My dear Mr & Bro. Hoover;

I say - there is an old saying ; " It takes a thief to catch a thief ". Can it be a boom-a-rang ; this fantastic District Attorney - is it Garrison's her perchance ; a friend , behind the scenes of " Jackie " or " Bobbie " or both " Bobbie " has certainly been striving so very hard to wear his dead mother's shoes since it seems to be a game of keeping a dead man alive by any means ; " Bobbie " has such a brilliant mind in his own self esteem- I put this question - was he in the " Death of a President ". I studied the fine features, the honest of the new accused and the thought came to me that we are all living in a very dangerous age of this fine gentleman can be accused at the whim of a " District Attorney " storming then you , myself , just anyone can be accused of just anything in these days of intrigue. I couldn't help wondering - how deep is " Bobbie " in this - how deep is " Jackie " or both. Neither makes a move without the other. The gapvins had that " Jackie " was considering coming to the " parting of ways " with " Jack " before he was elected to the Presidency. Just who is forcing " Bobbie " that " is such a teamrolling, dominant pressurizing public individual? I believe the public should know JUST WHO IS PUSHING THE KENNEDYS. My late son-in-law was a cousin of theirs. They can be pretty mean and MOST UNFORGIVING. Is it PAPA " JOE " ? WHO IS PUSHING THEM ? My late son-in-law's mother was a Fitzgerald, who married a Melv.

Who pays for the Kennedys touring all over the World? Certainly NOT THEIR POCKETBOOK.

I'd like to know - if this Country is so poverty ridden - why did the Legislators permit Truman to let come in , was it seven hundred fifty thousand a time, without Immigration permits ? Who - if we are - who - pauperized this country ? The finger points to Roosevelt, Truman and now - Johnson. This I know - a President passes any issue. It is up to the voters. It is only a chair - but he gets the blame.

When women get put back into their natural sphere , the home, we see less child murderers, less drug addicts , less criminals. Women are imitated by men. Those who want to go naked send to Africa and let them loose in the Jungle.
