

Dec. 25

Dear sir,

Newspaper reports tell us that the FBI 'Leaked' a report to the effect that Oswald the murderer of President Kennedy worked alone and was not part of a cell.

Is it possible for you to tell me if Communists murder 'on their own' without orders?

Is it possible for you to tell me if the FBI did in fact leak some information about the murder to the press?

I have a hunch that all of this is a lie by the press to place the American people back to sleep for now all FBI information is in the Warren Commission's hands and we (the people) will receive only what the Warren Committee wants to tell us.

sincerely,
Nick La Bella
