Dear Sir:

I read your "Point of View" on page B-7 of the Jan. 15th issue. E.C. Williams, the author, must have been hiding in a closet when he was in FBI or he is trying to whitewash FBI criminals.

In 1962 I gathered from an F.B. agent in Seattle that Pres. Kennan was going to be assassinated, possibly through conspiratorial help of the FBI and the police. In 1963 I knew definitely that the CIA was going after Kennedy.

A situation was being set in Seattle so that if Kennan was visited there, he would be killed. I even know the parties and the names that were to be figured in it.

evidence. I wrote about this in
detail in several articles which I
sent to newspapers ^{and public officials} in past years.

In 1969, that Seattle FBI agent

asks: "What about assassinations

I wonder what Williams looks
like. The Seattle agent should
be between 56 and 60 now. He is
bald, thin, and 5'11. ^{Herbert} ^{Conspiracy} ^{this}

I am enclosing two articles,
