Dear Sir: 20013

Since I have seen a film clipping of
Pres. Kennedy's assassination, One shown of
WTAZ-TV - Pittsburgh News. I feel film
clipping is enough to at least reopen
the investigation. I feel the American
people have not been told the truth
or perhaps had to believe less than
what actually happened. This worry
is very thought provoking and unsettles

One discrepancy which I also feel
advantageous to find the truth was to
supern documents from the Review.
