they are accurat Now the issue is, it seems to me, the critical th is, is there something in these photographs? Is there something in these X-Rays that would change the conclusion of the Commission.

Or confirm.

lige beend a

Cr confirm it. The doctors have said they have looked at it and_it confirms the conclusion. Well not really. It confirms the accuracy of their testimony but the conclusion that the Commission never made....

Is that both men were hit by the same bullet, bot KENNEDY and CONNELLY were hit by the same bullet. They simply said that they couldn't agree on this Do you think OSWALD was the only assassing for of Fresident KENNEDY, that he fired the shots from t sixth floor and do you have an opinion as to what

I do have an opinion but I'd like to wait and it might be a period of five years or so but I'd like to wait till some people.....

(all panelists speak at cnce at this point) You've written a book, Mr. EFSTEIN, and it's been sold all over the world. يىنى بېرىيىيە ، ئىممۇش ئېيىمە سىنى بېرىسىيە ، C.K. I'll give you my opinion then Mr. LEIBLER a ir. GRIFFIN. My opinion depends on the question whether there is evidence that the bullet passed through Fresident KENNEDY's body, I mean evidence and the states in the autopsy photographs. Now I'm willing to wait until Federal Investigators - it might be tomorrow, it might be in five years - give me a statement on these autopsy - not give me but give the public a statement on these autopsy photograp And then I will have an opinion. If their states is that the bullet passed through President REAME then I think that one man alone, OSWALD, did the assassination.

Now which bullet? The one that hit him in the bar That's right. That's the bullet. If by any chan

they show that the bullet didn't pass through then I would think that this isn't proof of an assassin but I would leave the question unresolved in my mind.

I'd like to know Mr. SAUVAGE's opinion on this. Well I certainly disagree with what Mr. EPSTEIN has just said. I even disagree with the words "circumstantial evidence" he used before because what I've heard, especially on this precise point of his rifle capability and his presence, I would call that not circumstantial evidence but pure guess work and I believe you cannot call a man an assassin on the basis of pure guess work. He may have done it, he might have done it, it is not impossible to have done it, it's not even circum-It's far below circumstantial evidence stantial. and I don't believe that autopsy pictures are the ley to everything. I don't make a State Case out I believe it shows a contradiction in the of it. methods of the Commission but it's not all and I believe there are quite a number of points which should be elucidated and explained in a satisfact way to people who are not out of principle agains a Warren Commission but to want simply to be

convinced. Now I want to be convinced if you are

1.14

able to do it.

EPSTEIN: Cont'd.]

SALISBURY:

SAUVAGE:

DAUVACE :

SALISBURY:

al Vices a second

particular point. If the autopsy photographs do show that indeed a bullet passed through the Fresident entering below or just below his neck, or in his lower neck, and passing out through his throat - in other words, that there was this one bullet, it was not two wounds, and then we know about the other bullet hitting him in the head would this, to your way of thinking, tend to 1. 1. 1. support the theory of a single assassin or would it not be conclusive on that point? It wouldn't be conclusive because as members of the Marren Commission staff have said, the whole thing is connected. It's not just one question. It would give a satisfactory answer to one aspect of the case but there are twenty or twenty-fivemajor aspects and the twenty-four or twenty-three others would still remain open, but it would be at least one step forward toward giving logical answers to logical people. I would like to bring in the question of where the

May I ask one question more, Mr. SAUVAGE, on this

shots came from because this is an area in which there is disagreement with some of the findings of the Warren Commission. Bid all the shots come fro the School Depository building, was there one marksman, were there more than one? I'd like to know what the opinion of the critics are on this. I think that the shots did come from behind the President and I think they did come from the Texas School Book Depository. The question was there one rifleman or two riflemen - and this to some degree hinges on what we were talking about before - if President KENNEDY and Governor CONNELLY were hit by the same bullet I think it proves, in fact, that all the bullets came from one rifle and this is ver convoluted.

-10-

EPSTEIN:

SALISBURY:

EPSTEIN:

LEIBELER:

EPSTEIN:

SALISEURY:

GRIFFIN::

EPSTEIN:

Yes.

LEIBELER: ---

In other words, one man and one gun and one assassin Yes and I think that this is a question that the Commission left unresolved although I know a number of the members of the staff feel very strongly that both men were hit and they feel very strongly the evidence indicates this. But the Commission itself in its conclusions said it couldn't decide whether and I'm not phrasing them exactly - it-couldn't decide....

It said "most probably".

No it didn't say "most probably". It said it couldr reach a decision but there was very persuasive evide but that's not most probable evidence. This reflected did it not a disagreement among the Commission members themselves?

That's my understanding, yes. Now it seems to me, on this question, we do have all the evidence available, that was available to the Commission. LEIBELER:

And that in a democracy it's now incumbent upon each of us to decide whether the Commission should have stated it more strongly as some of the staff members Τ feel that it should have been stated definitely. happen to be one whom also prepared to state definit that there was one shot.

