of drunkenness, he occupied a cell with three or four other individuals, mames not known to him. He stated one of these individuals wanted to wager that President KENNEDY would be assassinated within a few days at Dallas, Tex. This individual was vehement in his claim concerning the future assassination even to the point of wanting to fight about it. Stated that this individual was about 30 years of age, 5' 10", hair.

stated neither this individual nor the other two who occupied the cell with were Americans. He said he concluded they were not Americans, although they spoke English almost without accent, because of the hue of their skin which, while not Negroid, did not appear to him to be American. He stated he did not, however, believe they were Mexican or Cuban.

related that at the time of the assassination, he was in jail at Albuquerque, New Mexico, on a charge of drunkenness. He stated that he subsequently travelled to Dallas, Tex., where he was again of Jacksonville, Fla., came to Dallas to return him to Florida.

He stated that while in Jacksonville, approximately two or three months after the assassination, he made a long distance collect call to Sheriff BILL DECKER at Dallas, Tex., to tell him of the incident which occurred while he was in jail in Amarillo, Tex., a few days prior to the assassination.

not immediately report to the authorities concerning the incident in the Amarillo Jail after President KENNEDY was assassinated, but after thinking about the incident for a period of time he was prompted to call Sheriff DECKER.

MM 105-8342

He stated he did not know if any action had been taken concerning this information but that in view of the recent publicity concerning the assassination he was prompted to tell the officer at the Miami City Jail of the incident when he was arrested on the night of 2/22-23/67.

tated that he did not recall the nature of the charges on which the other occupants of his cell at Amarillo had been jailed although he thought perhaps it was for vagrancy. He seemed to recall that they were released without going to court although they were in the jail about two days. He said they were all in the same age bracket, none under 20 and none over 30.

stated that he thought the identities of the individuals who occupied the cell with him at Amarillo could be determined through the jail records.
