Dear [REDACTED]

The letter of November 13, 1975, from you and [REDACTED] to the President, has been referred to me through the Attorney General for reply.

Over the years since the tragic assassination of President John F. Kennedy, there have been numerous charges concerning the investigation conducted and the conclusions of the Warren Commission. This is only natural considering the nature of the crime and the vast amount of information developed regarding it. There is much room for individual interpretation of the facts and seemingly related incidents.

In the interest of thoroughness and justice, this Bureau continues to conduct inquiries into pertinent new allegations and information regarding this matter. Thus far there have been no factual developments which would reasonably cause doubts as to the conclusions of the Warren Commission.