Yes, well I'd like to see.

But I'd rather - you see it bothers me to focus on the language that the Commission decided to use in its conclusions when we have the evidence here. But the Commission is the people that were chosen to give us.....

But we published

You say we can reach another conclusion ourselves ... But we published 26 volumes of materials and made it all available in the Archives so that in this democr system that we operate every individual, including j and Mr. SAUVAGE, can come to your own conclusions. But if we come to conclusions different than the Commission's conclusions it's not the Cormission's It's our own conclus: conclusions we're discussing. (all speak at once at this point). Mr. SAUVAGE I'd like to have your opinion on the المحتر والمحتجر والمحتجر والمحتجر والمحتج والمحتج والمحتج والمحتج والمحتج والمحتج والمحتج المحتج والمحتج والمحت question of one marksman or more than one and where the shots came from. What did it look like to you o the scene down there?

LEIBELER: **EPSTEIN:** LEIBELER:

EPSTEIN:

SALISBURY:

ويتركى المجروب والمعين الجنوا هيتني فالمرجوع المجروبي بعيديهم

SAUVAGE:

I don't know where the shots come from. What I regr is that the Commission has not checked every possibility and that is for me the major question in all discussions. In every discussion I will always come back to the same point. Did the Commission check th other possibilities and the answer is "no". Which ones, Mr. SAUVAGE, do you have in mind? Did you ever make an investigation of the grassy kno Of course.

-12-

Yes you talked to the witnesses. You have eliminate two thirds of the witnesses who thought it comes fro there and have kept only the witnesses which..... All of those - every witnesses was reported. Now I am quite sure that one of the bullets at least came from the Texas School Depository. Well how could - if the autopsy shows that the bulle came from behind the President how could the shots c from the grassy knoll?

I don't know what the autopsy pictures show. Not the autopsy pictures. I meant the results of th autopsy. I mean this is what bothers me about a num of people, you know, that quote witnesses saying the shots came from the grassy knoll. I mean I think th you know.....

The thing has not been explained at all. For instan I haven't been at the National Archives, I haven't s the film....

You don't have to.

No, but someone saw it and some man made a report

SAUVAGE: LEIBELER: SAUVAGE:

LEIBELER:

LEIBELER: SAUVAGZ:

EPSTEIN:

SAUVAGE: EPSTEIN:

SAUVAGE:

EPSTEIN:

SAUVAGE:

describing it as the second bullet which hit the President that he fell backwards and according to some technicians who have interpreted the film they' come to the conclusion that the bullet which blew up his brain came from here, from the side. Now I don' know. I don't want to enter technical discussions. Eut Mr. SAUVAGE, if you're going to make a determine of what's going on here you're going to have to talk about it in technical terms.

No I ask questions. I don't explain. O.K., well let me try and answer the question. But this is an obligation that we all have though. Let me try to answer the question. What you're doin now is comparing a statement that's been made by som of the people who have looked at the film and it doe seem like the President moved to the left and toward the rear when you look at the sequence of films invo here, and you are suggesting that that shows or sugg that somebody fired from the front and to the right, say from the grassy knoll which...... (both men talk at once at this point)

I suggest that the Commission.... Let me go on. Let me finish on that. You're going have to compare that supposition, that hypothesis vi the Autopsy Report. The Autopsy Report and the surg who examined the President after he was shot testifi it was absolutely conclusive that all the shots that hit the President came from behind and above. Now

a start

متأثرة فالإلارية والمستوات فأتلا

there's just no question about that in terms of the physical examination and they can tell the way the bullets entered, the way the bones break and the way they exit. It's perfectly clear that they all ceme from behind and above. Isn't that particularly true with this massive wounk that there's a small entry in the back of the skull

and you can just see how it sort of exploded. Yes.

Is it possible that the head was turned? Do we know that from photographs? I don't know this point. Well there is an explanation of why the body moved that way, as a matter of fact, and Jacob COHEN has a it forth in a recent article in "Frontier Magazine" and that was he suggested that the President started to turn slightly to the left before he was hit by the shot and the film shows this. And then the bullet him on a tangential line and since he had already started to turn this did tend to spin him to the le: and could have thrown him backwards. Now the back brace also may have had something to do - that he wa wearing at this time.

Yeah, well I agree with you basically that the automore report is crutial and if the autopsy report is accumulated then these other questions are just simply.... Now I went over this just the other night. I went of a loss in Dallas the night before last on my way here from Los Angeles and I took the time between planes go there and I walked over this whole area again.

