John Nichols, M.D.
Associate Professor of Pathology
Department of Pathology and Oncology
School of Medicine
The University of Kansas Medical Center
Rainbow Boulevard at 39th Street
Kansas City, Kansas 66103

Dear Dr. Nichols:

This is to acknowledge receipt of your communication dated November 24th, with enclosures.

Although I would like to be of aid, FBI Laboratory personnel conduct examinations and technical services only for duly authorized law enforcement and other Government agencies. Consequently, we are unable to prepare the photographs you requested. I hope you will understand our position.

I am returning your enclosures herewith.

Sincerely yours,

C. M. Kelley

Enclosures (2)

1 - Kansas City - Enclosure

John F. Kennedy

NOTE: Correspondent requests that certain evidentiary material be photographed by the FBI Laboratory in connection with his study of the assassination of President Kennedy. We have had substantial correspondence with Dr. Nichols concerning the assassination of President Kennedy and our dealing with him have been circumspect. Dr. Nichols filed an unsuccessful suit against the United States and the Archivist in which he sought certain FBI Laboratory data dealing with the assassination. On August 2, 1973, he was furnished certain photographs which he had requested in connection with the assassination of President Kennedy.
