On April 10, 1968, information was received that an individual matching the description of the subject that shot MARTIN LUTHER KING was on the mall at 12th Street and Washington Drive S.W. This individual was described as unkept and carrying a brown napsack.

SA JAMES W. NORMENT subsequently observed an individual matching this description at that intersection. The individual identified himself as FRANKLIN FREDERICK ALBERT BULTEMEYER and voluntarily accompanied SA NORMENT to the Washington Field Office where he was photographed and fingerprinted. The fingerprints were immediately taken to the Federal Bureau of Investigation, Identification Division and no identifiable record was located. A comparison of BULTEMEYER's fingerprints were made with the latent fingerprints obtained in this investigation and they were not identical.

BULTEMEYER's prints were checked through the fugitive index with negative results.
