Honorable Clarence M. Kelley, Director
 Federal Bureau of Investigation
 U.S. Department of Justice
 Washington, D.C. 20535

W. Henson Moore

Dear Mr. Kelley:

A constituent of mine who is teaching a college course on the Kennedy assassination has requested information from me which must come from your office. He has asked for the results of the neutron activation analysis done by the FBI in 1964 on the bullet and bullet fragments taken from the bodies of President Kennedy and Governor Connally. I would very much appreciate receiving that analysis or a summary of it.

With kindest personal regards, I remain

Sincerely yours,

W. Henson Moore
