

...the fact that...  
...at other times, we have here a...  
...part of the federal government...  
...blocking completely the inquiry...  
...into attempting to block the...  
...inquiry into the death of Pres...  
...Govt Kennedy.  
...Again I want to emphasize that...  
...it is not a case of my saying now...  
...we won't be able to find out. We...  
...have found out how it happened.  
...There is no mystery. It wasn't...  
...that complicated. The question is...  
...getting the names, the final...  
...names of some of these people, a...  
...few details to wrap it up. And we...  
...are being blocked completely by...  
...the CIA. While we have a...  
...problem of cooperation with...  
...other federal agencies at this...  
...time, it is apparent to me that...  
...the CIA is engineering this...  
...because its future, its prestige is...  
...at stake, and above all, its...  
...power. One of the things that...  
...sure it's worried about is that...  
...Congress may begin to get...  
...curious about this monstrosity...  
...this cancer it has developed in...  
...this country and begin to apply...  
...controls which should have been...  
...applied a long time ago.  
...Q. Because of this blocking...  
...effort which you prescribe to the...  
...CIA, will this in any way hinder...  
...or eliminate the possibility of...  
...your solution of the assassina...  
...tion?  
...A. No, I don't think there is...  
...anything to eliminate it. But it...  
...will slow it up. If it were not for...  
...this, if we had had the slightest...  
...cooperation of the Central Intellig...  
...ence Agency there would be...  
...nothing else to investigate. In...  
...other words, the picture has...  
...become that clear in a sense it...  
...being confused. It's just some...  
...details which we regard as very...  
...important details. But we're not...  
...going to stop until we get them...  
...but right now they are in effect...  
...locked in the CIA.  
...They know the name of the...  
...man involved and the name of...  
...the "bourgeois" who pulled the...  
...strings from the grassy field...  
...and a "bureau" agent. And they...  
...know that they did it because they...  
...were former employees of the...  
...CIA while they were training in...  
...New Orleans in the summer of...  
...1963.  
...Raymond Russel told...  
...a strange and startling tale about...  
...the conspiracy to kill President...  
...Kennedy. Is Perry Raymond...  
...Russel your star witness in this...  
...whole investigation?  
...A. Well, the question of...  
...this regard is the question of...  
...the man in the course, is a little involved. But it...  
...involves a great deal of...  
...disappointment to these gentle...  
...men from the federal govern...  
...ment who are working so hard to

...the conviction. It is not...  
...since that statement was made...  
...there arriving that would lead...  
...you to believe that that state...  
...it is no use now.  
...A. No, the only thing...  
...however, first of all is, so far...  
...is a bad word. But it is...  
...nevertheless true. But let me...  
...clarify what I meant because it...  
...was presented as a fact. As I...  
...went into the elevator, they said...  
..."where's your next arrest." And I...  
...said, "There's, it may be a long...  
...time, but I'm sure I'll be...  
...I don't want to talk about...  
...arrests. I first said no comment...  
...nothing worse in a major case...  
...But there will be arrests. And...  
...than a witness who is lying...  
...said yes, there will be. Then...  
...there is nothing easier for a...  
...defense lawyer to lose...  
...you've solved the case? And I...  
...said we solved the case some...  
...time ago, mainly that we unde...  
...stood what happened and who...  
...the principal people were and...  
...it exposed to the public...  
...without any question.  
...Well, the next thing I knew...  
...there were photographs of me...  
...selected from some other in...  
...dent, with a big smile on my...  
...face, announcing that we had...  
...solved the case. Well, it wasn't...  
...intended to be a great...  
...and in certain instances...  
...remains as to the general...  
...and as to the key people...  
...involved. And this remains true...  
...your investigation of the...  
...On the other hand, I did not...  
...A. The summary, what it...  
...means to be such down to is...  
...total destruction by elements of...  
...the federal government where...  
...we could not get any...  
...cooperation from any federal...  
...agency, that we have our lines...  
...produced constantly. Well, not...  
...the state is not a sovereign...  
...let a problem to the...  
...agency concerned, we...  
...A. I don't bother us. But as a...  
...result I think that in closing...  
...the final details of unless we...  
...evidence that we want take us...  
...change has to begin in this...  
...case longer, but we're not...  
...to quit, we're going to get...  
...anyway. But I'd say, that...  
...time is now? The Central...  
...Agency, the Central Intelligence...  
...Agency of the United States...  
...Agency could in the next 60...  
...minutes give us the name of...  
...every last Cuban involved in...  
...and we can help them with a...  
...and we can be totally uncontro...  
...description of how to find the...  
...names and in 60 minutes from...  
...now the case would be complete...  
...ly closed. And that's how close...  
...we have been to the end for...  
...sometimes, but we are blocked...  
...this glass wall of this totalitari...  
...an, powerful agency which is...  
...worried about its power. And...  
...obviously worried about its...
