The Honorable J. Edgar Hoover;
Director, Federal Bureau of Investigation,
Washington, D.C.

Dear Sir:

I am still betting that my sense of the political situation and my knowledge of the methods of some of our political leaders will in time prove me right in my guess as to where the culprit is in the Kennedy assassination.

Back in 1961 I felt that Reuther represented the pro-Castro group and that he was closely allied with the Rusk crowd in State. I never had any doubt that President John Kennedy was opposed to Castro, adamantly so. As long as he was President, even though he was to the Left, he could be budged no farther Left. Reuther said so himself.

Oswald got maximum help from the Rusk crowd in State, including the Zionist crew. Ruby was basically the same type of fellow as the guy who killed King.

Because State was pro-Castro and was willing to help him, we in C.I.A. were also governed by a pro-Castro policy emanating from the very top. The pro-Castro influences were to be found in both the Republican as well as Democrat policy-makers immediately above Allen Dulles.

So far as I can see, Medford Evans makes sense. Garrison may have uncovered low level Right Wing agents. But it was the custom of the pro-Castro elements in State and C.I.A. to order Right Wing career employees to do their dirty work as a cover. That is why I left. I observed too many instances of our people being used as covers because they had no right to disobey order.

Bobby is now in league with the very people who conspired to liquidate his brother, using our official governmental machinery to carry out the fell purpose. C.I.A. has been heavily penetrated for years, so much so that I would never work for it again.

Now L.B.J. is going to have to pay the piper for playing ball with Keuther. Is it absolutely necessary that each and every one of our Presidents, from Roosevelt, through Truman and Eisenhower, to Kennedy and Johnson, get into bed with Walter and Victor, the two most dangerous politicians in America. You cannot play ball with the Keuthers without getting entrapped. I oppose them and shall oppose them to the very end. I have always hoped that someone with more guts than I could fix their political waggon for them.

The revelations of the New Orleans District Attorney are very damaging to the administration, particularly to L.B.J.. But certainly L.B.J. did not order the killing of Kennedy, although many people are beginning to believe this story. I would stake my reputation that L.B.J. has been framed, even though I think Garrison's presentation of the actual facts are probably correct.

Would L.B. J. not be in a much stronger position for the future if he dumped all party loyalty and uncovered the whole truth of the Kennedy assassination publicly before he leaves the Presidency? If I were in his shoes, I would be ruthless in exposing how the assassination of Kennedy was carried out. Of course there may still exist covers that cannot be broken to reveal the true agents of the assassination. I still hold that the Keuthers had much to gain from getting rid of Jack Kennedy who was a Naval Officer and a combat veteran. I think that there are some things which even a Jack Kennedy would not do for his own personal glorification.

I can testify from my contacts with the public, no one really believes the Warren Report any longer. We know the Communist papers called for the Warren Commission well before it was formed. They even called for Warren to head it. Let's out with the truth if possible in order to give the American People more confidence in their government in this vital hour of crisis.

Sincerely,

Homer Brett, Jr.