1.11

And one thing that impressed itself upon me when I was there, Mr. SAUVAGE, was that it just would have been absolutely impossible for anyone to have fired from the area of that grassy knoll without being ser Was OSWALD, in fact, a marksman at all? I know he h a medal from the Marines. Was he capable of firing these shots from the distance of the School Deposito What was the Commission's determination in that? The Commission had testimonies from people who had observed the type of shot that was involved in here and they conducted tests to see whether it was a difficult shot or an easy shot. Nobody was able to duplicate these shots were they? Oh as a matter of fact they were. Sure they were. Under certain conditions but the interesting thing here is the Commission had different type witnesses They had some witnesses that had attempted to duplicate it - his actual feat of firing three shot Other witnesses testified in gener in 5.6 seconds. They als about a Marine Marksman, how good he was. had F.B.I. witnesses and what happened is that in July, while they were writing the Report, they call two witnesses from, I think, the Marine Corps, Majo HASAN: (phon) and I don't remember the name of the second witness. And they asked them a hypothetical question of whether it would be a difficult or easy And they left out the time factor of 5.6 sec shot. en ander son der die eine der einer der e in other words a distance factor, and of course it

a relatively easy shot to shoot someone from 70 y;

LEIBELER: EPSTEIN: LEIBELER:

> SALISBURY: EPSTEIN:

SALISBURY:

LEIBELER:

EPSTEIN:

الأياشي فالملج فيهتكم تشكون وسائد المهتر تحبيه تؤويها يتوجيه

It's a very easy shot. Right, if you leave out the time factor. We'l but you've interjected a time factor that is no necessarily related to reality in any way haven't yo Mr. EPSTEIN? It's 5.6 seconds to fire three shots. I did, I did, but this is the assumption they were working under at the time - the Commission thought t - they stated.... That's the....

It's stated in the Report. That's the outside possibility. That's the most extreme case, that it was three shots in 5.6 seconds But they had to consider the most extreme case. That's right, that's right.

In other words if the Commission couldn't agree that both men were hit by the same bullet, then 5.6 secon is the maximum amount of time that OSWALD had to fir the three shots. They had to consider that. Why is it fixed at 5.6?

Well they fixed it by determining the earliest point that OSWALD could have fired the first shot and the latest point that OSWALD could have fired the third shot, counting the frames of film an amateur photographer had taken....

Isn't there an alternative theory that someone has advanced that there could have been a first shot ear in the sequence of frames that the Commission establ If the Report discusses that.... Only if one bullet misses.

	LEIBELER:	
	and a construct of the second	Yes but that requires, as Mr. EPSTEIN suggests,
an all an		that one bullet missed which it seems that it did
		in order that the single bullet passed through the

-21-

THE BAG WAS FOUND RIGHT THERE AND IT HAD OSWALD'S P ON IT. THAT'S RIGHT, IT'S ALL CIRCUMSTANTIAL EVIDE THERE'S NO QUESTION ABOUT IT. YOU CAN MAKE THE ARG THAT OSWALD CARRIED HIS RIFLE IN THERE UP TO THE 6T FLOOR AND THEN SOMEBODY ELSE FIRED IT. THIS LEADS US TO A VERY IMPORTANT POINT AND MAYBE T CRUTIAL POINT OF THIS WHOLE DISCUSSION, IS THIS. S THERE BE A RE-EXAMINATION OF THE WARREN FINDINGS AN المويدة المؤور المصادر المراسية المراجبة المراجبة SO BY WHAT MEANS? WOULD THIS RESOLVE ANYTHING? WO 10. THIS BE A USEFUL EXERCISE? YOU GENTLEMEN WERE ASSO and the second second IATED WITH THE WARREN COMMISSION. و است. د و مود کرد و در از دارد در است. د و مود کرد و مند در در در در

OF COURSE, MR. SALISEURY, I THINK THAT WE'VE BEEN U GOING A RE-EXAMINATION IN ONE FORM OR ANOTHER THROU 1 1 2.37 THE PRESS AND T.V. MEDIA FOR SOME TIME NOW. THIN an a ann an Bhaile Anna Anna Anna THIS IS HEALTHY. | THINK THAT WE COULD HAVE A BETT n de la serie de la construcción de EXAMINATION AND IF WE ALL HAD THE TIME AND WERE PRC المتريقين المراجع PREPARED IN ADVANCE ON WHAT WE WERE GOING TO DISCUS an in the first method states. AND | DON'T MEAN TO SUGGEST THAT WE HAVEN'T - YOU YOU F CONDUCTED THE PROGRAMME VERY WELL - BUT WHAT I HAVE a destination in the second أومواصبهم المراسع والمعرب المتحافين أستعر أسترم وتراجع أوالم المحفظ أترار والجراري ويتعا المحفظ والمعاق والمحاف MIND, PERHAPS, IS THE ALLOWANCE OF TWO OR THREE DAY AT A UNIVERSITY SITE WHERE WE WOULD ALL HAVE THE IS an en bothen der selfer des betregen ich die beidenet. LAID OUT TO US IN ADVANCE - WE COULD HAVE A CHANCE
